CATALOGUE

Products for prevention and removal
of the environmental accidents,
for safe and clean workplace

Selection from our new products:

Universal absorptive pads

page 23

Hydrophobic absorbent boom filled with loose sorbent

page 41

Safety signs for hazardous substances

page 86

Sacks stand with lid

page 108

Disposable drain covers

page 136

Sealing bags for conical pipeline

page 143

Antislip self-adhesive tiles

page 156

Spill tray without absorptive materials from ABS

page 181

Ladder intervention containment boom

page 270

Content

Absorptive means 11

Assortment of the sorbents	12
Universal absorptive means	15
Materials for the sorption of aggressive liquids	29
Hydrophobic absorptive means	31
Manipulation means for use with sorbents	45
Absorptive means REO FB (FIBROIL)	47

Spill sets 50

Spill bags	51
Emergency spill sets	53
Barrel spill sets	54
Mobile spill sets	58
Spill sets in boxes	62
Mercury spill sets	65

Wipes and accessories 66

Industrial wipes	68
Quick-absorbing wipes	71
Stands and wipe holders	72
Economic paper refill	73
Hygienic means	74
Washing pastes	76
Wet wipes	77
Cleaning equipment	78

Packing for hazardous substances 81

UN-certified plastic barrels	82
Antistatic packs	84
Clinical waste vessels	85
Plastic vessels	86
Hazardous substances packs marking	86
Plastic and metals canisters	87
Metal drums	88
Double-casing vessels	89
IBC containers for liquids	90
IBC containers	92
Boxes for accumulators and batteries	94
Vessels for flammable materials	95

Baskets, vessels, containers 96

Hand-presser for PET bottles	97
Collecting vessels for separated waste	97
Separated waste labels	97
Collecting vessels	98
Universal vessels	100
Eco modules	101
Waste baskets	102
Stands for bags	108
Stackable pallets	109
Plastic containers	110
Metal containers	111
Glass fiber reinforced vessels	112
Vessels for storing	113
Tool boxes	114
Containers for gritting material	115
Gritting trucks	116
Tilting trucks	117

Dust control and anti-fatigue matting 118

Indoor dust-control mats	119
Outdoor dust-control mats	123
Disinfectant entrance mat	125

Anti-fatigue mats	127
Special mats	132

Sealing means 133

Rapid hardening putty sticks REO	134
Barrel patch	135
Sealing plugs	135
Drain covers	136
Canalization barriers	139
Sealing bags	144
Lifting bags	144
Pipe wraps	145
Leak collecting foil	146
Wooden sealing plug set	146
Mallet	146
Sealing paste	147
Sealing dry granules	147

Tapes, barriers, markers 148

Industrial tapes	149
Marking tapes	154
Surveying tapes	155
Marking chains	155
Anti-slip tiles	156
Anti-slip tapes	157
Softened warning protective edges	158
Photoluminescent signs and tapes	159
Markers	162
Warning barrier	164
Portable traffic signs	164

Storage accessories 165

Metal spill containment pallets	166
Plastic spill containment trays	172
Low spill containment floors	173
Plastic spill containment pallets	174
Covers for spill containment pallets	174
Plastic pallets	179
Plastic spill containment tanks	180
Spill containment canisters	182
Plastic measuring vessels	183
Laboratory vessels	184
Funnels	185
Safety dispensing stand	186
Drum taps	187
Drum wrenches	187
Drum gauges	188
Hand operated drum pumps	189
Drum engine pumps	191
Drum racks	193
Trolleys	197
Drum opener, drum lifter	199
Hook for moving	199
Ladders	200
Safety knives	202
Waste collecting pliers	202
Trolley for gas cylinders transport	203
Shelters for gas cylinders	203
Key cabinets	203
Safety cabinets	204
Portable stocks	206
Washing tables and tanks	208
Degreasing liquids	210
Degreasers and technical chemicals	212

Equipment for vehicles and drivers 213

ADR warning tables	214
Warning triangles	216
Wheel chocks	216
Car first aid kit box	217
Isothermal cover	217
Reflective tapes	217
ADR emergency spill bags and suitcases	218
ADR safety signs	221
Lamps	222
Reflective vests	225
Warning reflective cones	225
Shovels and brooms	226
Fire extinguisher covers	227
Fire extinguisher stands	227
Webbing belts	228

Personal protective equipment 229

First aid boxes	230
Respirators	231
Safety helmet	231
Protective goggles	231
Protective gloves	232
Protective suit	233
Top boots	233
Fast creeling put-on	233
Winter jacket	234
Non-flammable suits	235
Rain coats	236
Protective coveralls	238
Safety showers	241

Special equipment 243

Containers, tents and accessories	244
Lamps	248
Foamy extinguishing agents	249
Fire extinguishers	250
Decontamination means	252
Water tanks	253
Oil skimmers	254
Submersible sludge pumps	255
Floating pumps	257
Dehumidifiers	259
Flood bags	261
Interior dehumidifiers	262
Safety screen	263
Covering sheet	263
Disinfectant zone	263
Hose ramps	264
Non-sparkling tools	265

Containment booms and barriers 267

Lightweight spill containment boom	268
Metal spill containment boom	269
Ladder spill containment boom	270
Two-chamber spill containment boom	272
Inflatable spill containment boom	273
Inflatable rescue walkway	273
Rescue throwing bag	273
Life jacket	273
Dam barrier	274

BEST QUALITY, s.r.o.

Certification authority

Certification authority BEST QUALITY, s.r.o. has been accredited by Czech Institute for accreditation o.p.s. under number: 3093

CERTIFICATE

of Quality Management System

We herewith confirm that the company

REO AMOS, spol. s r.o.

Provozní 5560/1b
722 00 Ostrava - Třebovice, Czech Republic
Registration number: 42767181

has met requirements for quality management
system pursuant to standard

ČSN EN ISO 9001:2009

This certificate is valid for:

**Production and assembly of mobile extinguishing equipment, utility containers,
fire containers and trailers, purchasing and selling of fire accessories,
production of textile sorbents, spill containment booms, metal-working products
and purchasing and selling.**

Period of validity: **24/06/2010 – 24/06/2013**
Certificate number: **BQ 1115**

Issued by: Jiří Parolek, executive of the company BEST QUALITY, s.r.o.
Ostrava, Czech Republic, 24th June 2010

It is possible to receive other explanation concerning subject of the certificate and generality of the requirements of the standard ČSN EN ISO 9001:2009 at the mentioned organisation.

BEST QUALITY, s.r.o., Těšínská 54/120, 710 00 Slezská Ostrava, Czech Republic

Access ramp	168, 173	– Mobile	99	Cleaning brush	209	Degreaser	
Air Blower	272	– On bio-waste	98	Cleaning rags	76	– Concentrated	211
Air conditioning	246	– On flammable material	95	Cleaning set	78	– Foamy	211
Air Freshener	74	– On Fluorescent lamps	94	Clips	46	– Industrial	211
Amplifier flow-meter	192	– On gritting material	115	Closing device	107	– Non-foamy	211
Anti-sprinkle wall	208	– Plastic	86	Cloth		– Strong	211
Aperture Accident	263	– Round Brute	100	– Covering	263	Degreasing liquid	210
Ashtray	106	– With Lysine	112	– Hydrophobic	39	Dehumidifier	
Automatic water-station	246	– With stand	112	– Universal	24	– Industrial	262
Back stop for drums	193	– With wheels	98	– Under the bike	39	– Interior	262
Bag		Biodegradation	13	– With holes	226	Desinfection mat	263
– Conical sealing	143	Blower	247	Clothing		Desk	
– Emergency	218	Boom		– Antistatic	233	– Washing	208
– Flexitanks	253	– Economy	43	– Fire-retardant	233	– With double-sink	247
– Flow	143	– Filled with loose sorbent	41	– Protective	233	Detergent injection system	252
– For cracks	144	– Hydrophobic	41	– Single	238	Dispenser	
– Lifting	144	– Sorption	41	Collector		– For folded wipes	70
– Spill	52, 64	– Spaghetti	41	– Metal	45	– Handy Box	69
– Sealing mini	143	– Strip	42	– Net	45	– Mini	74
Barometer	138	– With hair	42	– Oil	254	– On roll	70
Barrel		Boots		– Sorbent	45	– On soap	74
– Antistatic	84	– Ankle	234	– Stainless steel	45	– On toilet paper	74
– Conical	88	– Antistatic	234	– With fixed handle	45	– On towel	75
– Metal	88	– Neoprene	259	– With telescopic handle	45	Double-casing tank	
– Plastic	82	– Top boots	234	Compound fibres	48	– Plastic-plastic	89
– With lid	82	Bottle		Connector	124	– Self-supporting	253
– With plugs	82, 88	– Narrow neck	184	Cone		– Steel-plastic	89
– With UN certified	82	– Plastic	184	– Folding	225	Drain cover	
Barriers		– Polyethylene	184	– Reflective	225	– Barrel	135
– Canalization	139	– Pressure	138	– Warning	225	– Frost resistant	136
– Flow	140	– Rectangular	184	– With heavy base	225	– Polyurethane	137
– High pressure	142	Bowl		– With light	225	– Reusable	137
– Non-flow	139	– Sorption	22	Container		– Sewerage	136
– Pillow	142	– Spill	22	– COMBO AQUA	113	Drum Gauge	
– Short	141	Brest-boots	259	– Flip	117	– Barrel	188
– With high flow	142	Bridge crossing	264	– For water	113	– Horizontal	188
Basket		Broom		– Metal	111	– Tanks	89
– Builders	100	– Road	226	– Network wall	111	– Vertical	188
– Divided	103	– The plastic fibers	226	– Opening	111	Drum opener	199
– Fire-resistant litter	105	– With natural fibers	226	– Pallet	110	Drum truck	199
– For separated waste	99	Bronze aluminium	265	– Plastic	110	Dry washing foam	76
– Large-capacity	103	Bucket		– Stackable	110	Duplex	13
– Metal	102	– Foldable	226	Containment boom		ECO-DRY	13
– On paper	103	– Galvanized	79	– Compartment	271	Eco-modules	101
– Outdoor	106	– Metal	79	– For calm water	271	Eco-stock	
– Plastic	99	– Plastic	79	– For high water flow speed	268	– Flammables	207
– Sewage	48	– Sheet metal	79, 183	– Inflatable	273	– Handy	207
– SLIM JIM	99	Brush		– Ladder	270	– Heated	207
– Stainless steel	104	– Fibre	226	– Lightweight	268	– Thermally insulated	207
– Waste	99	– Street	80, 226	– Metal	269	– With electric wiring	207
– With ashtray	105	– Wide	80	– Pectineal	268	– With emergency spill sump	207
– With handle	99	Canisters		– Two chamber	272	– With lighting	207
– With hinged frontal side	105	– Metal	183	– With telescopic rods	268	Ecopress	97
– With hinged lid	104	– On PHM	87	Control valve	138	Edges	
– With lid	99, 102, 104	– Plastic	87	Cover filling	186	– Polyurethane	158
– With pedal lid	102	– Sackable	87	Cover for spill pallets	174	– Softened	158
Battery powered headlight	248	– Spill collecting	182	Cover the fire extinguisher	227	– Warning	158
Belt		– Steel sheet	87	Coverall		Extinguishing agents	249
– Clamping	228	Caps		– Gas-tight	239	Fast creeling put-on	233
– For transport	228	– Knitted	234	– Protective	238, 240	Fibroil	12, 47, 48
– With hooks	228	– Waterproof	234	– Single	238	Fire blanket	227
– With ratchet	228	– Winter	234	– To rain	236	Fire extinguisher	
Bergmehl	13	– With eyeshade	236	– Type 4+3	240		
Bin		Cellulose	13	– Type 6+5	238		
– Brute	100	Charger	224	– With glued seams	239		
– Collecting	97	Chemical toilet	247	Dam barrier	274		
– Fiberglass	112	Cladding slip	156	Decontamination set	252		
– Graduate	183

– Aquatic	250	– Mobile	72	– Line	162	Peat	13
– CO ₂	251	– On barrel	193	– Permanent	162	PEATSORB	13
– Foamy	251	– On mat	18	– Temporary	162	Pillows	
– Mobile	250	– On wipers	72	Marking chains	155	– Hydrophobic	40
– Powdered	227, 250	– Slipping floor	164	Mask		– Chemical	30
– The chassis	251	– Small container	194	– Full-face	231	– Absorptive	25, 30, 40
Filter		– The bags	108	– Semi-mask	231	– Universal	25
– Barrel	255	– With tank	193	Mats		Pistol	
– Covering	79	– Zinc	193	– Anti-fatigue	127	– Application	163
– For mask	231	IBC containers		– Antistatic	132	– Dispensing	191
– Leak collecting	146	– 1000l	92	– Basic	15, 29, 34	– Pressure spray	209
– Sleeve	272	– 600l	92	– Chemical	29	– Pushing	147
First aid box		– Accessories	92	– Cleaning	119	Plastic box for spill containment booms	268
– Car	217	– Antistatic	92	– Disinfectant	125	Plastic pot with scale	183
– First aid	230	– For liquids	90	– Flax and technical hemp	21	Pneumatic Coupling	138
– In box	230	– Washed out	92	– Hydrophobic	31	Pneumatic quick coupling	138
– Type I a II	230	Inflatable rescue walkway	273	– Knit-stitched	19, 35	Pollution catvher	42
Flood-control barrier	260, 274	Inflatable tent	245	– Leak proof	15, 19	Portable lighting systém	248
Floor squeegee	46	Insert brushes	124	– Masking	20	Prevention	
Flow-meter	192	Isothermal blanket	217	– Metal cleaning	126	– Tape	164
Foot protection	233	Jacket		– Oct-O-Mat	124	– Warning	164
Foot stainless steel sieve	191	– Insulated	234	– Outdoor	119	Pump	
Funnel		– Fire retardant	235	– Perforated	18, 20, 34	– Chemically resistant	189
– Barrel	185	– Rain	236	– Resistant	17, 33	– Drum	189, 192
– Bottle	186	– Reflective	236	– Tegular	130	– Flammable	190
– Metal	185	Key box	60	– Ultrasonic bonded	16, 29, 33	– Floating	257
– Plastic	184, 185	Key cabinets	203	– Universal	15	– Hand	190
– With filter	185	KCA BOX – container for accumulators	94	– Version to be inserted into floor	122	– Lamellar	190
– With handle	185	Klinik box	85	– With leading edge	123	– Membrane	190
Gas pressure couplings	138	Knife		Meltblown	12	– Motor	191, 192
Generating set	258	– For carton	202	Miniboom	43	– Peristaltic	258
Glasses		– For foil	202	Mobile oil separator	254	– Pneumatic	190
– Face	231	– Safety	202	Mop		– Sludge	247, 255
– Protective	231	Ladder		– NTRF	46	– Submerible	255
– Sealing	231	– Aluminium	200	– With hair	46	– The frequency inverter	258
Gloves		– Simple	200	Motor pump	191	– Viscous substances	192
– Cleaning	78	– Tripartite	200	Neoprene boots	259	– Washing table	209
– Chemical resistance	231	– Two-piece	200	Net	117	– With telescopic uptake	190
– Leather	234	– Universal	200	Non-sparging safety tools	265	Pump adapter	191
– Neoprene	259	Lifter		Non-woven textile		Pumping set	89
– NITRIL	231	– For waste collection	202	– NTRF	47	Putty	
– Non-visible	231	– On drums	199	– Polypropylene	15	– AQUA	134
– Surgical	238	Lighting		– Sorption	47	– CONCRETE	134
– Thermally resistant	231	– Accumulator	223	NTRF	12, 47	– Fast hardening	134
– Warm	231	– For use in explosive environment	222	Oil skimmer	254	– PLASTIC	134
– With sleeve	231	– Headlamp	222	Pads		– STEEL	134
Glue	212	– LED	223	– Basic	23, 29, 38	– UNIVERSAL	134
Grounding cable	132, 191	– Mounting	224	– Below knee	128	– Water-resistant	147
Handle		– Non-sparking	222	– Chemical	29	Quick box	85
– Telescopic	78	– Rechargeable	223	– From flax and technical hemp	21	Rack	
– Wooden	42	– Rotary warning	224	– Hydrophobic	32	– ADR table	214, 215
Handling drum lever	199	– Rubberized	222	– In carton	16, 23, 37	– Container	193
Hanging box	113	– With lever	222	– Knit-stitched	23, 37	– Metal	72
Handkerchief	74	LITE-DRI	13	– Light	16, 32	– Mobile roll	72
Heating aggregate	246	Loader for extinguisher	227	– Non-slip	128	– Mop	78
Hippo	19	Long vehicle	216	– Resistant	23, 37	– On bags	72
Hook removal	199	Loose Sorbent		– Ultrasonic bonded	23, 29, 38	– On pads	23
Holding frames	98	– Hydrophobic	44	– Universal	23	– On wall	72
Holder		– Chemical	28	– Waterproof	24, 39	– Wheel chock	216
– Collapsible	108, 194	– Non-flammable	27	Paint		Rain coat	236
– Dispensing	196	– Dust free	26, 27, 28	– Line marker paint	162	Ramp	
– Flaring	193	– Sorption	26, 28	– Tracing paint for building	163	– Hose	264
– For barrier tape	155	– Burnable	26	Paint remover	163	– Wooden	146
		– Universal	26	Pallet		– Wheel	216
		Marker		– EURO	109	Reel	270
		– Hand	162	– Plastic	109		
				– Stackable	109		

Reflective belt	225	– Hydrophobic	12, 31, 37	– Polyethylene	172	– Plastic	172
REO FB	12, 48	– Knit-stitched	12, 19, 23	– Spill	171	– Spill	172
REO FB Dry-goods	49	– Leak-proof	12, 15, 24	– spill collecting	166, 172, 177	Triangle	
REO FB hank	48	– Loose	13	– With grate	166	– Reflective	225
REOSORB	13	– Masking	12, 20	– With handles	171	– Safety	215
REOSTAR II	13	– Perforated	16, 20	Table		– Warning	216
Respirátor	232	– Pink	12, 26	– A	215	Tripod	164
Sack		– Resistant	12, 17, 23	– Collapsible	214	Trousers

– Chemical	12, 29	– Drum	188	– Outdoor	181	Wire basket	78
– Distribution	12	– Sealing	135	– Plastic with sorbent	181	Wraps	
– From flax and technical hemp	12, 21	Suit flood	259	– Receptacle for IBC	176	– Quick	145
– Gray	12, 15, 16	Sump		– Spill	181	– Rubber	134, 145
		– Atypical	171	– Washing	209	– Pressure	145
		– Box	168	Tent lighting	247	Wringing apparatus	43
		– Combination	166	Tool-box	114	Wrench	
		– For 2 drums	166, 172, 175	Toilet paper	73	– Combination	266
		– For 4 drums	166, 172, 175	Top boots		– For drums	187
		– For 2 IBC containers	170, 177	– Antistatic	233	– Simple	187
		– For IBC containers	170	– Winter	233	– Universal	187
		– For drums on EURO pallet	174	– With steal toe cap	233	Zinc	163
		– Low	169, 172	Towels			
		– Metal	166, 170	– Central feeding	75		
		– Mobile	167	– Folded	73		
		– Pallet station	168	– Paper	73		
		– Plastic	172, 178	Tray

Use the sorbents in case
of hazardous liquid spills

- Assortment of the sorbents
- Universal absorptive means
- Materials for the sorption of aggressive materials
- Hydrophobic absorptive means
- Manipulation means for use with sorbents
- Absorptive means FIBROIL (REO Fb)

Products for prevention and removal of the environmental accidents,
for safe and clean workplace

Assortment of sorbents:

Universal – basic

Universal – basic, leak-proof

Universal – ultrasonic bonded

Universal – resistant

Universal – knit-stitched

Universal – knit-stitched, leak-proof

Universal – masking

TRAFFIC

TRAFFIC – leak-proof

Universal – flax and hemp mixture

Chemical – basic

Chemical – ultrasonic bonded

Hydrophobic – basic

Hydrophobic – basic, leak-proof

Hydrophobic – ultrasonic bonded

Hydrophobic – resistant

Hydrophobic – knit-stitched

Hydrophobic – knit-stitched, leak-proof

Hydrophobic – flax and hemp mixture

NTRF Fibroil (REO Fb)

WIP

Basic

Basic type of polypropylene sorbent manufactured from meltblown. Sorbent is intended for the sorption of hazardous liquids both on water and land. This type of sorbent is supplied in various dimensions of rolls and pads. It reaches very good rate between the price and sorption properties.

Ultrasonic bonded

Basic sorbent bonded by ultrasonic welding. It has longer life durability and it is primarily suitable for the sorption of hazardous liquids on land. Close bonding points enhance material resistance against abrasion.

Knit-stitched

Basic sorbent stitched with polypropylene thread. Sorbent reinforced in this way has better mechanical resistance while the sorption rate is retained. The material properties have been proved by many-year application.

Resistant

Polypropylene sorbent SMS technology made (spunbond-meltblown-spunbond). This type of sorbent is also reinforced by ultrasonic welding and furthermore has double-sided spunbond coating which secures high mechanical resistance and prolongs product life durability.

Traffic

Mat manufactured from PP fibres reinforced by thermal calender. The strongest textile sorbent. The mat withstands crossing of heavy traffic.

Leak-proof sorbent

Mat coated with polyethylene film. Leak-proof film prevents from penetration to the ground.

Flax-technical hemp sorbents

made from natural plant fibres. No materials hazardous to the environment are used during production.

NTRF FIBROIL (REO Fb)

NTRF textile is manufactured from highly strong while porous hydrophobic fibres. Material repels water.

WIP

Quick-absorbing wipe manufactured from polypropylene fibres. Closely welded points enhance material resistance against abrasion.

Assortment of loose sorbents:

Universal loose sorbent REO-DRY

Universal loose sorbent REOSTAR II

Universal loose sorbent ECO-DRY PLUS

Universal loose sorbent ECO-DRY COMPACT

Chemical loose sorbent REOSORB

Hydrophobic loose sorbent REOSORB

Hydrophobic peat loose sorbent PEATSORB

Hydrophobic loose sorbent REO-DRY

Hydrophobic loose sorbent REO-DRY DUPLEX

REO-DRY

Low dustiness, non-abrasive loose manufactured from treated cellulose. Hydrophobic loose floats on water and absorb oil-based substances only. Hydrophilic loose absorb also water and water solutions. The loose sorbent REO-DRY is also available in DUPLEX version suitable for the collection of the thinnest films of oil on water. REO-DRY is easy to burn and has high absorbing capacity.

ECO-DRY and REOSTAR II

Low dustiness, non-flammable granules on bergmehl basis.

Only hydrophilic granules available. This sorbent absorbs oil-based substance, water and water solutions. The granules are highly chemically resistant. The granules withstand mechanical load, granules keep their shape and do not release absorbed liquid.

The granules are mostly used for the absorption of liquids on land – removal of the operation fluids after car crashes.

REOSTAR II is suitable for the absorption of high-viscosity fluids – paints, heavy oils etc.

REOSORB

Low dustiness loose sorbent with very high absorbing capacity. The loose is composed from polypropylene fibres with high chemical resistance. Loose is available hydrophobic and hydrophilic finish. The loose sorbent is very easy to burn.

PEATSORB

Non-abrasive loose sorbent manufactured from treated peat. The sorbent floats on water for a long time and cleans even the thinnest film of oil on water. The sorbent encourage the biodegradation of the absorbed oil products. The sorbent is used at places where it is hard to collect saturated loose sorbent (e.g. thanks to river plants).

	Loose sorbent name	Absorbs	Absorbing capacity (l/kg)	Features
UNV	REO-DRY ULD010	oil, coolant, solvents, water	water 3,6 oil 3,3	Made from recycled cellulose
	ECO-DRY	oil, coolant, solvents, water, aggressive substances	water 1,3 oil 1,3	Made from bergmehl
	REOSTAR II	oil, coolant, solvents, water, aggressive substances, viscous materials	water 0,8 oil 0,8	Made from bergmehl
HFO	REO-DRY HLD010, DLD010	oil, repels water	oil 2,8	Made from recycled cellulose
	PEATSORB HDPO10	oil, repels water	oil 6,2	Made from all-natural peat moss
	REOSORB	oil, repels water	oil 13,9	Made from PP non-woven textile
CHEM	REOSORB	oil, coolant, water, water solutions, acids, lyes	water 12,5 oil 15,0	Made from PP non-woven textile

The sorbents assortment includes two basic types of the sorbents – textile and loose sorbents. The textile sorbents are divided into three groups – universal, chemical and hydrophobic sorbents. The groups are diversified by colours. Universal sorbents have grey colour, they are designed for use with non-aggressive liquids. Chemically resistant sorbents are pink, they are designed for the sorption of aggressive liquids. The hydrophobic sorbents have white colour, they repel water and water solutions and float on water for a long time.

Grey – universal sorbents

Materials for all non-aggressive liquids.

For the sorption of:

- Water
- Coolants
- Oil emulsion
- Hydraulic oil
- Vegetable oil
- Engine oil
- Engine fuel
- Solvents – acetone, benzene, methyl ethyl ketone, toluene, trichlorethylene, turpentine, hexane

Pink – chemical sorbents

Materials for aggressive liquids.

For the sorption of:

- Oils
- Cutting and cooling emulsions
- Sulphuric acid
- Hydrochloric acid
- Nitric acid
- Phosphoric acid
- Hydrofluoric acid
- Formic acid
- Sodium hydroxide
- Water solution of ammonia

White – hydrophobic sorbents

Materials do not absorb water and water solutions, float on water for a long time.

For the sorption of:

- Oil
- Hydraulic oil
- Engine oil
- Crude oil
- Petroleum
- Engine fuel
- Petrol

The textile absorptive means include – pads, rolls, pillows, socks, loose sorbents. They have different shapes, sizes and absorbing capacity. All types of the textile sorbents are produced as universal, chemically resistant and hydrophobic.

Universal absorptive mats

Universal absorptive mats – basic

- Do not change nature of absorbed substances
- For the sorption of cutting and cooling emulsions, oil-based substances, water and water solutions

Universal absorptive leak-proof mats

- Leak-proof modification – one side coated film prevents any leaks
- Absorptive pad under tools or devices

* Oil sorption, ** Water sorption

Product code	Product name	Absorbing capacity		Dimensions	Weight	Packing
UK4850	Universal absorptive mat – basic	*253 l	**159 l	80 cm x 50 m	16 kg	1 roll
UK4825	Universal absorptive mat – basic	*126 l	**80 l	80 cm x 25 m	8 kg	1 roll

UNK4720	Universal absorptive leak-proof mat	*95 l	**60 l	75 cm x 20 m	6 kg	1 roll

Universal absorptive mats

Universal light mats – basic

- Easily dividable to required size
- High absorptive ability
- For sorption of cutting and cooling emulsions, oil-based substances, water and water solutions

Universal light mats – ultrasonic bonded

- Higher abrasion resistance
- For sorption of cutting and cooling emulsions, oil-based substances, water and water solutions

Universal light mat – ultrasonic bonded perforated

- Dividing of mat without using of tool
- Higher abrasion resistance
- High absorptive ability
- For sorption of cutting and cooling emulsions, oil-based substances, water and water solutions

Universal light absorptive pads – basic

- Handy packing
- Substitution for loose sorbents in every production and repair workshop
- Absorptive pads under tools and component parts
- Packing per 100 and 200 pcs

Universal absorptive perforated mats

- Perforated mats – easy to tear to size with no need to use any tools
- High absorbing capacity
- Do not change characteristics of absorbed substances
- „Ultrasonic bonded“ mat has high resistance against abrasion

basic sorbent

ultrasonic bonded sorbent

Perforation:

- Longitudinal perforation: centre line perforation
- Cross perforation: perforation every 50 cm

Mat dispensing holder REO402, REO403

- Metal construction
- Surface finish – powder paint
- For use with mats at max. width 50 cm and 100 cm
- Tearing edge and unrolling brake

Universal absorptive mats

leak-proof knit-stitched mat

knit-stitched mat

Universal absorptive mats HIPPO – knit-stitched

- High absorbing capacity and mechanical resistance
- Leak-proof modification protects from the contamination of ground

Universal absorptive traffic mats TRAFFIC

- Designed for preventive sorption of leaks in heavy traffic areas
- Suitable to drive over with lift truck and another manipulation means
- Create safe and antislip floor
- Excellent substitution for "fatty wooden grates"
- Leak-proof modification protects from the contamination of ground

* Oil sorption, ** Water sorption

Universal sorbent with masking pattern – resistant

(SM – one side coated with spunbond)

- Masking sorbents do not require frequent change – pattern makes that leaks virtually disappear and the material surface looks clean
- Masking pattern assures that the mat / pad stays on the job for a long-time
- Durable top layer resists everyday wear-and-tear and foot traffic, the sorbent bottom layer traps oil, coolants and water
- Sorbents are available in grey pattern
- Choose from pads 40 x 50 cm, mats in width 50 cm, 80 cm and 100 cm
- Mats available with / without perforation

Note:

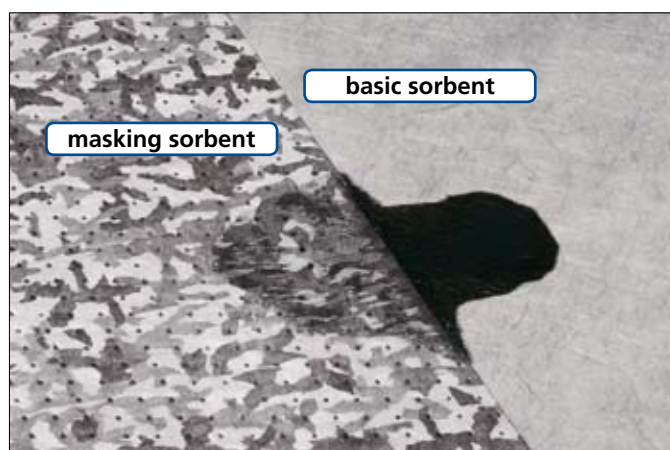

Masking sorbents are not recommended for use with solvents or aggressive liquids that may affect printed pattern.

width 50,
80 and 100 cm

Perforation:

- Longitudinal: centre line perforation
- Cross perforation: perforation every 50 cm

Comparison of masking sorbent and basic sorbent at absorption of liquid – contamination is significantly less visible on the masking sorbent than on basic sorbent

* Oil sorption, ** Water sorption

Universal sorbents from flax and technical hemp mixture

- Sorbents are made from natural plant fibres
- Biodegradable
- Sorbents are available in various forms, they are lightweight, firm and dust-free
- Suitable for absorbing hydrocarbons and water
- For control of accidental and routine leaks, drips and spills of oils and water solutions of non-aggressive liquids
- They are created to help maintain a clean and safe working environment, reducing slips, trips and fall

Product selection:

Pads:

For use in and around equipment to catch leaks and drips, can be placed on top of spills to soak up and prevent spreading.

Mats:

Suitable for covering larger areas, can be tear to size. Mats are perforated – cross perforation every 50 cm.

Sorbents from flax and technical hemp mixture absorb the following substances: oil, petrol, cutting liquids, lubricants, coolants. They can also absorb most liquids in the following chemical groups: alcohols, esters hydrocarbons, hydrocarbons and silicones.

* Oil sorption, ** Water sorption

Universal absorptive barrel top pads

Anti-fatigue mat designed for combined use with sorbent

- Made of 100% nitrile rubber compounds, designed to withstand industrial oils
- Ramps on 4 sides are raised to form a holder tray around mat – sorbent is to be placed in this area
- Moulded structure of sharp rubber pins that prevent the sorbent from shifting
- Fire classification Bfl-S1 according DIN EN 13501 and class I according ASTM E648-03 (NFPA253)
- Non-shifting. Free of silicone

Anti-fatigue mat Kamil with absorptive mat

- Heavy duty – wet/dry industrial environments, oily areas
- Raised studs on the backside provide aeration and excellent cushioning comfort
- External size: width 91 x 162 cm, 91 x 314 cm, 91 x 466 cm
- Furnished with sorbent, refills are available
- Thickness: 19 mm

Anti-fatigue mat Karel with absorptive mat

- Medium duty – wet/dry industrial environments, oily areas
- A moulded bubble pattern on the surface of the mat provides cushioning comfort and aeration
- External size: width 87 cm x 157 cm
- Furnished with sorbent, refills are available
- Thickness: 12,7 mm

Mat Kamil

Mat Karel

Universal barrel top pads

- For metal drums 200 l and 60 l
- Basic and ultrasonic bonded pads available
- Clean working environment
- Catch leaks at their source
- Enhanced mechanical resistance

Ø 355 mm
for 60 l barrels,
Ø 557 mm for
120 l barrels

Universal absorptive indoor pan UMPL12

- Helps to keep your workplace clean and safe – no problem with floor cleaning. Universal absorptive filler has high absorbing capacity, can be replaced
- Absorptive filler inside the spill pan absorbs up to 4 litres of the spills. Low profile – the pan fits even the tightest spaces
- No spills when the pan overturn

* Oil sorption, ** Water sorption

Universal absorptive pads

Universal absorptive pads

- Practical packing
- Substitution for loose sorbents in every production and repair workshop
- Absorptive pad under tools or devices
- Absorptive pads are available in 3 versions (basic, ultrasonic bonded, resistant)
- **Half weight basic universal absorptive pads – LIGHT** also available, packing per 100 pcs and 200 pcs

Universal absorptive pad UR4100

Pads in carton also available

Universal knit-stitched absorptive pad HIPPO URP4050

- Can be walked on
- Retention of shape
- High tensile strength

Universal knit-stitched absorptive pad HIPPO URP4050

Universal absorptive pads

Universal absorptive leak-proof pad – basic

- PE film prevents from the penetration of liquid to the ground

UNR4100

Universal absorptive leak-proof pad HIPPO – knit-stitched

- High retention of shape
- PE film prevents from the penetration of liquid to the ground

URPN4050

Universal absorptive leak-proof cloth – basic

- Practical large size
- Leak-proof
- Can be used under machines, engine, motorcycle etc.
- You can lie on it – insulates against wetness and dampness

USP5

Universal absorptive socks UP8124, UP8212

- Emergency use: stopping of leakages, barrier against spreading of liquids
- Routine use: absorbing of spills, for use around machines, barrels, in troughs etc.
- Easy handling – malleable
- Filled with polypropylene loose sorbent

Universal absorptive sock with skirt UP8116, UP8108

- Spill collection
- Barrier against spreading of liquids
- Skirt – resistant material
- Skirt width: 20 cm
- Combination of absorptive sock and large area of absorptive skirt

Universal absorptive pillow UP2525, UP2520

- Safe capture of spot spills
- High absorbing capacity
- Easy handling
- Refill of the spill trays

Universal loose sorbent REO-DRY

- Quick sorption
- Dust free, non-abrasive
- Low weight, high absorbing capacity
- Easy to burn
- Low liquidation costs – only 5% of ash after burning

Removal of the oil leakage on ground

* Oil sorption, ** Water sorption

Product code	Product name	Absorbing capacity	Capacity	Packing
ULD010	Universal loose sorbent REO-DRY	*32 l **36 l	50 l	10 kg

Universal loose sorbent

Universal loose sorbent REOSTAR II

- Non-flammable bergmehl
- Fine granules
- Chemically inert substance
- Low dustiness
- Suitable for use on roads
- Suitable mainly for viscous substances – paints, mazut
- Resists aggressive chemical substances with exception of hydrofluoric acid

REOSTAR II

Sprinkle truck PSA035

Sprinkle truck is to be used for easy and quick spreading of salts and granulates on roads and other places to bind oil. More information on page 116.

Container for sorbents NNS001

- Laminated – divided into two compartments
- Lockable
- Can be handled with fork-lift truck
- Suitable for petrol stations, service stations, industrial companies

Truck for use with loose sorbents REO312K

- Metal truck
- Two compartments: for clean sorbent and for used sorbent
- Two swivel casters and two wheels for easy handling
- Removable handle
- Accessories: shovel, hand-broom, sack with lace – 10 pcs
- Shelf for accessories

* Oil sorption, ** Water sorption

Universal fine grain granules ECO-DRY PLUS and coarse granules ECO-DRY COMPACT

ECO-DRY PLUS

ECO-DRY COMPACT

GOOD PRICE

- Non-flammable bergmehl
- Excellent absorption of the oil stains and petroleum emulsions on concrete, interlocking pavement and road asphalt
- Suitable mainly for the use on roads
- Granules keep their shape even after absorption
- When running over the absorbed liquid will not release
- Chemically inert substance
- Absorb liquids very quickly
- Easy to sweep away
- Easy handling
- Low dustiness
- Low purchase costs
- Excellent substitution for expanded calcite
- Resist all chemical substances with exception of hydrofluoric acid
- Sprinkle trucks for use with the sorbents also available (PSA019, PSA031, PSA035)

* Oil sorption, ** Water sorption

Chemical absorptive mats

- Quick and easy application in case of emergency situation
- Pink colour prevents from possibility of mistaken identity with another types of sorbents
- Absorbed substances will not release spontaneously
- Absorb very quickly and do not change the characteristics of absorbed substances
- Dispose mats in the same way as absorbed liquid
- High chemical resistance

Chemical absorptive pads

- Practical packing
- Quick and easy application in case of emergency situation
- Pink colour prevents from possibility of mistaken identity with another types of sorbents
- Absorbs very quickly and do not change the characteristics of absorbed substances

Chemical sorbents have warning pink colour that darken and signaling a danger when the sorbent is saturated with aggressive substance.

Absorption of the oil slick in front of the spill containment boom with the help of the absorptive mat and loose sorbent

Collection of the contamination on water by using torn pieces of absorptive mat

Hydrophobic absorptive mats

- High absorbing capacity for oil-based substances
- Repel water
- Quick absorbing and collecting of hazardous liquids on land and on water
- Easy manipulation
- Simple adjustment of shape
- Unlimited storage time
- Resistant to climatic effects

Efficiency increasing of a fixed spill containment boom by completing it with the absorptive mat

* Oil sorption

Hydrophobic absorptive mats – LIGHT

Hydrophobic absorptive mats – LIGHT

- High absorbing capacity for oil-based substances
- Repel water
- Low weight
- Quick sorption and collection of hazardous liquids on land and water
- Easy manipulation
- Simple adjustment of shape
- Unlimited storage time
- Resistant to climatic effects

Hydrophobic absorptive pads – LIGHT

- Absorb oil-based substances and oils
- Repel water
- Float on water for a long time
- Strong physical bond between absorbed liquid and sorbent, absorbed liquid will not release spontaneously
- Packing per 100 and 200 pcs

Suitable mainly for small liquid spills

Hydrophobic absorptive mats – resistant

- 3-layer structure bonded by ultrasonic welding
- High abrasion resistance
- Can be walked on
- Mats do not release fibres

Hydrophobic absorptive mats – ultrasonic bonded

- Suitable for sorption on ground
- Higher abrasion resistance
- Mat layers are ultrasonic bonded
- Can be used as pad under tools, containers etc.

* Oil sorption

Hydrophobic absorptive leak-proof mat – basic

- Protection of ground
- Prevents from outdoor leaks
- Does not change characteristics of absorbed substances
- Absorbs oil-based substances only, repels water

Hydrophobic absorptive mat HIPPO – knit-stitched

- High mechanical resistance
- Retention of shape
- Can be walked on

Hydrophobic absorptive leak-proof mat HIPPO – knit-stitched

- High mechanical resistance
- Retention of shape
- Prevents from the penetration of liquid to the ground
- High cleaning ability – captures particles from footwear, wheels etc.

Hydrophobic sorbents from flax and technical hemp mixture

Sorbents are made from natural plant fibres. Biodegradable. Sorbents are available in various forms, they are lightweight, firm and dust-free. Repel water, absorb oil-based substances. Float on water for a long time.

Use:

For control of accidental and routine leaks, drips and spills of oils and other non-aggressive liquids. The sorbents are created to help maintain a clean and safe working environment, reducing slips, trips and fall.

Colour:

Sorbents are light brown in colour, and darken as they reach saturation point.

Mats:

Suitable for covering larger areas, can be tear to size. Mats are perforated – cross perforation every 50 cm.

Sorbent
from natural
fibres

Pads:

For use in and around equipment to catch leaks and drips, can be placed on top of spills to soak up and prevent spreading.

Variety of liquids absorbed:

Sorbents from flax and technical hemp mixture absorb the following substances: oils, petrol, cutting liquids, lubricants. They can also absorb most liquids in the following chemical groups: alcohols, esters hydrocarbons, hydrocarbons and silicones.

Liquids:

Lubricants
Hydraulic fluids
Cutting oils
Solvents
Crankcase Oils

Examples:

Oils, Silicone oils
Hydraulic oils
Oils (mineral, emulsified)
Turpentine, Toluene, Xylene, Paraffin
Oils (natural, synthetic)

HRP4050	Hydrophobic absorptive pad HIPPO – knit-stitched	*30 l	40 x 50 cm	4,0 kg	50 pcs
REO286	Metal box for pads		52 x 52 x 42 cm	10,1 kg	1 pc

Basic pads

Collection of oil on water

Ultrasonic bonded pads

Collection of oil on land

Resistant pads

High abrasion resistance

Knit-stitched pads

Enhanced mechanical strength

Practical packing in carton per 50 pcs

Hydrophobic absorptive pad HRZ4331 – ultrasonic bonded

- Practical size 30 x 30 cm
- For collection of oil substances on water and land
- Higher abrasion resistance

Pad absorbs pump drips during a pumping of liquids from standing barrel

Hydrophobic absorptive barrel top pads

- Protect barrel top surface
- Create flexible, non-slipping pad
- Pre-cut hole for pump
- Size suitable for 200 l and 60 l barrel
- High absorbing capacity
- Ultrasonic bonded: higher abrasion resistance

HSR415

HSR415

Ø 355 mm
for 60 l barrels,
Ø 557 mm for
120 l barrels

Shaped pad suitable for the use with the top lid of a 200 l metal barrel with pre-cut hole of Ø 70 mm

HSRN75	Hydrophobic absorptive pad under motorcycle – leak-proof	*9 l	75 x 200 cm	0,6 kg	1 pc
HNR4100	Hydrophobic absorptive leak-proof pad – basic	*126 l	40 x 50 cm	8,0 kg	100 pcs
HRPN4050	Hydrophobic absorptive leak-proof pad HIPPO – knit-stitched	*30 l	40 x 50 cm	4,5 kg	50 pcs
REO361	Indoor spill tray		77 x 44 x 11 cm	3,0 kg	1 pc
REO362	Outdoor spill tray		77 x 50 x 11 cm	3,0 kg	1 pc
HSD4654	Absorptive pillow REO Fb (4 pcs/1 pack)	*10 l	36 x 60 x 7 cm	6,0 kg	4 pcs

Hydrophobic leak-proof absorptive cloths and pads

- Easy application
- Very quick sorption of oil spills
- Ecological barrier against the environment pollution
- High strength and mechanical resistance
- Optimised shape for the use under vehicles
- Absorptive leak-proof pads HSRN75 are approved for the use at motorcycle and motor-vehicle racings

Indoor spill tray REO361

- Spill tray is filled with absorptive pillow
- Pillow is made of absorptive material – non-woven textile REO Fb (4 pcs per packing)
- Prevents from spillage in the case of inappropriate or careless handling
- Capacity 16 l

Outdoor spill tray REO362

- Spill tray is filled with hydrophobic absorptive pillow
- Holes on the bottom of the spill tray allow rain water flow out
- Leak-proof mat signalling the full saturation of the absorptive pillow is placed under the spill tray
- Absorbing capacity of the spill tray with absorptive pillow is 30 l of oil
- Absorptive pillow HSD4654

Hydrophobic absorptive pillows HP3033, HP3010

- Easy application
- Quickly absorb oil spills on water
- Doesn't absorb water, absorbs only oil products

Hydrophobic absorptive strips HSP010

- It is easy to remove strips from water or grassy bank even when fully saturated

Hydrophobic absorptive spaghetti HSG005

- Fine strips of absorptive material
- Easy removal from grassy places

HSP010

HSG005

Hydrophobic loose sorbent REOSORB HSDR005

- Very high absorbing capacity; 5 kg of the loose sorbent absorbs up to 69 litres of liquid
- Very quick sorption
- Unlimited shelf-life
- Easy to burn
- Excellent long-floating on water
- Excellent performance/price rate
- Delivered in varicoloured version

* Oil sorption

Product code	Product name	Absorbing capacity	Dimensions	Weight	Packing
HP3010	Hydrophobic absorptive pillow	*36 l	30 x 30 x 3 cm	2,5 kg	10 pcs
HP3033	Hydrophobic absorptive pillow	*72 l	30 x 30 x 3 cm	5,0 kg	20 pcs

HSDR005	Hydrophobic loose sorbent REOSORB	*69 l		5,0 kg	5 kg

Hydrophobic absorbent boom

Hydrophobic absorbent boom filled with loose sorbent

- Unobjectionable from the point of health in contact with drinkable water
- Does not change nature of absorbed substances
- Resistant to climatic effects, moulds, microorganisms
- Boom is equipped with resistant connecting rope with steel snap hooks through which is possible to connect booms together and like this create easy adsorptive spill containment boom.
- Net packing is UV stable
- High absorbing capacity
- Available in standard diameters: 8, 13, 20 cm

New in 5 m length

Hydrophobic spaghetti absorbent boom

- Spaghetti polypropylene strip filler (strips are approximately 6 mm wide) is encased in a polypropylene net skin
- Net packing is UV stable
- Enhanced permeability of contaminated liquid – more efficient usage of the absorbing capacity
- Boom is equipped with resistant connecting rope with steel snap hooks through which is possible to connect booms together and like this create easy adsorptive spill containment boom
- Spaghetti strips efficiently absorb oil substances. Risk of surface caulk is very low
- Float on water even fully saturated
- High absorbing capacity

We can produce absorbent booms with length according to your request.

* Oil sorption

Product code	Product name	Absorbing capacity	Dimensions	Weight	Packing
HS834	Hydrophobic absorbent boom filled with loose sorbent	*54 l	Ø 8 cm x 3,00 m	4,0 kg	4 pcs
HS838	Hydrophobic absorbent boom filled with loose sorbent	*108 l	Ø 8 cm x 3,00 m	8,0 kg	8 pcs
HS1334	Hydrophobic absorbent boom filled with loose sorbent	*108 l	Ø 13 cm x 3,00 m	8,0 kg	4 pcs
HS2034	Hydrophobic absorbent boom filled with loose sorbent	*242 l	Ø 20 cm x 3,00 m	17,5 kg	4 pcs
HS8112	Hydrophobic absorbent boom filled with loose sorbent	*76 l	Ø 8 cm x 1,22 m	5,5 kg	12 pcs
HS2052	Hydrophobic absorbent boom filled with loose sorbent	*201 l	Ø 20 cm x 5,00 m	14,6 kg	2 pcs
HGH1234	Hydrophobic spaghetti absorbent boom	*135 l	Ø 12 cm x 3,0 m	10,0 kg	4 pcs
HGH1534	Hydrophobic spaghetti absorbent boom	*176 l	Ø 15 cm x 3,0 m	13,0 kg	4 pcs
HGH1552	Hydrophobic spaghetti absorbent boom	*146 l	Ø 15 cm x 5,0 m	11,0 kg	2 pcs
HGH2034	Hydrophobic spaghetti absorbent boom	*270 l	Ø 20 cm x 3,0 m	20,0 kg	4 pcs
HGH2052	Hydrophobic spaghetti absorbent boom	*220 l	Ø 20 cm x 5,0 m	16,0 kg	2 pcs

Hydrophobic absorbent boom

Hydrophobic strip absorbent boom

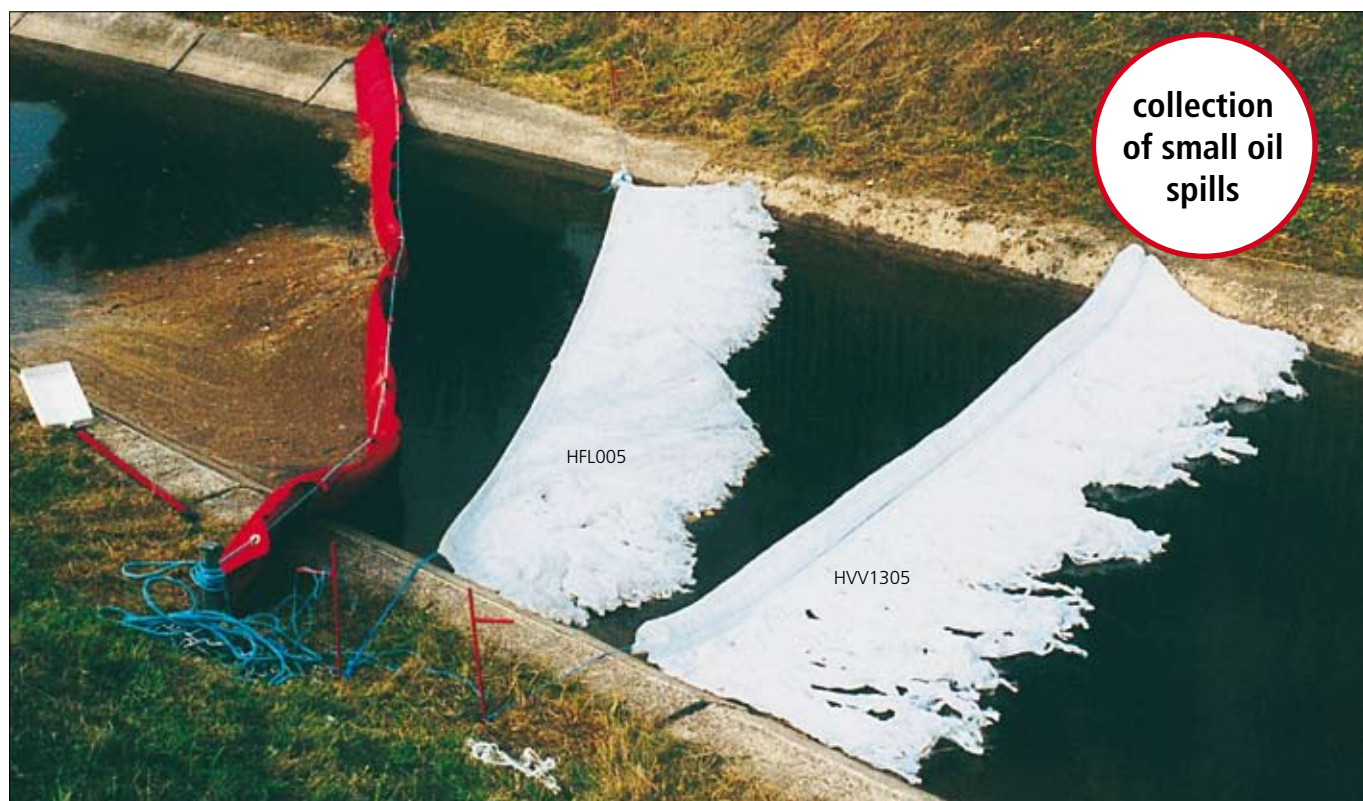

- Strips, which are inside the absorbent boom help to enhance the permeability of contaminated liquid through the absorbent strip boom – it means quicker and more efficient utilisation of the absorbent boom
- Boom is equipped with resistant connecting rope with steel snap hooks through which is possible to connect booms together and like this create easy adsorptive spill containment boom.
- Absorbent boom consists of the absorption strips, which are placed inside a strong netting resistant to mechanical stress
- Net packing is UV stable
- Thanks to the strips inside the absorbent boom it is very easy to wring out the boom and use repeatedly

Hydrophobic pollution catcher HFL005 and sorbent boom with fibres HVV1305

High-performance products for use with spill containment booms for collection of small spills behind the boom. The fibres safely absorb even the thinnest film of oil.

- Final treatment • Easy manipulation • High absorbing capacity

Final treatment of water surface with the help of hydrophobic pollution catcher HFL005 and hydrophobic absorbent boom with fibres HVV1305

Product code	Product name	Absorbing capacity	Dimensions	Weight	Packing
HPH834	Hydrophobic strip absorbent boom	*55 l	Ø 8 cm x 3 m	3,5 kg	4 pcs
HPH1334	Hydrophobic strip absorbent boom	*110 l	Ø 13 cm x 3 m	7,3 kg	4 pcs
HPH2034	Hydrophobic strip absorbent boom	*182 l	Ø 20 cm x 3 m	11,5 kg	4 pcs
HPH1362	Hydrophobic strip absorbent boom	*110 l	Ø 13 cm x 6 m	7,3 kg	2 pcs
HFL005	Hydrophobic pollution catcher	*68 l	5 m	3,5 kg	1 pc
HVV1305	Hydrophobic absorbent boom with fibres	*110 l	Ø 13 cm x 5 m	6,5 kg	1 pc

Hydrophobic absorbent boom

Hydrophobic absorptive miniboom

- Available in two modifications – spaghetti miniboom and miniboom filled with loose sorbent
- Designed to collect the oil substances from the hardly reachable places as dipwells, sumps, tanks etc.
- Very good handling due to small size
- Thanks to snap hook and ring it is possible to tie the minibooms and easily raise from great depths

Hydrophobic absorbent boom ECONOMY HSHV8124

- Hydrophobic filler from expanded perlite is encased in a polypropylene textile skin
- Boom floats on water for a long time
- Catches oil-based substances and prevents from their spreading
- Boom filler is chemically inert and non-flammable

Sorbent wringing apparatus REO202

- Regeneration of sorbents (booms and other products)
- Wringed sorbents can be used repeatedly
- Hand drive
- Liquid automatically drains into a drum which is fixed to the wringing apparatus

* Oil sorption

REO202	Sorbent wringing apparatus			26,5 kg	1 pc

Hydrophobic loose sorbents

Hydrophobic peat loose sorbent PEATSORB

- For the removal of the oil accidents on land and water
- Final treatment of the oil leaks from the hardly reachable places and uneven surfaces
- Cleans out even small chinks
- Encourage the biodegradation of the absorbed oil products
- Low weight
- Can be stored for a long time
- Disposal at the incineration plants or on biodegradation fields

Hydrophobic loose sorbent REO-DRY

- Suitable for the removal of the oil leaks in streets and in industry
- Low dustiness
- Easy to burn

Hydrophobic loose sorbent REO-DRY Duplex

- Suitable for the removal of the oil leaks in streets and in industry
- Low dustiness
- Easy to burn
- Loose sorbent REO-DRY Duplex is suitable mainly for the removal of the oil spills on water and for final treatment of water surface

* Oil sorption

Aluminum two-part shovel LOP004

- Handy, firm and light
- Suitable for rescue work in snow
- Non-sparking, suitable for collection of soaked sorbent
- Body made of aluminum alloy, handle and folding mechanism made of plastic
- Very fast putting together thanks to joint mechanism and safety pawl
- Weight 1kg
- Dimensions: 260 x 560/1035 mm

- Reinforced
- Width 75 cm

Alu handle REO112 for floor squeegee

Vacuum cleaner for loose sorbents MV50EX

- For use in explosive environment (category 3G, 3D), ATEX 2, 22
- Silent run – semi turbine unit
- Protection form container overflow
- Mechanical system of filter vibrations, air back run
- Automatic liquid exhausting
- Firm frame with wheels

Technical information:

Input power of engine:	3000 W
Underpressure:	22,6 kPa (2300 mm H ₂ O)
Air output:	89 l/s
Capacity of container:	50 l
Noisiness:	<74 dB
Power:	230 V/50 Hz
Filter surface:	15000 cm ²
Weight:	90 kg

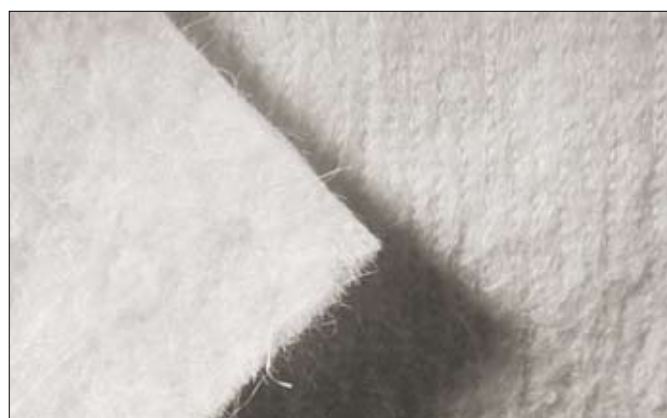

Non-woven textile – NTRF

NTRF textile is manufactured from highly stable, porous, hydrophobic fibres with large surface (0,6 m²/g). Material is water-permeable; oil-based substances are captured on the surface. Product is available in 5 various dimensions. 50 m long roll available at your request. Product is attested for the capture of the oil-based substances from water.

Example of application:

Parking lot – interlocking pavement
Membrane layer 400 g/m² will be fully saturated and finish its absorbing capacity within 20 years.

Practical example of the application of the water permeable absorptive membrane REO Fb

Mats for railways

- Solid absorptive textile with high absorptive capacity
- Capture and holds oil-based pollution
- Absorbs only oil-based solutions, clear rain water runs through
- Dimensions 1,4 x 20 m

Mats for railways – leak-proof

- Leak – proof layer on lower side prevents from penetration of liquid to the ground

Absorptive means REO Fb were tested at the Institute for Testing and Certification a.s., Zlín and at the Research Institute of Organic Synthesis a.s., Pardubice

Preventive use of compound fibres REO Fb on water

Compound fibres Fibroil (REO Fb) – parallel fibres-bundle

- Can be used as an efficient absorbent boom
- Suitable for collection of oil substance on water
- Absorbent can be squeezed and used repeatedly (please see page 43 REO202)
- Compound fibres are produced in required length (max. length is 20 meters)
- Diameter: approximately 8 cm

Compound fibers REO Fb have been used for the removal of hydraulic oil from the cooling stack pool of electric plant

Fibroil (REO Fb) hank

- Filler for absorptive filters
- Filler for flow filters for waste water cleaning
- Wiping of oil substances from solid surfaces

Sewage basket with Fibroil (REO Fb) Dry-Goods

- Raschel bag with Fibroil (REO Fb) Dry-Goods
- Bag is to be put into the sewage basket
- Effective sorption of oil substances from rain water
- Filters have long life durability
- Filters for baskets: 10 l, 35 l, 50 l
- Basket material: galvanized steel

Sizes:

- KFK001: Ø 225 x Ø 190 x height 425 mm
KFK002: Ø 380 x Ø 256 x height 500 mm
KFK003: Ø 380 x Ø 256 x height 700 mm

FIBROIL Dry-Goods (REO Fb)

Fibroil Dry-Goods – fibres of various length

Fibroil (REO Fb) Dry-Goods

- Suitable for the use as an absorptive layer of filters
- Can be used for wiping of the petroleum substances from fixed devices

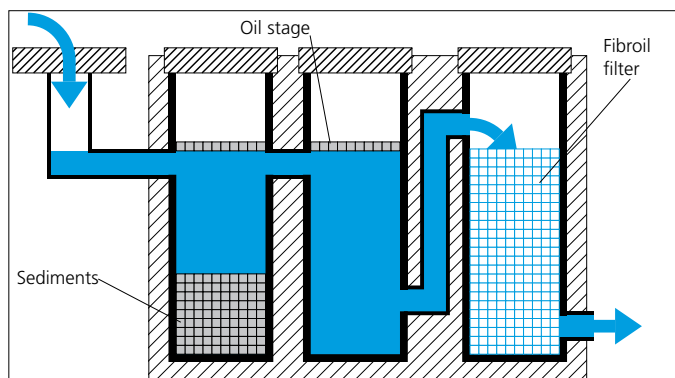

Segment – fibrous bowl, diameter 15 cm

Segment SGRF100

- Can be used for wiping of the oil-based substances from fixed devices
- Suitable for the use as absorptive layer of filters

Absorptive filter with fibroil (REO Fb) filler is used for refinement of oil-wetted water with no content of tensides, which stabilise emulsions. It is necessary to size the absorptive filter according to the water permeability standard (filtration) and according to the absorption on the material surface standard. During flowing of the liquid through the absorptive layer a pressure loss occurs and also the corpuscles of disperse substances adhere on the absorbent fibres. The higher density of fibres in the layer the more efficient absorption but digger pressure loss. It can be used as the water-permeable filter which captures the petroleum substances.

Example of the practical application of the water-permeable Fibroil (REO Fb) membrane. It is used in the final refinement level inside the oil trap.

Spill kits REO-LES

Spill kit is suitable for use in forestry, lumber-mills and agriculture. Kits are used for the prevention and removal of prospective accidents. Materials quickly absorb pollutants on land even unconsolidated and on water. Sorbents are hydrophobic – repel water.

Application:

- Plants, machine repair services, workshops, outdoor
- Vehicles and machines maintenance
- Storage of driving fuels and oils
- When shut down machines in the open air

KIT214 ECONOMY – Spill kit with universal sorbents, suitable for use at workshops

1x absorptive cloth, 5x absorptive pad, 10x quick-absorbing wipe, 2 kg of granulated sorbent ECO-DRY, 1x rapid hardening putty stick REO, 1x sealing paste 0,5 kg, 1x storage sack with lace, 1x bag

KIT215 – Spill kit with universal sorbents, suitable for use at workshops

2x absorptive cloth, 10x absorptive pad, 10x quick-absorbing wipe, 1x rapid hardening putty stick REO, 1x sealing paste 0,5 kg, 1x protective gloves NITRIL, 4 kg of granulated sorbent ECO-DRY, 2x storage sack with lace, 1x bag

KIT414 ECONOMY – Spill kit with hydrophobic sorbents, suitable for use in the nature

1x absorptive cloth, 5x absorptive pad, 10x quick-absorbing wipe, 2 kg of hydrophobic peat loose sorbent, 1x rapid hardening putty stick REO, 1x sealing paste 0,5 kg, 1x storage sack with lace, 1x bag

KIT415 – Spill kit with hydrophobic sorbents, suitable for use in the nature

2x absorptive cloth, 10x absorptive pad, 10x quick-absorbing wipe, 1x rapid hardening putty stick REO, 1x sealing paste 0,5 kg, 1x protective gloves NITRIL, 4 kg of hydrophobic peat loose sorbent, 2x storage sack with lace, 1x bag

Emergency kits

**KIT211****Small universal barrel spill kit**

Universal spill kit for use with emulsions, oil-based substances and water solutions.

12x absorbent pad, 9x absorbent sock, 5x absorbent pillow, 1x rapid hardening putty stick REO, 1x sealing paste 0,5 kg, 3x storage sack, 1x protective gloves, 1x UN-certified barrel 60 l

**KIT311****Small chemical barrel spill kit**

Chemical spill kit for use with aggressive materials.

12x absorbent pad, 9x absorbent sock, 2x absorbent pillow, 1x rapid hardening putty stick REO, 1x sealing paste 0,5 kg, 3x storage sack, 1x protective gloves, 1x UN-certified barrel 60 l

**KIT411****Small hydrophobic barrel spill kit**

Hydrophobic spill kit for use with oil-based substances.

12x absorbent pad, 9x absorbent boom, 2x absorbent pillow, 1x rapid hardening putty stick REO, 1x sealing paste 0,5 kg, 3x storage sack, 1x protective gloves, 1 x UN-certified barrel 60 l

Small barrel spill kits

Approved ecological set which complies with ISO 14001. Spill kit contains the textile sorbents. It is necessary for workplaces where hazardous liquids can occur. Immediate emergency action will reduce costs spent on hazardous leaks disposal. In the case of accident the barrel can be used as a waste bin.

* Oil sorption, ** Water sorption

Product code	Product name	Absorbing capacity		Weight	Packing
KIT211	Small universal barrel spill kit	*98 l	**64 l	9,5 kg	1 set
KIT311	Small chemical barrel spill kit	*71 l	**40 l	9,5 kg	1 set
KIT411	Small hydrophobic barrel spill kit	*80 l		9,5 kg	1 set

Barrel emergency spill kits

Barrel spill kits with loose sorbents

For clean workplace use emergency spill kits ECO-DRY and REO-DRY. Their advantage is that the sorbents are stored in the barrel, which can also be used for temporary storage of used sorbents. Spill kits are compiled to be a bargain package and also to meet demanding requirements for clean and safe working environment.

UNIVERSAL GRANULES ECO-DRY is non-flammable, dust free granulate. Sorbent excellently absorbs the oil stains and petroleum emulsions on concrete, interlocking pavement and road asphalt. Even when heavy traffic the absorbed liquid will not release. It is chemically inert substance which absorbs liquids quickly, is easy to be swept away and has low purchase costs.

**KIT296****Emergency spill kit ECO-DRY SMALL**

10 kg of universal granules ECO-DRY, 1x shovel, 1x handy brush, 3x storage sack, 1x UN-certified plastic barrel 60 l

KIT297**Emergency spill kit ECO-DRY LARGE**

20 kg of universal granules ECO-DRY, 1x collapsible shovel, 1x broom, 3x storage sack, 1x UN-certified plastic barrel 120 l

UNIVERSAL LOOSE SORBENT REO-DRY is approved and safe loose. It is popular for its high absorbing capacity and dust free composition. It is suitable for the absorption of petroleum substances, cutting and cooling emulsions, light acid and lye solutions including water. It is 3 times more effective than expanded calcite!

Most common application:

- Oil and chemical storage facilities
- Machine shops
- Gas filling stations

**KIT291****Emergency spill kit REO-DRY SMALL**

10 kg of universal loose sorbent REO-DRY, 1x shovel, 1x handy brush, 3x storage sack, 1x UN-certified plastic barrel 60 l

KIT292**Emergency spill kit REO-DRY LARGE**

20 kg of universal loose sorbent REO-DRY, 1x collapsible shovel, 1x broom, 3x storage sack, 1x UN-certified plastic barrel 120 l

**We will immediately restock
your used sorbents.**

Spill kit KIT664 in metal depot REO604 – for use at the collecting centres

- Storing of used sorbents
- Lockable construction
- Spill sump capacity 410 l

KIT664 Spill kit for oil waste for use at the collecting centres – hydrophobic

3x plastic barrel 60 l, 3x plastic barrel for liquids 60 l, sorbents in bag: 1x absorptive cloth, 10x absorptive pad, 2x absorbent boom, 2x storage sack with lace, 1x protective gloves NITRIL

KIT664

REO604

Emergency barrel set for accumulator charging stations – KIT363

KIT363

Emergency barrel kit

Chemical set for use with aggressive materials.

25x absorptive pad, 6x absorptive sock, 3 kg of chemical loose sorbent, 1x protective coverall size XXL, 1x protective gloves, 1x chemical foot protection, 1x semi-mask + filter (A,B,E), 3x storage sack with lace, 5 packs of pH papers, 1x UN-certified plastic barrel 120 l

Barrel emergency spill kits

Barrel spill kits – for use with driving fuels

Approved spill kits for machines which operate on water, for oil storage facilities and gas filling stations.

- Suitable for the oil accident disposal at the oil storage facilities and at the gas filling stations
- Spill kit absorbing capacity is sufficient even for more extended accidents

Hydrophobic materials do not absorb water and water emulsions.

KIT443

KIT443

Medium-size hydrophobic barrel spill kit PHM3

10x absorptive pad, 3x absorbent boom, 10x segment REO Fb, 5 kg of hydrophobic loose sorbent REO-DRY, 0,5 kg of sealing paste, 5x quick-absorbing wipe, 2x putty stick REO, 4x storage sack, 1x gloves, 1x UN-certified barrel 120 l

KIT444

Medium-size hydrophobic barrel spill kit PHM4

10x absorptive pad, 4x absorbent boom, 20x segment REO Fb, 10 kg of hydrophobic loose sorbent REO-DRY, 0,5 kg of sealing paste, 5x quick-absorbing wipe, 3x putty stick REO, 4x storage sack, 2x gloves, 1x plastic foil 3 x 5 m, 1x UN-certified barrel 150 l

KIT445

Large hydrophobic barrel spill kit

25x absorptive pad, 12x absorbent boom, 25x segment REO Fb, 20 kg of hydrophobic loose sorbent REO-DRY, 4x disposable drain cover, 10x quick-absorbing wipe, 6x putty stick REO, 10x storage sack, 2x gloves, 1x plastic foil, 1x UN-certified barrel 360 l

Mobile emergency spill kits

KIT223

Mobile emergency spill kits in 120 l bins

- For routine and emergency spills and leaks
- Kit can be quickly transported to the accident site thanks to useful mobile bin
- Practical lock helps to protect the bin content

Emergency spill kits with lock

Emergency spill kits with universal locking system

KIT223**Mobile emergency spill kit – universal**

4x 10 kg of loose sorbent REO-DRY, 3x sack for used sorbents, 1 plastic shovel, 1x brush, 1x lockable bin 120 l

KIT213

KIT213**Mobile emergency spill kit – universal**

30x absorptive pad, 5x absorptive sock, 5x absorptive pillow, 2x 10 kg of loose sorbent REO-DRY, 10x quick-absorbing wipe, 5 pairs of protective gloves NITRIL, 1x sealing paste, 3x sack for used sorbents, 1x plastic shovel, 1x brush, 1x lockable bin 120 l

Mobile emergency spill kits

Mobile emergency spill kits in 240 l bins

Kits are compiled from absorptive means which are placed in plastic mobile lockable bin with capacity of 240 l. Colour of the bins can change. Kits are mainly suitable for mechanization and transport workshops, gas filling stations and premises where the hazardous substances are used.

KIT212

Mobile emergency spill kit – universal

50x absorptive pad, 5x absorptive sock, 30 kg of granulated sorbent ECO-DRY, 100x quick-absorbing wipe, 3 pairs of protective gloves NITRIL, 1x plastic shovel, 1x brush, 1x lockable bin 240 l

KIT312

Mobile emergency spill kit – chemical

50x absorptive pad, 5x absorptive sock, 30 kg of granulated sorbent ECO-DRY, 100x quick-absorbing wipe, 3 pairs of protective gloves NITRIL, 1x plastic shovel, 1x brush, 1x lockable bin 240 l

KIT412

Mobile emergency spill kit – hydrophobic

50x absorptive pad, 5x absorbent boom, 30 kg of hydrophobic loose sorbent REO-DRY, 100x quick-absorbing wipe, 3 pairs of protective gloves NITRIL, 1x plastic shovel, 1x brush, 3x storage sack, 1x lockable bin 240 l

REO PACK – emergency spill kits for waste-collecting centres

Special emergency spill kits (REO PACK) suitable for collecting centres in municipalities and towns. They are used as a necessary complement to the waste containers. Spill kits were compiled after consultation with the foremost specialists and on the basis of our long-lasting practice.

The spill kits contain highly effective sorbents for aggressive liquids, work protective means and additional means for the disposal of small accidents. Used sorbents could be continuously restocked.

Emergency spill kits are available in three versions:

Emergency spill kit REO PACK

RP1 20x hydrophobic absorbent pad, 4x hydrophobic absorbent boom, 20x chemical absorbent pad, 4x chemical absorbent sock, 3 kg of chemical loose sorbent, 10 kg of loose sorbent REO-DRY, 100x wipe, 5x plastic sack, 2x plastic foil 3 x 2,5 m, 2x gloves NITRIL, 1x protective goggles, 1x coverall, 1x foot protection, 1x putty stick REO, 1x container for liquid collection, 1x shovel, 1x brush, bag

Emergency spill kit REO PACK ECONOMY, economy version

RP2 4x hydrophobic absorbent boom, 20x chemical absorbent pad, 4x chemical absorbent sock, 3 kg of chemical loose sorbent, 10 kg of loose sorbent REO-DRY, 100x wipe, 5x plastic sack, 2x plastic foil 3 x 2,5 m, 2x gloves NITRIL, 1x protective goggles, 1x coverall, 1x foot protection, bag

Emergency spill kit REO PACK for collecting centres without oil accessories

RP3 4x chemical absorbent sock, 20x chemical absorbent pad, 3 kg of chemical loose sorbent, 10 kg of loose sorbent REO-DRY, 100x wipe, 5x plastic sack, 2x plastic foil 3 x 2,5 m, 2x gloves NITRIL, 1x protective goggles, 1x coverall, 1x foot protection, bag

We are able to compile and produce any type of emergency kit according to your need. Herein you can see the example – emergency bag and emergency suitcase.

* Oil sorption, ** Water sorption

Product code	Product name	Absorbing capacity	Weight	Packing

REO PACK2	Emergency spill kit REO PACK ECONOMY	*184 l **68 l	26,0 kg	1 set
REO PACK3	Emergency spill kit REO PACK for collecting centres	*127 l **68 l	22,5 kg	1 set

Mercury spill kits

Mercury spill kit KIT502

- Kit for easy clean-up and deactivation of small quantity of spilled mercury.
- Mercury is deactivated by conversion to amalgam
- For clean-up form textile and firm surfaces
- Packing dimensions: diameter 350 mm, height 300 mm

Composition:

- 1 pc bottle with powdered sulfur
- 3 pcs vessel for collecting and storing of mercury
- 1 pc suction bottle
- 1 pc shovel
- 1 pc brush
- 4 pcs bag for hazardous waste
- 1 pc small shovel
- 1 pc spatula
- 1 pc case with direction for use

Universal spill kit KIT204

KIT204 – Universal emergency spill kit in carton

200x absorptive pad, 4x storage sack with lace, cardboard box

* Oil sorption, ** Water sorption

Product code	Product name	Absorbing capacity	Dimensions	Weight	Packing
KIT502	Small mercury spill kit		35 cm x 30 cm	4,5 kg	1 pc
KIT204	Universal emergency spill kit in carton	*252 l **160 l	40 x 50 cm	16,0 kg	1 pc

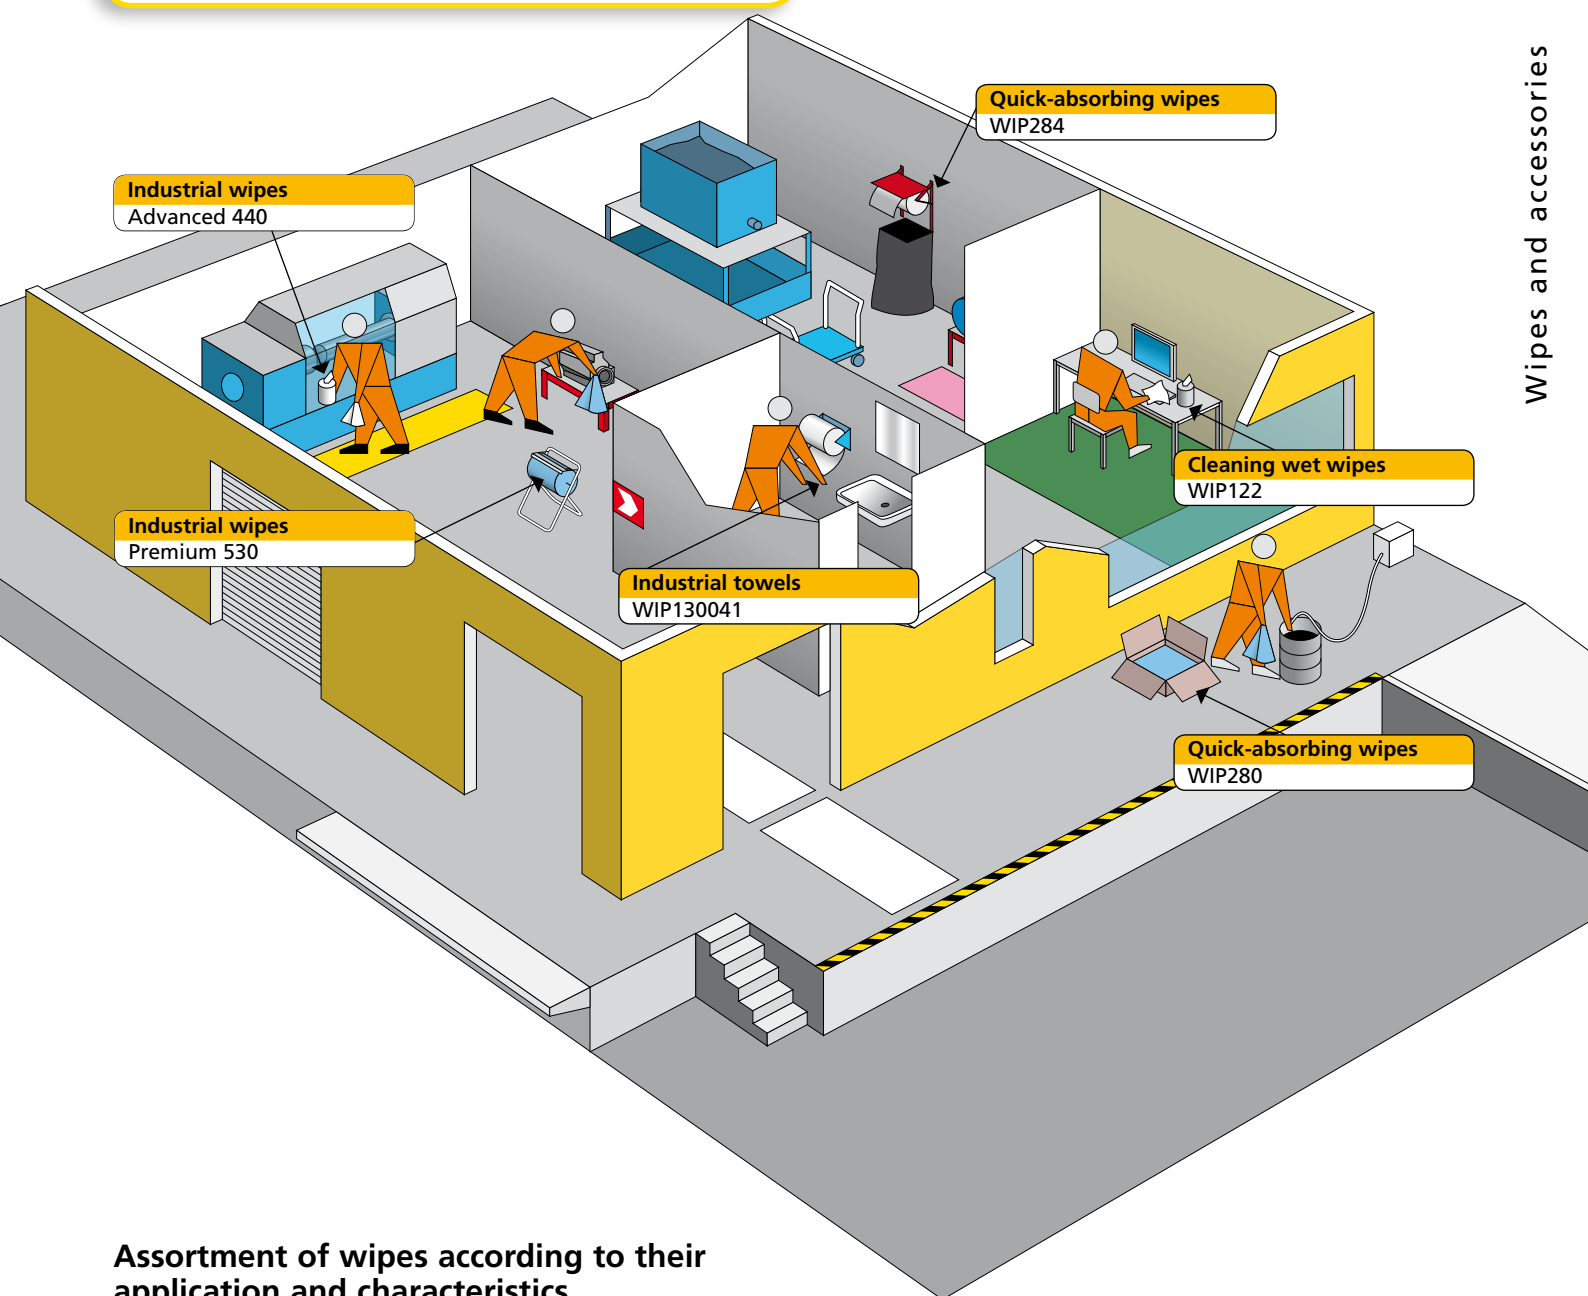

For cleanliness
of your workplace
and your hands

- Cleaning wipes classification
- Quick-absorbing wipes
- Dispenser racks
for quick-absorbing wipes
- Industrial wipes
- Hygienic means
- Cleaning equipment
- Washing agents

Products for prevention and removal of the environmental accidents,
for safe and clean workplace

Assortment of wipes

Assortment of wipes according to their application and characteristics

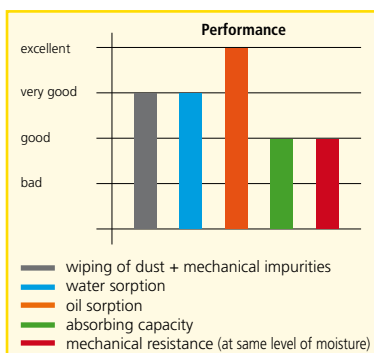

Product code	Material	Absorption - cleaning	Application	Disposable / repeated use	Low / high absorption

Industrial wipes

Industrial Advanced wiper 420 – paper, 2 ply

- Ideal for glass surfaces and sensitive surfaces
- Do not leave marks
- Very fine texture
- Considerate to often washed hands

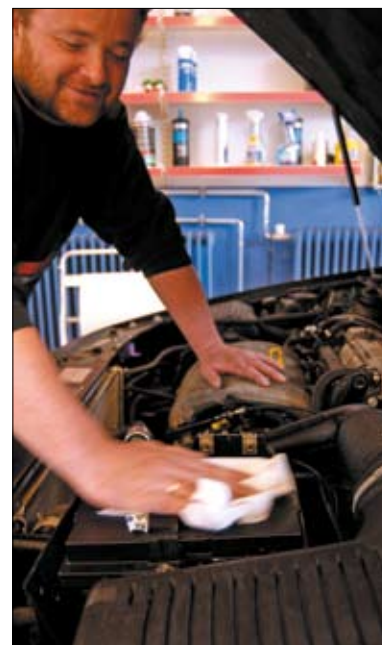

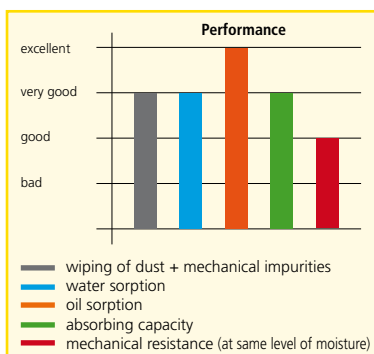

WIP130052

Industrial Advanced wiper 430 – paper, 2 ply

- The high capacity wiper
- Absorbs water and oil – quickly and affectively
- Leaves dry surface
- Suitable for hands as well

WIP130062

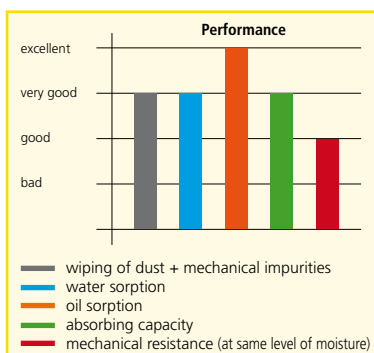

Product code	Product name	Packing	Dispenser
WIP130060	Wiper 430 Performance white	1 roll / 37 x 34 cm, 1000 sheets	W1
WIP130062	Wiper 430 Performance white	2 rolls / 24 x 34 cm, 1000 sheets	W1/W2

WIP130072	Wiper 430 Performance blue	2 rolls / 24 x 34 cm, 1000 sheets	W1/W2

Industrial Advanced wiper 440 – paper, 3 ply

- Allows wiping of large quantity of oil or grease
- Fast absorption of oil, grease or rests of dissolvent
- More plies
- Suitable for hands as well

WIP130081

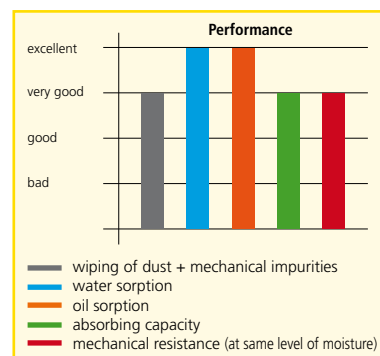

Product code	Product name	Packing	Dispenser
WIP130080	Wiper 440 Performance blue	1 roll / 37 x 34 cm, 750 sheets	W1
WIP130081	Wiper 440 Performance blue	2 rolls / 24 x 34 cm, 700 sheets	W1/W2

Premium multipurpose cloth 510 roll – non-woven textile, 1 ply

- For demanding wiping
- Strong, resistant, durable – can be reused
- High absorbing ability
- Light material allows cleaning also in confined spaces

WIP510178

Product code	Product name	Packing	Dispenser
WIP510104	Wiper 510 Performance white	1 roll / 38 x 43 cm, 1000 sheets	W1

WIP510178	Wiper 510 Performance white	1 pack / 43 x 39 cm, 150 sheets	W4
WIP510204	Wiper 510 Performance blue	1 roll / 38 x 43 cm, 1000 sheets	W1
WIP510237	Wiper 430 Performance blue	1 roll / 38 x 32 cm, 400 sheets	W1/W2/W3

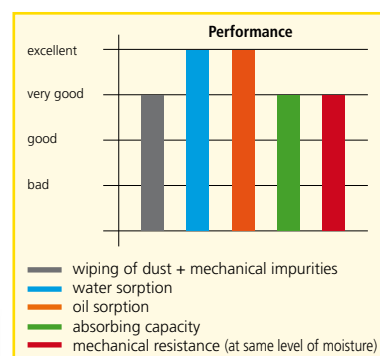

Premium multipurpose cloth 520 grey roll – non-woven textile, 1 ply

- Soft and with a textile feeling
- Softness makes it flexible and enables cleaning in tight corners
- The soft material is gentle to the surface to prevent scratches
- Can be used with any kind of solvents for a clean surface

WIP520371

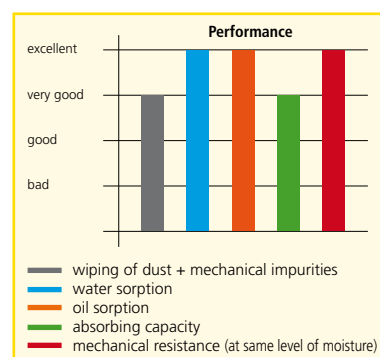

Product code	Product name	Packing	Dispenser
WIP520304	Wiper 520 Performance grey	1 roll / 38 x 43 cm, 950 sheets	W1
WIP520337	Wiper 520 Performance grey	1 roll / 38 x 32 cm, 390 sheets	W1/W2/W3
WIP520378	Wiper 520 Performance grey	1 pack / 43 x 39 cm, 140 sheets	W4
WIP520371	Wiper 520 Performance grey	1 pack / 43 x 39 cm, 280 sheets	Handy Box

Premium multipurpose cloth 530 roll – non-woven textile, 1 ply

- The strongest choice: thick and bulky
- Protects hands both from heat when handling hot plates and pans, and from being cut by metal scraps
- Textured surface makes it easy to remove grease and stubborn spots
- Allows hard scrubbing and tough solvents without falling apart

Product code	Product name	Packing	Dispenser
WIP530104	Wiper 530 Performance white	1 roll / 38 x 43 cm, 710 sheets	W1

Use it when you need
keep in stock or transport
hazardous substances
safely

- UN-certified plastic barrels
- Laboratory packs
- Antistatic packs
- Metal drums
- IBC containers
- Collecting boxes for accumulators, batteries and fluorescent tubes

Products for prevention and removal of the environmental accidents,
for safe and clean workplace

Plastic barrels

UN-certified plastic barrels suitable for loose materials and paste substances

- Lightweight, suitable for transport and storage of hazardous substances
- Temperature of hazardous substances can be from -40 °C to +60 °C
- Top lid with lever hoop
- Barrels are easy stackable

UN-certified plastic barrels suitable for hazardous liquids

- Lightweight, suitable for transport and storage of hazardous substances
- Temperature of hazardous substances can be from -40 °C to +60 °C

UN-certified plastic barrel PLS136

- Compact size
- Suitable for stacking
- Capacity 136 l
- UN 1H2/X220/S

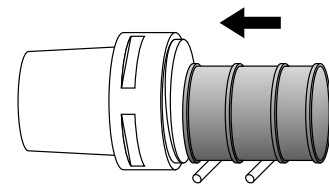

Product code	Product name	Dimensions	Weight	Capacity	Packing
PLS030	Barrel for hazardous substances – plastic	32 x 52 cm	2,0 kg	30,0 l	1 pc

Laboratory packs and overpack drums

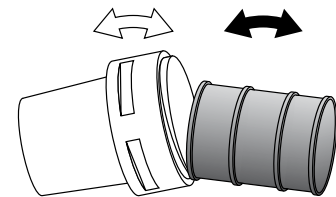

- Quick and leak-proof protection for leaking barrels which contain hazardous materials
- UN-certified overpack which meets requirements for handling of hazardous materials
- Highly stable material, UV-resistant
- Resists to majority of chemical substances

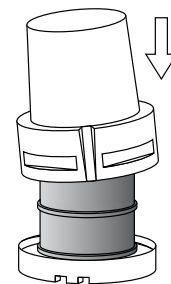

How to use OVERPACKS

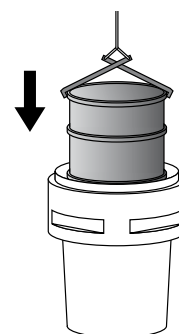

With the help of the rollers placed on a ground insert the barrel, which lie on the ground, into the overpack and screw the lid.

Roll both barrels and in this way insert damaged barrel into the overpack and screw the lid.

Place the lid on the floor just next to the leaking barrel. Remove the barrel on the lid. Cover the leaking barrel with the overpack and screw the lid.

Use the drum lifter to lift the leaking barrel. Then load the leaking barrel into the overpack and screw the lid.

Product code	Product name	Dimensions	UN-certification	Capacity	Weight	D

Antistatic barrel**UN-certified antistatic barrel PLSH220**

- Capacity 220 l
- Two plastic bungs in top lid
- Max. density of filler: 1600 kg/m³

PLSH220

Conical plastic barrel PLKS050

- HDPE conical barrel, blue colour, 50 l
- Removable black plastic lid + metal lever hoop
- UN 1H2/Y90/S/
- Maximal filling 50,7 l
- Weight 2 kg
- Dimensions 320/425 x 558,5 mm

PLKS050

Antistatic barrels for flammable substances

- Screw top lid, antistatic barrel material
- Barrels for storage of flammable substances are available in a capacity of 26 l and 75 l

PLSH026

PLSH075

UN-certified polypropylene conical pails

- Screwing lid
- White colour
- Available capacities 15 l, 20 l, 25 l

PLK025

PLK020

Product code	Product name	Dimensions	Weight	Capacity	Packing
PLSH220	Antistatic barrel	Ø 581 Height 372 mm	5,8 kg	220 l	1 pc

Klinik box – plastic

- Disposable containers for safe and hygienic collection of anatomic waste
- Can be used repeatedly when using with plastic sack
- Suitable for medical waste but also for other types of waste
- Attested - 1H2/Y31/S/.. A/PA-03/33887-3/A.P.B.
- Stackable, combustible, manufactured from polyethylene
- Top lid construction enables two ways of closing:
 - By light pressure on top lid with further reopening while filling the container continuously
 - By bigger pressure that results in definitive closing that is absolutely tight without no further contact with the container content

Quick box

- Designed for one use, mainly for collection of used injections, scalpels, burettes and other small medical material
- While pushing a lid in a container both parts are tightly connected and the lid cannot be opened – no further contact with container content is possible
- Suitable for combustion at incinerators
- Containers are manufactured from unobjectionable polypropylene and no emission of exhaust hazardous fumes are generated during combustion
- Notches in hinged lid are used for taking off of injections without human hand touch
- Practical, suitable for medical practice, laboratories, diabetics etc.

Product code	Product name	Dimensions	Weight	Capacity	Packing

Plastic barrels

Plastic buckets without UN-certification

- Designed for storage and manipulation with loose, semifluid and mashy materials. Meets hygienic requirements on contact with foods
- Top lid is designed for closing the buckets – one lid suits all types of the buckets
- Handles are designed only for manipulation with the buckets. They cannot be used for hanging

The product colour is subject to a change

PLK030

PLK060

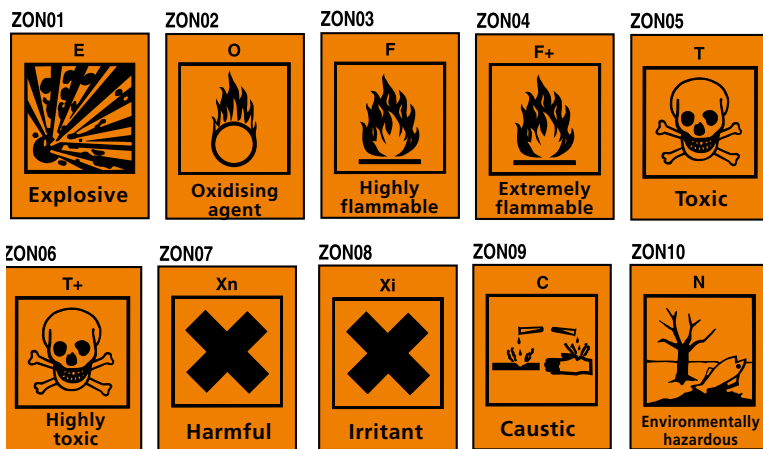

Plastic container PLN050

- Screw top lid
- Handles for manipulation
- Container without UN-certification
- Capacity: 50 l
- Dimensions: diameter 35 cm, height 71 cm

Plastic and metal canisters

UN-certified plastic canisters

- Canisters are attested – they can be used for storage and transport of hazardous substances
- Manufactured from polyethylene, resistant to UV radiation
- Canisters are fully recyclable
- Canisters are easy handling and stackable
- Temperature resistance from -20 °C up to +70 °C

The product colour is subject to a change.

Plastic canister, stackable

- Plastic canister with cap
- Neck diameter: 20 l – 40 mm, 10 l – 31 mm
- Transparent canister enables liquid level check

UN-certified canisters for fuel

- Material: polyethylene
- Colour: black with red cap
- Capacity: 5, 10, 20 l

Steel sheet canisters

- Steel tinned sheet
- Compact squared shape
- PE cap
- Capacity: 5, 10, 20, 30 l
- UN-certification

Metal drums

Metal drums with top lid

- Drums are manufactured from steel metal sheet. The shell is welded and reinforced by pressed stiffeners. Bottom and lid of the drum is connected with the shell by multiple safety clawing. To ensure leak-proof design, a sealing paste is coated on the clawing. The leakage-proof is tested for every drum
- Structure enables multi-use, retrofitting, recycling
- Drums are suitable for transport and storage of all types of liquids in the sense of specified transporting regulations mentioned hereinafter
- Drums are approved for transportation according to the international regulations: IMNG-Code - sea transport, RID - railway transport, ADR - road transport

KSZ202

KSL062

Metal drums with removable top lid

- Drums are manufactured from steel metal sheet. The shell is welded and reinforced by pressed stiffeners. Bottom and lid of the drum is connected with the shell by multiple safety clawing
- Top lid is equipped with rubber seal. It is secured by hoop with lever
- Drums are suitable for transport and storage of loose, paste and solid materials
- Drums are approved for transportation according to the international regulations: IMNG-Code - sea transport, RID - railway transport, ADR - road transport

KSZ200

Conical metal drum 60 l

- UN 1A2/Y76/S
- Removable top lid + lever hoop
- Dimensions 365/395 x 580 mm
- Externally varnished RAL 5010 / raw inside
- Two handles
- Drums can be inserted one into another
- Weight 4,4 kg

KSK060

Double-casing tanks

Double-casing tank steel-plastic

Suitable for industry, oil companies, agriculture. Can be used e.g. for storage of light fuel oil and naphtha.

- Easy manipulation, can be placed in confined spaces
- No need to place the tank on spill pallet thanks to double-casing
- Material: HDPE – internal container, galvanized metal sheet – external casing
- Holes:
 - 1/ Filling
 - 2/ Bleeding
 - 3/ Take off
 - 4/ Technologic
- Level meter included in packing
- Fill indicator of inter casing space

Double-casing tank plastic-plastic

Tanks resist corrosion and do not need maintenance.

Compact double-casing tank suitable for industry, oil companies and agriculture. The tanks can be installed without spill tanks. The tank construction enables easy manipulation. Can be used e.g. for storage of fuel oil, fuel, lubricating oils, hydraulic oils.

- Material: HDPE – internal container
HDPE – external casing
- Holes:
 - 1/ Filling
 - 2/ Bleeding
 - 3/ Take off
 - 4/ Technologic

Pumping set DNC001

- Pump, flow meter, 4 m long delivery hose with automatic dispensing pistol, suction hose with holder for double-casing tank steel-plastic
- Voltage 24/12 V; power 70/35 l/minute

Pumping set DNC002

- Pump, flow meter, 4 m long delivery hose with automatic dispensing pistol, suction hose with holder for double-casing tank steel-plastic
- Voltage 230 V; power 50 l/minute

BRAND NEW**IBC containers for liquids with cylindrical reservoir****Containers for reuse****Area of use**

Transport and storage of substances and products in chemical, varnishing and food industry. Container can be used for transportation and storing hazardous substances. It has UN homologation according to ADR, RID and IMDG and CE sign according to public notice 97/23 EG. Specification of container UCON (type IBCz) while use with food comply with directive EG č. 1935/2004

Capacity

500 – 1 100 liters

Manipulation

- possibility of transport by all standard freight cars
- possibility of manipulation by crane
- possibility of stocking

Container merits

- optimal design for cleaning
- complete emptying thanks to deep weathering bottom, imbedded embouchure and slide valve installed on collar
- 4 die plates for safe manipulation with fork lift
- diagonal legs offers optimal weight collocation of loaded container in frame
- Force transmission between reservoir and legs averts skidding of reservoir in frame (e.g. during cleaning or stirring)
- optional possibility of lid with integrated shaft and stirrer

**Material and equipment for IBC containers**

- **reservoir:** from stainless steel 1.4301 (AISI304) 2B
altrantive 1.4404 (AISI316L) 2B
1.4571 (AISI316Ti) 2B
další materiály na vyžádání
- **frame:** standard steel hot dip galvanized according to EN ISO 1461
alternative – stainless steel 1.4301 2B
- **top:** filling hole DN 400 or DN 457 with lid
lid closing by screws or lever feloe
type of lid sealing on request
safety pressure relief valve 1" (type UH/D2) or over/under pressure valve
other types of valves on request
- **bottom:** pressed, excentric
- **Drain off valve:** flap or spherical with standard connection to valve
systems of connecting camlock/tanker on request
- **Pressuring:** max operating overpressure up to 0,5 bar
with lid locked by screws possibility of overpressure up to 1 bar according to public notice DRGL 97/23 EG, CE sign

IBC containers

IBC containers for liquids with frame

Area of use

Transport and storage of substances and products in chemical, varnishing, food and plastic industry. Container can be used for transportation and storing hazardous substances and has UN homologation according to ADR, RID and IMDG and CE sign according to public notice 97/23 EG. Specification of container UCON (type TP) while use with food comply with directive EG č. 1935/2004

Capacity: 445 – 1.250 liters

Manipulation: possibility of transport by all standard freight cars, possibility of manipulation by crane, possibility of stocking

Container merits: Highly stable construction, inner reservoir protected by robust frame, higher stability thanks to additional cross props, loops for crane manipulation installed on frame, legs on reservoir warrants constant weight collocation, rubber inhibitor reduces vibrations between reservoir and frame, possibility of grounding, blind flange protects armature of drain off valve against damage by fork lift

IBC containers

IBC containers – 600 l and 1000 l

- Wide range of application - storage and transport of liquid substance according to the UN-certification
- Designed for hazardous liquids, which demand packing group II. – III./Y
- Stackable up to 2 high
- Rigid transparent HDPE tank, galvanized tubular steel frame, pallets made of wood, plastic or metal
- Used, washed out containers also available however stock is limited
- New antistatic container available
- Product finish is subject to a change

Antistatic
IBC container

Plastic IBC sump REO355

- Suitable for the storage of 1000 l container with highly aggressive liquids
- All-plastic pallet with grate
- Easy washable
- Low weight
- Easy handling
- Suitable for use in the food industry
- Capacity 1 200 l
- It is suitable to use the plastic spill containment pallet REO352 for the spill control when tapping

D – delivery time on agreement

Mixing mechanism for IBC containers with capacity 600, 800 and 1000 l

Mixing system planetroll CRW offers maximum flexibility for all branches of industry. We offer system CRW in standard version and also for explosive surrounding according to ATEX.

- Folding mechanism of mixing element allows insertion into container with keeping max. efficiency of mixing process.
- Special construction of mixing element warrants optimal mixing with low speed of motor
- Construction of mixing mechanism warrants perfect mixing in the whole volume of container
- All parts which are in contact with mixed solution are stainless
- Mixing element is easily demountable – no special tool needed
- Variable engine speed according to viscosity and needed mixing conditions
- Easy and non problematic connection with IBC container
- Possible to choose frequency converter or ballast tube

BRAND NEW

Mixing mechanism with frequency converter standard CRW110

- Mixing unit driven by frequency converter
- Input speed 70-300 r.p.m.
- Output moment 68-55 Nm
- 3 phase engine 1,1kW
- Feeding 230/400 V, 50Hz
- Control unit of engine ON/Off placed on left side together with feeding plug
- Speed setting on converter
- Outgoing shaft for mixing element – length 700mm, diameter 35 mm
- Mixing element RuvaStar – diameter 650 mm
- Shaft material: 1.4301
- Mixing element material: 1.4404

This mechanism is intended for mixing of solutions with parameters:

- Solution: karbamid
- Consistence: 1,087 – 1,093 kg/m³
- Viscosity: 0,63 mPas

Mixing mechanism with ballast tube planetroll ATEX design CRW100(Ex)

- Mixing unit with change of speed through the use of ballast tube
- ATEX design: Ex II G c/k IIB T3
- Input speed 0 -248 r.p.m.
- Output moment 52 – 47 Nm
- 3 phase motor 1,1 kW – 2865 r.p.m., according to standards EExIIT3 + PTB 01 ATEX 3260/02
- Feeding 230/400 V, 50Hz
- Mounted to steel body
- Control unit of engine ON/Off placed on left side together with feeding plug according to standards for zones 1/21 and 2/22: gas: ATEX II 2 G Ex de IIC T5, dust: ATEX II 2 D Ex tD A21 IP 65 T5
- Speed setting through wheel on ballast tube
- Outgoing shaft for mixing element: length 700 mm. diameter 35 mm
- Mixing element RuvaStar – diameter 650 mm
- Shaft material: 1.4301
- Mixing element material: 1.4404

This mechanism is intended for mixing of solutions with parameters:

- Solution: karbamid
- Consistence: 1,087 – 1,093 kg/m³
- Viscosity: 0,63 mPas

Box for accumulators and batteries**Plastic box for accumulators**

- Suitable for storage and transport of old accumulators or for storage and transport of various solid or paste substances
- Robust construction enables stacking
- Box is equipped with removable lid
- Manufactured from polyethylene
- Load / box 500 kg, stacking load 4500 kg
- Thermal resistance from -40 °C up to +60 °C

PPK004+PPV001

KCA BOX – container for accumulators

Suitable for collection of small batteries and monocells. Can be used at shops, schools, offices, wholesale trades etc.

- Capacity 20 l, load capacity up to 10 kg
- Lockable holder or wall-mounting option available if required
- Drop-in holes can be customized according to your requirements

KCA Box for batteries with holder

Case for fluorescent lamps REO858

- Each fluorescent lamp has its own tube from soft material, totally 28 tubes
- Zipper covering
- Strap for easy carrying
- Strong water-proof material

Exclusively only from us with UN code

PPK006

Fluorescent lamps container

Container designed for storage and transportation of used fluorescent lamps and discharge tubes

- Empty weight approximately 60 kg
- Recommended charge 200 kg
- Stackable in 4 layers
- Handling with fork-lift truck or crane

REO859

Container for fluorescent lamps – combined door opening system

Container for hazardous solid waste

Mobile box for storing solid hazardous substances

- Stackable
- Plastic robust box with wheels
- Storing of solid and pasty substances
- Lid fastened with buckles
- UN code
- Capacity 170 l
- Side snicks for fork lift manipulation

CEN7718

CEN7719

CEN7720

Waste basket for flammable material

- Suitable for use at working environment where oil spills can occur
- For collection, deposition and transport of:
 - Textiles contaminated with oil products
 - Empty paint packs
 - Dust from vacuum cleaners
 - Materials used for removal of oil accidents
- Watertight bottom
- Lockable top lid
- Capacity: 88, 135, 150 l

Modern waste
separation – that does
your company credit

- Collecting vessels
- Hand-presser for PET bottles
- Universal containers
- Waste baskets
- Crates
- Containers
- Containers for gritting material
- Sprinkle trucks
- Tilting trucks

Products for prevention and removal of the environmental accidents,
for safe and clean workplace

Waste bins

Plastic bins for separated waste

- Suitable for collection of glass, paper and plastic
- Resistant to climatic effects and UV radiation
- Waste sacks for waste bins please find under code STK1250 and STK2425 on page 98

Waste bin for the collection of plastic PLNS241

Waste bin for the collection of paper PLNS242

Ecopress REO204 Hand-presser for PET bottles

Hand-presser Ecopress reduces volume of empty PET bottles to 1/5 of their volume.
Saves 80% of your costs for storage and PET bottles disposal

- Very easy wall installation
- Effective lever gear increases compressive force
- Various applicability mainly at restaurants, offices but also at your home

Waste bins

Mobile waste bins PLN100

- Plastic bins from polypropylene
- Capacity 100 l
- Load capacity 75 kg
- Wheels for easy manipulation
- Ergonomic handle
- Reinforcements enhance strength and mechanical resistance
- Suitable for waste separation at cellars, manufacturing plants, gastronomic facilities etc.
- Not for use with standard refuse collection vehicles
- Size including top lid: 540 x 520 x 860 mm
- Easy tipping top lid available in 6 colours
- **Top lids have to be ordered separately**
- Waste sacks for mobile waste bins STK1250 (100 micrometers)

Waste bin SLIM JIM

- Plastic bins from polyethylene
- Capacity 60 l and 87 l
- Designed for waste collection at the offices, hospitals, industrial and other facilities
- Suitable for use in confined spaces
- Top lids for separated waste with strengthened edges are bought separately
- Suitable waste sack STK1250 (100 micrometers)

Waste baskets

Waste bins with tipping lid PLN045

- Ideal help with the waste sorting in the offices, schools or hospitals
- Colour variation enables easy orientation
- Waste bins are easy stackable
- Capacity: 45 l
- Waste bins are provided with a tipping lid
- Smooth surface enables easy cleaning
- Shape and size of the waste bins is designed mainly for the collection of the office papers and PET bottles
- Waste bins are supplied separately in the following colour variations: yellow, green, blue and red
- Specify required colour when ordering

PLN045

Waste basket Sirius
KOS030, KOS060

- Sturdy waste basket with a treading mechanism
- Provided with a frame for the attachment of a waste sack (STK03010, STK06010)
- Capacity 30 l and 60 l
- Coloured lids enable the waste sorting
- Treading mechanism opens the waste basket without the use of hands
- Suitable for industry, offices and gastronomy
- Manufactured from plastic. Rounded edges facilitate the cleaning
- Conical design enables stacking
- Waste baskets are supplied separately in the following lid colour variations: yellow, green, blue and white
- Specify required colour when ordering

Metal waste basket with plastic lid
KOSK060

- Capacity 60 l
- Dimensions: 375 x 780 mm
- Holder for plastic sacks (STK06010)
- Ergonomic handle
- Chrome container
- Coloured lids: red, blue, black, yellow
- Specify required colour when ordering

Ashtrays

Roofed shelter for smokers REO610

- Lightweight ventilated shelter
- Steel construction – polycarbonate shell
- Possibility to attach the shelter to the ground
- Transparent walls
- Dimensions: 2100 x 2100 x 2435 mm
- Ashtray is not included

Outdoor waste bin KOSV070

- Plastic bin with high resistance against climatic effects, capacity 70 l
- Handles for easy manipulation
- Suitable waste sack STK1250

Ashtray KOP001

- Elegant design suitable mainly for outdoor areas
- Sturdy polypropylene structure, inner lining from zinc-coated steel
- Can be anchored to the ground
- The advantage is a big capacity of the ashtray and maximal protection against inflammation of cigarette ends

KOP001

Ashtray KOP002

- Metal ashtray with a powder paint surface finish
- Upper part and perforated grid made from stainless steel
- Back part of the ashtray is provided with a lockable room for a bowl for cigarette ends
- Suitable to be placed in interior as well as exterior
- Ashtray can be fixed to the ground with screws

Waste sacks

Waste sacks – coloured STK122

- 70 x 110 cm, 25 pcs / roll
- Material: LDPE
- Material thickness: 40 micrometers
- Capacity: 120 l
- Colours: red, green, yellow, blue
- Specify required colour when ordering

Waste sack – black STK1225

- 70 x 110 cm, capacity 120 l
- Material thickness: 100 micrometers

Waste sack with lace STKS07

- Easy handling with waste
- Material thickness: 40 micrometers

Stationary sacks closer ZS002

- Metal construction
- Tape width 9 mm
- For the attachment to the fixed base

Tape for stationary sacks closer ZSP002

- Width 9 mm
- Length 66 m
- Transparent

Handy sacks closer ZS001

- Sack closer enables easy, quick and cheap sack closing
- Handy appliance
- Use with adhesive tape
- Tight closing

Binding plastic strips

- For easy, quick and tight closing of plastic bags and sacks

Tape for use with handy sacks closer ZSP001

- 1 packing – 12 pcs
- Packing content enables closing of approximately 2400 sacks

Waste baskets

Sacks stand with lid SPP120, SPK120

- Lightweight construction, quick installation
- Capacity 120 l
- Metal or plastic lid
- Delivered with waste sack
- Suitable waste sacks: STK1225 – black, STK122 – coloured

Collapsible sack stand SPP120-4

- Solid steel construction
- Galvanized
- Easy installation with one screw
- Does not require a lot of space for storage
- High resistance against climatic effects
- Coloured sacks STK122 available
- Delivered non-assembled

Sacks stand with lid SPP120-2

- Lightweight and solid construction
- Stackable
- Plastic lid
- Delivered with waste sack
- Suitable waste sacks: STK1225 – black, STK122 – coloured

Waste sack – black STK1225

- 70 x 110 cm, capacity 120 l
- Material thickness: 100 micrometers

Plastic containers

Stackable nest container PN001, PN002

- Designed both for hand and automated handling
- Containers secure the distribution of all sorts of valuable goods with an easy-to-attach security seal
- Security seal guarantees that the container cannot be opened without detection
- When nested the containers save up to 70% in return transport
- Flat base
- Integrated lid for safe sealing
- Available form recycled material in gray color too – PN002
- Internal dimensions: 526 x 341 x 335 mm
- External dimensions: 600 x 400 x 350 mm
- Maximal load capacity: 60 kg

Handling trolley PNV001 for PN001

- Facilitate safe and easy movement of containers
- 4 swivel wheels
- Maximal load capacity: 250 kg
- External dimensions: 600 x 400 mm

Stackable Euro container PNE001

- Design of the containers gives stability in transport
- Flat base
- Integrated label holder on one short side
- Internal dimensions: 556 x 356 x 62 mm
- External dimensions: 600 x 400 x 75 mm

Foldable pallet container PNK001

- Complete returnable packing system
- Container increases safety in transportation and provides improved hygienic handling
- Made of HDPE and solid PP and is 100% recyclable
- Flat base with drain holes
- Non-perforated long and short side walls, Two skids and feet
- Doors in one long and short side
- Internal dimensions: 1120 x 920 x 790 mm
- External dimensions: 1200 x 1000 x 975 mm
- Maximal load capacity: 500 kg

Foldable pallet container PNK002

- Flat base with drain holes
- Non-perforated long and short side walls, two skids and feet
- **Doors in one long and both short sides**
- Made of HDPE and solid PP
- Resistant to the climatic effects, humidity and mould
- Easily washable surface by power water
- 100 % recyclable
- Internal dimensions 1120 x 920 x 765 mm
- External dimensions 1200 x 1000 x 975 mm
- Maximal load capacity 1000 kg
- Maximal stacking load capacity 2000 kg
- The product is safe and health unexceptionable
- Its use bring above all a striking reduction in transport, handling and storing expenses
- When folded up it saves 60 % of capacity
- **The boxes for covering documents are provided on all four sides of the container**

**BRAND NEW**

Plastic containers

Rigid plastic containers

• Made of polyethylene with high density • This plastic product is greatly resistant to the chemicals and tenacious at low temperature • Resisting to a UV radiation • 100 % recyclable • Easy stacking • Smooth double-tube walls • Round off edges • Working temperature -40 °C up +60 °C • Grey colour • Hygienic and stable • Easily washable surface by power water • Resistant to the climatic effects, humidity and mould • The products are safe and health unexceptionable

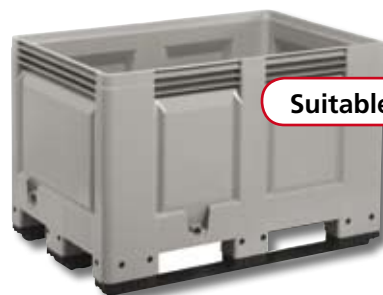

Rigid pallet container PPK001

- Solid base and walls, 4 feet
- Internal dimensions: 1110 x 710 x 610 mm
- External dimensions: 1200 x 800 x 760 mm
- Maximal load capacity of the container: 500 kg
- Maximal stacking load capacity: 4500 kg

Rigid pallet container PPK004

- Solid base and walls, 3 skids
- Internal dimensions: 1110 x 710 x 610 mm
- External dimensions: 1200 x 800 x 790 mm
- Maximal load capacity of the container: 500 kg
- Maximal stacking load capacity: 4500 kg

Suitable for accumulators

GOOD PRICE

Rigid pallet container PPK002

- Solid base and walls, 4 wheels
- Internal dimensions: 1110 x 710 x 610 mm
- External dimensions: 1200 x 800 x 915 mm
- Maximal load capacity of the container: 500 kg
- Maximal stacking load capacity: 500 kg

Rigid pallet container PPK005

- Solid base and walls, 3 skids
- Internal dimensions: 1110 x 910 x 610 mm
- External dimensions: 1200 x 800 x 790 mm
- Maximal load capacity of the container: 500 kg
- Maximal stacking load capacity: 4500 kg

Rigid pallet container PPK003

- Solid base and walls
- 4 feet, with doors
- Internal dimensions: 1110 x 710 x 610 mm
- External dimensions: 1200 x 800 x 760 mm

Storage containers

Storage container KITBOX33

- Designed for the storage of spillage / fire products
- Stackable upon each other
- Angled lid allows water build up to run off
- 300 mm gaps at the base allow for easy forklift access
- Container available with/without wheels (4 swivel castors, 2 with break)
- Capacity 400 l
- Yellow colour

Storage container KITBOX31

- For indoor / outdoor storage, sand, dry materials, salt, chemicals and spillage equipment
- With plastic toggle
- Capacity 110 l
- Red colour

Hanging box KITBOX30

- Box form resistant plastic
- 2 wooden shelves
- Rubber tamping
- Window to control content
- Color – green

Container COMBO AQUA KCA1000

Container for makeshift and emergency water supply

- Foldable plastic container
- More containers can be connected together to create sufficient water reservoir
- Stackable up to 5 high
- Minimal costs for storage and maintenance
- High flexibility and mobility
- Meets the highest hygienic standards
- Removable flexible liner bag is placed inside the Combo and can be filled with the liquid
- Internal volume: 1000 l

Sandboxes

Container for gritting material

- Containers are designed for storage of gritting material (sand, grit, salt)
- Fibreglass containers with stainless steel hinges
- Other parts are hot-dip galvanized
- Surface is weatherproof and is easy to clean from graffiti

Options:

- Anchorage against thefts
- Lockable construction
- Adjustment for fork-lift truck handling
- Without discharge hole
- Inscriptions and logos can be laminated into the sandbox surface

N2P550

Salt for roads

- Effective for glaze frost removing
- Easy application with sprinkle trucks
- Available in 3 kg, 25 kg and 50 kg bags

Antislip spreading material REOSTAR II

- suitable for glazed frost and ice accretion
- inert, environment unobjectionable
- easy to collect and sweep
- easy application through sprinkle trucks
- suitable for liquidation of oil substances
- delivered in handy packing

Sprinkle trucks

The sprinkle truck is lightweight truck designed for easy and quick spreading of gritting material on roads and other places with the danger of slipping on icy surface. The gritting material is usually a mixture of sand and salt. The truck is manufactured from resistant plastic, it is easy to clean. Big wheels ensure smooth operation. It can also be used for proportioned seeding of grass and fertilization.

Sprinkle truck PSA031

- Completely built-up, ready for immediate use
- Tyres at a diameter of 25 cm, can be used in demanding terrain
- Reservoir at capacity of 31 l furnished with three regulable holes that are controlled by lever on handle
- Frame is manufactured from varnished steel, reservoir and spreader from resistant plastic
- Use mixture of sand and salt for spreading
- Spreading width: 2,5 – 3,5 m

Sprinkle truck PSA019

- Suitable for smaller areas, e.g. for pavements and areas around houses
- Furnished with wheels at a diameter of 20 cm
- Reservoir at capacity of 19 l is equipped with three regulable holes that are controlled by lever on handle
- Use mixture of sand and salt for spreading
- Spreading width: 1,5 – 2,5 m

Sprinkle truck PSA035

- Designed for spreading salts and granulates in the winter as well as spreading granulates to bind oil, as a seed spreader (e.g., grass seeds, mustard for basic fertilisation, etc.) and as a fertiliser spreader for mineral fertilisers.
- The maximum grain size of the spreading material is 4 mm.
- Reservoir at a capacity of 35 l
- Spreading width: 60 cm
- Dimensions: 107 x 82 x 83 cm

REO AMOS

Products for prevention and removal of the environmental accidents, for safe and clean workplace

Plastic and metal tilting truck

Plastic tilting truck

- Plastic – polyethylene
- Large wheels
- Capacity: 400, 600, 800 l
- Load capacity: 205, 272, 570 kg
- Easy tilting
- High chemical resistance
- UV resistant
- Dimensions:
400 l 1457 x 683 x 860 mm
600 l 1638 x 768 x 965 mm
800 l 1797 x 851 x 1073 mm

Plastic tilting truck KVP750

- Simple plastic tilting construction
- UV resistant
- High chemical resistance
- Capacity: 750 l
- Dimensions: 1800 x 1000 x 930 mm
- Adjusted for lifting with forklift truck
- Controlled by steel cord

Metal tilting truck KVK900

- Metal construction
- 2 fixed and 2 swivel castors
- Load capacity: 900 kg
- Tilting is controlled by metal cord
- Dimensions: 965 x 1480 x 1265 mm

Net for waste treatment

● Anti fatigue mat

reduces neck and shoulders stiffness which causes headaches

reduces pressure on spine and back muscles load thereby prevent from pain

amount of energy which is needed for support of back and leg muscles reduces to half.

supports blood circulation

supports often changed body position thereby acts against joint and muscle stiffness

reduces heel and instep pain which are caused by pressure during long term standing

*Anti fatigue mats
reduces tiredness during
standing and dampen
strokes during fall
of object to the floor*

- Indoor dust control mats
- Outdoor dust control mats
- Desinfectant mat
- Anti-fatigue mats
- Special mats

Products for prevention and removal of the environmental accidents,
for safe and clean workplace

Dust control mat Emil

- Economical yet effective scraper doormat
- Pile material is 100% polypropylene
- Base underside – Collback TM800
- Slip and stain resistant PVC backing
- Pile height: 4 mm
- Total weight: 2.6 kg/m²
- Product height: 7 mm
- Colours: black/steel, black/blue, black/red, black/brown
- Dimensions: 0,6 m x 0,9 m; 0,9 m x 1,2 m; 0,9 m x 1,5 m; 1,2 m x 1,8 m

Dust control mat Nina

- Textured design provides outstanding scraper action
- Ideal for use in entrance well areas
- Also suitable for entrance walkways
- Pile material: 100% solution dyed UV stabilised polypropylene fibres
- Pile height: 5.2 mm
- Total weight: 2.5 kg/m²
- Product height: 10,8 mm
- Colours: anthracite, grey
- Dimensions: 1 m x 3 m; 2 m x 3 m

Dust control mat Pavla

BRAND NEW

- Entrance cleaning zone made of the combination of aluminum and carpet (100% PP fibers with PA brushes and aluminum edges)
- Easy installation
- Easy cleaning – anti-slip latex backing prevents dirt getting underneath
- Flammability: Class E
- Total height: 13 mm
- **Available in two versions:**
- **The surface version** – to be placed on the floor. Equipped with textile edging on both 1,5 long sides. Dimensions: 0,92 x 1,5 m
- **Version to be inserted into floor** – to be placed into hole in the floor. Can be easily cut into shape. Dimensions in roll: 1,98 x 2 m

Dust control mat Plus

- Flexible PVC tile with high quality carpet insert
- Entrance system designed to scrape dirt and absorb moisture
- Suitable for both indoor use and external covered areas
- Creates a smart and stylish entrance
- Elegant design
- Ideal for insertion into foot wells
- Bevelled ending available (1 bevelled ending = 1 pack of connectors)
- Easily cleaned – vacuum
- Suitable for use with high heel shoes
- Easy to cut and trim to any shape
- Colours: black/anthracite, black/grey
- Fire Tested to EN12501 Euro Classification E(F1)
- Product height: 15 mm
- Dimensions: 30 cm x 45 cm

Dust control mat Robert

- Natural rubber flexible 'fingers' scrape and trap dirt on shoes
- Safety bevelled edging for trip prevention
- Slip-resistant base holds mat in position
- Easy to clean – simply shake out or hose down
- Ideal for all weather conditions
- Product height: 16 mm
- Black colour
- Dimensions: 0,6 m x 0,8 m; 0,8 m x 1 m; 0,9 m x 1,8 m

Dust control mat Oct-O-Flex

- Rubber matting with long life durability, does not break and stays flexible even at frost conditions
- Designed primarily as a scraper mat to stop moisture, dirt, grit and grime outside the doorway
- Raised knobs underneath allow excellent drainage, leaving a clean and dry surface
- No bumpy surface, ideal for carts, wheel chairs etc.
- Small holes diameter 14 mm, compliant with EU norm for public entrances
- Connector also available (2-3 connector needed for the connection of 2 mats)
- Low weight, easy manipulation while cleaning the mat
- Product height: 12 mm
- Loose or placed in a recess frame or tank
- Tank depth is 12 mm
- Tank is designed for installation into ground

Dust control mat Oct -O- Flex with leading edge

- Not possible to stumble
- Suitable for wheelchairs

Dust control mat Oct-O-Mat

- Rubber matting with long life durability, does not break and stays flexible even at frost conditions
- Designed primarily as a scraper mat to stop moisture, dirt, grit and grime outside the doorway
- Holes diameter 30 mm and raised knobs underneath allow excellent drainage, leaving a clean and dry surface
- Matting withstands weather extremes and the heaviest of foot traffic, also ideal for shopping carts, wheel chairs and cars
- For placement in hypermarkets and supermarkets, post offices, banks, sports facilities, cinemas, stadiums, swimming pools and fitness centres, parking lots etc.
- Heavy weight assures non-shifting
- Connectors available to make larger matting (use 2-3 connectors to connect 2 mats together)
- Insert brushes in various colours available – e.g. to create a company logo on your matting (you need 625 insert brushes for 1 m²)
- Product height: 23 mm
- Loose or in a recess frame, tank also available (tank depth is 23 mm)
- Tank is designed for installation into ground
- Insert brushes in various colours (black, red, blue, yellow, green, grey)

The Entrance Disinfectant Mat Sani-Trax RDS080

Recommended use:

At doorways, starter rooms, packaging areas, laboratories, employee locker rooms, break rooms, refuse areas and receiving rooms-any place where spread of contamination needs to be limited.

- Cleans and sanitizes shoes
- Thousands of flexible fingers provide an automatic scrubbing action that dislodges contaminants from footwear. As traffic passes, rubber tips bend under pressure to immerse soles in disinfectant solution, a double action that keeps contamination from reaching food processing areas.
- Convenient mat size that fits most doorways.
- Suction cups on underside prevents mat from shifting.
- Mat holds 4,5 liters of disinfectant solution.
- Thick surrounding border stands 6mm higher than finger-scrappers to contain liquid disinfectant.
- Made of tough rubber compound designed to resist to most chemicals and variations in temperature.
- Material: 100% natural rubber compound
- Weight: 10,8 kg/m²
- Thickness – 19 mm
- Stock sizes – 61 cm x 81 cm
- Colors – Black

Industrial matting

Anti-fatigue mat Klaudie

- Soil-resistant PVC diamond surface for greater traction and extended wear
- Comfortable foam cushion backing relieves fatigue from prolonged standing
- Protects operatives from the effects of hard, cold concrete floors
- Self-extinguishing top surface resistant to many industrial chemicals
- Supplied with ramped edges
- Withstands demanding industrial conditions
- Klaudie with yellow borders to increase safety awareness also available
- Product height: 14 mm
- Colours: black, grey
- Dimensions: 0,6 m x 0,9 m; 0,9 m x 1,5 m; 0,9 m x 3 m

black

grey

Anti-fatigue mat Boris

- Manufactured from a hard wearing rubber compound
- Comfortable standing surface – reduces fatigue
- Bubble surface stimulates blood circulation to feet
- Protects operators from cold concrete floors
- Ideal for use where operatives stand in static positions
- Standard mat (with safety bevelled edges) or middle and end sections for longer runs
- Product height: 14 mm
- Black colour
- Dimensions: 0,6 m x 0,9 m; 0,9 m x 1,2 m (with safety bevels on all 4 sides); 0,6 m x 0,9 m; (end section, middle section)

Anti-fatigue mat Klement

- Top quality anti-fatigue mat
- Made from extremely hard wearing polyurethane
- Offers excellent fatigue relief
- Bubbled surface stimulates blood circulation during foot movement
- Safety bevelled edging
- Fire resistant to DIN 4102 (B1)
- Product height: 15 mm
- Black colour
- Dimensions: 0,6 m x 0,9 m; 0,9 m x 1,2 m

Industrial matting

Anti-fatigue mat Wili

- Economical anti-fatigue mat
- Raised surface increases safety by reducing slips
- Suitable for wet and dry industrial environments
- Moulded bevelled edges protect operators from tripping
- Protects operatives from the effects of cold concrete floors
- Lightweight and easy to clean
- Product height: 12 mm
- Grey colour
- Dimensions: 0,9 m x 1,5 m

Anti-fatigue mat Dominika

- Manufactured from hard-wearing natural rubber
- Provides excellent slip-resistance in wet or oily areas
- Spilt liquids drain through the open holed surface
- Extremely comfortable to stand on, effectively reduces fatigue
- Connectors available to link mats together for larger areas, bevelled ending
- Product height: 19 mm
- Black colour
- Dimensions: 1 m x 1,5 m

Knee Saver

- Reduces knee pain and lower back stress caused by regular kneeling
- Lightweight only 0.45 kg per pad
- Resistant to oils and chemicals
- Built in carrier handle
- Manufactured from a closed cell PVC/Nitrile blend
- Product height: 19 mm, black colour
- Dimensions: 53 cm x 36 cm

Anti-slip pad

- Ideal non-slip liner for benches and drawers
- Cushions and protects components
- Easy to cut and trim to shape
- Machine washable
- Manufactured from foam PVC
- Product height: 4 mm
- Black colour
- Dimensions: 0,6 m x 1,2 m; 0,6 m x 10 m

Industrial matting

Tile matting

- Interlocking tiles made from a blend of natural rubber and nitrile
- Good resistance to oils and grease
- Provides underfoot cushioning for effective fatigue relief
- Can withstand temperatures of up to 160°C and spillage of molten glass
- Individual tiles can be replaced or repositioned with ease
- Optional extras: Corner units, bevelled edging in black or yellow and connectors in black (for widths greater than 0,9 m)
- Conforms to Slip Resistance Test EN 13552 Category R10
- Product height: 16 mm
- Black colour
- Dimensions: 0,9 m x 0,9 m

Resistant tile matting

- Interlocking tiles made from hard-wearing rubber
- Soft, yet resilient material offers fatigue relief benefits
- Spilt liquids drain through the open holes for safety underfoot
- Modules interlock to fit any size area
- **Blue grease/oil proof version available**
- Optional extras: Corner units, bevelled edging in black or yellow and connectors in black (for widths greater than 0,9 m)
- Conforms to Slip Resistance Test EN 13552 Category R10
- Product height: 16 mm
- Colours: black, blue
- Dimensions: 0,9 m x 0,9 m

High-duty tile matting

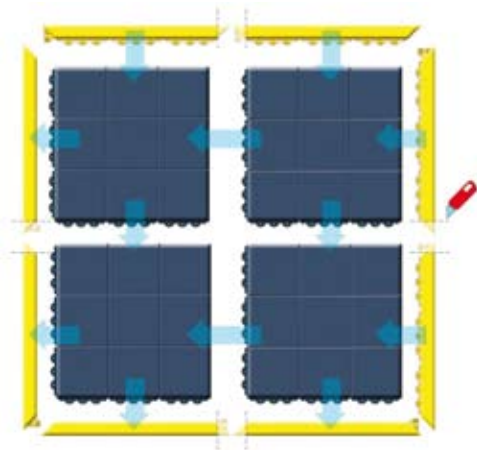

- Made from a combination of natural SBR rubber and nitrile
- Interlocking sections - provides coverage of any length in 0.9 m and 1.5 m widths
- Most of grease / oil resistance
- Raised circular surface for superior slip resistance
- Spilt liquids drain through open holes
- Comfortable – reduces fatigue from standing
- Conforms to Slip Resistance Test EN 13552 Category R10
- Product height: 12,5 mm
- Black colour
- Dimensions: 0,9 m x 1,5 m

D – delivery time on agreement

Anti-fatigue mat Sandra

- Interlocking mats allow on-site customization. Square snap together units of 91 x 91 cm that can be assembled effortlessly and laid out from wall to wall or as islands, in any direction or shape
- Closed anti-slip "pebble structure" surface
- Superb anti-fatigue properties due to its unique design underneath and high quality resilient rubber compounds
- 100% nitrile rubber compound, oil proof and fire retardant, suitable for welding areas
- Fire classification Bfl-S1 according to DIN EN 1351 and Class I according to ASTM E648-03 (NFPA253)
- Inner or outer corners can be created – not fire resistant
- Heavy duty – dry industrial environment
- Ramps 91 cm long, black and yellow colour

Anti-fatigue mat Pedro

- Fire classification Dfl-s1 tested according to DIN EN ISO 13501
- Critical radiant flux 0,39 wat/cm²
- Highly resistant mat for use in dry industrial areas and welding areas. Resists incidental damage from sparks and solders
- Top surface laminated on to a resilient micromolecular vinyl base for maximum durability coupled with fatigue relief
- Uni-Fusion technology, engineered to resist in the harshest work environments
- Resistant to most industrial fluids and chemicals
- All 4 sides are bevelled to minimize tripping
- Pebble-embossed rubber top surface affords sure-footing, yet easy to clean
- Weight: 5,8 kg / m²
- Products height: 12,7 mm

**Resists incidental damage
from sparks and solders**

Special matting

Antistatic mat Amos

- Tough, long lasting static-dissipative anti-fatigue floor mat
- Designed to protect operatives from static build-up
- Easy wipe clean surface
- Grounded via a 10mm male stud fitted to the mat – maximum performance when used with floor mat grounding wire
- Suitable for off-take of static charge
- Effectively reduces fatigue from standing
- Actual resistance measurements are $1 \times 10^9 \Omega$ do $1 \times 10^{10} \Omega$
- Product height: 9 mm
- Grey colour
- Dimensions: 0,6 m x 0,9 m; 0,9 m x 1,5 m; 0,9 m x length (max. do 18,3 m)

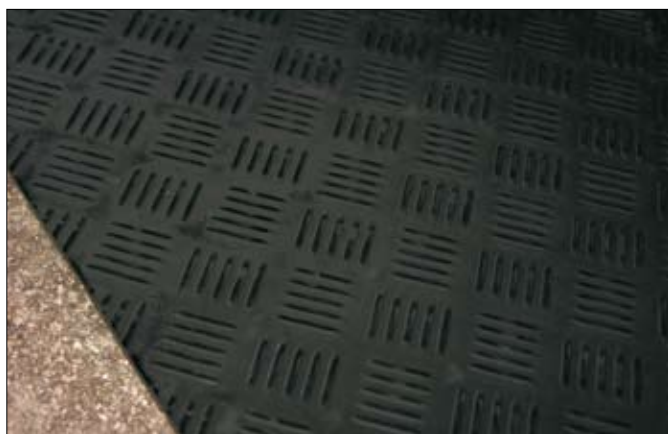

Grounding set for antistatic mat Amos

- Grounding set
- Each mat is delivered with a pin for connection of grounding cable
- 2 m of grounding cable
- 2x heel accumulator of static electricity
- Grounding plug

Dielectric mats

- Electric non-conducting
- Designed for electrotechnics as protection for both alive beings and electrical equipment parts
- Shape of surface helps for safe walk and eliminates slipping
- Ozone, weather conditions and petrol non resistant
- Low resistance to oils, acids and abrasion
- Strong alkali resistant

Seal what you need

- Rapid hardening putty sticks REO
- Drain covers
- Canalization barriers
- Pipe wraps
- Sealing plugs
- Sealing granules and paste
- Flexible spillblocker
- Barrel patch

Products for prevention and removal of the environmental accidents,
for safe and clean workplace

5 types of rapid hardening putty sticks REO

Product code	Product name	Size/Weight	Mixing time	Curing period	Full curing	Application
At temperature of 20 °C						
TRU001 TRU012	Rapid hardening repair putty stick REO UNIVERSAL	22 x 17,8 cm / 120 g 1,44 kg	1 – 1,5 min. until uniform colour is achieved	2 – 5 min.	60 – 120 min.	- Suitable for multi-purpose application - Electrically non-conductive
TRP001 TRP012	Rapid hardening repair putty stick REO PLASTIC	22 x 17,8 cm / 120 g 1,44 kg	1 – 1,5 min.	30 min.	60 – 120 min.	- Suitable for maintenance and repairs - Adheres to wet surfaces - Workable
TRS001 TRS012	Rapid hardening repair putty stick REO STEEL	22 x 17,8 cm / 120 g 1,44 kg	1 – 1,5 min.	2 – 5 min.	60 – 120 min.	- Extremely suitable for repairs on metal products - Putty stick contains metal filler
TRA001 TRA012	Rapid hardening repair putty stick REO AQUA	22 x 17,8 cm / 120 g 1,44 kg	2 min.	5 – 10 min.	45 – 60 min.	- Suitable for the application under water - For repairs of holes in metal, wooden, fiberglass products and boats
TRB001 TRB012	Rapid hardening repair putty stick REO CONCRETE	22 x 17,8 cm / 120 g 1,44 kg	2 min.	4 – 10 min.	60 min.	- Suitable for repairs of concrete floors, street curbs and stairs - Repairing and rebuilding of decorative concrete decorations, decorative mouldings, statues and other concrete products

How to use putty sticks REO:

Prior to use

Cut off

Knead

Apply

Finish

Performance properties:

- Always ready for application
- Easy to prepare – both parts are in one tube, just twist or cut off required amount
- Repair putty stick repairs even parts, which are not possible to repair in any other way
- All types of the sticks perfectly adhere to metal, wood, concrete, glass fibres, ceramics and majority of plastics
- Cured putty stick is very hard and it is possible to finish it as metal – can be sanded, sawed, filed or painted
- Cured putty sticks are highly resistant to water activity, all petroleum substances, coolants and cutting emulsions

GOOD PRICE

Product code	Product name	Weight	Packing
TRU001, TRP001, TRS001, TRA001, TRB001	Rapid hardening putty stick REO	120 g	1 pc
TRU012, TRP012, TRS012, TRA012, TRB012	Rapid hardening putty stick REO	1,44 kg	12 pcs

Flexible spillblocker

Spillblocker PUH3105

Highly adhesive spillblocker stops the leaks from spreading. Spill barrier against penetration through the doors, sewers or spreading the machine leaks.

- Manufactured from 100% polyurethane – very good chemical resistance, can be used repeatedly, flexible
- Resistant to oil, water and many chemicals
- Sticky bottom liner assures very good adhesion to any surface
- Flexible urethane construction lets form any shape
- Easy washable and storable
- Suitable as preventive barrier against hazardous machine or car leaks
- Spillblocker can be easily linked to make larger barrier
- Spillblocker has the same chemical resistance as OKR9090

Sealing plug

- Suitable for smaller leak holes sealing in reservoirs or drums
- Enclosure of drains and pipes
- Easy to use
- Dimensions: 2", 3", 4", 6" (5,08 cm; 7,62 cm; 10,16 cm; 15,24 cm)
- Material – Polyurethane

Barrel patch SRU013

- Special flexible plastic – polyurethane plate with very good adherence, equipped with strong nylon webbing with heavy duty ratchet
- 1,8 m long webbing
- Includes carrying box
- Ready for immediate application
- Resistant to petroleum substances and to many aggressive liquids and solvents
- Can be used repeatedly – only wash and store in a box
- Applicability: from -40°C to 150°C
- Immediate seal of barrels, cisterns, pipelines and basins
- Barrel patch has the same chemical resistance as OKR9090
- Dimensions: 13 x 18 x 2 cm

D – delivery time on agreement

Product code	Product name	Dimensions	Weight	Packing	D
PUH3105	Spillblocker	300 x 10 x 5 cm	11,5 kg	1 pc	D

SZU006	Sealing plug	6"	3,0 kg	1 pc	D

Disposable drain covers

- Creates a tight seal over drain inlets and big holes in basins and tanks
- Adheres even to wet, oily and ferrous surface
- Designed only for the emergency application for tight sealing of inlets for max. 48 hours
- Drain covers are manufactured on bentonite base. They are easy to join and seal arbitrary large area
- We can manufacture the drain cover according to your requirements

Material has added fibres that enhance product strength.

Drain cover does not crack while drying-out.

Disposable drain cover – frost proof

- Disposable drain cover – frost proof • No cracks during drying

Chemical resistance	Time		Application	Concentration

Reusable drain cover OKR9090 and OKR122

- Squared highly adhesive rug manufactured from PU
- Always ready for immediate application
- Remains fixed in the water stream and flooding
- Resists to petroleum substances and large group of aggressive liquids and solvents
- Antistatic adjustment, meets the requirements of the Czech Norm for SNV1, SNV2, SNM1 and SNM2
- Reusable – after application clean easily with water and inlay the foil
- Can be used as preventive safety cover
- For the application within -40 °C to +150 °C

The list of substances, which are compatible for use with the reusable drain cover:

Acetone	Uric acid
Petrol	Naphtha
Benzyl alcohol	Hydrogen peroxide
Butanol	Propylene glycol
* Cyklohexane	Petroleum
Ammonia	Solutions of boric acid
Ethylene glycol	*Tetrahydrofuran
Formaldehyde	Turpentine
Freons	Trichlorethylene
Glycerine	Triethylamine
Chloroform	Water solutions of mineral salts
Kerosene	Water
Sulphuric acid	All mineral oils
Nitric acid	Animal oils
Hydrochlorid acid (up to 20%)	

* These substances cause temporary dilatancy of the drain cover, but do not demerge it.

Product code	Product name	Dimensions	Weight	Packing
OKR9090	Reusable drain cover	91 x 91 x 1,3 cm	13,5 kg	1 pc
OKR122	Reusable drain cover	122 x 122 x 1,3 cm	24,0 kg	1 pc

How to fill the barriers from a gas pressure cylinder

Connect a gas pressure cylinder (LVH0071) to reduction valve (LVH0071A – 200 bar, LVH0071A 300 – 300 bar). Connect the reduction valve (LVH0071A – 200 bar, LVH0071A 300 – 300 bar) to the hose with quick couplings (LVH0071B) and the hose link with a safety and control valve (LVH0071C). Safety and control valve (LVH0071C) and canalization barrier (KUV) are connected through a hose with couplings (LVH0071D).

D – delivery time on agreement

Product code	Product name	Dimensions	Packing	D
LVH0071	Gas pressure cylinder 7 l with discharge valve		1 pc	D
LVH0071A	Reduction valve 15/08 MPa		1 pc	D
LVH0071A300	Reduction valve 300 Bar		1 pc	D
LVH0071B	Hose with quick couplings	3 m	1 pc	D
LVH0071C	Safety and control valve 150 kPa		1 pc	D
LVH0071C250	Safety and control valve 250 kPa		1 pc	D
LVH0071C70	Safety and control valve 70 kPa		1 pc	D
LVH0071D	Hose with couplings	5 m	1 pc	D
LVH0071E	Reduction gear (quick coupling – auto head)		1 pc	D

Canalization barriers for various pipeline diameters – resistant to water, lyes and diluted acids

Pipeline canalization barrier is used for quick and reliable sealing or closing of drains, pipelines, sewers and inlets. Barriers are mainly used during repair works, maintenance, accidents and leak-proof tests of new and improved pipelines in accordance with the Czech Norm 756909. Therefore they are highly valued in the water management organizations, building industry, rescuers and fire brigades.

- Pipeline canalization barriers are manufactured from high-quality rubber reinforced with fabric. They withstand weather effects, temperature from -30 °C to 80 °C, industrial and waste water
- All barriers are tested by 1,3 multiple of operating pressure

Canalization barriers – short

Short barriers are suitable for sealing of canalization connections. They are also used for pipeline leak-proof tests. They are manufactured from high quality rubber and metal parts are manufactured from anticorrosive materials. Manipulation is comfortable even at poorly accessible places.

KUVPUK

Canalization barriers with high flow

The barriers with high flow drain away higher flow of water. The flow is ensured by metal middle tube manufactured from stainless steel. Rubber-textile tube is fitted on the middle tube with high diameter and can be replaced in case of damage.

High pressure canalization barriers

High-pressure canalization barriers seal high pressure of collected water. Higher operating pressure is ensured by kevlar reinforcement. The barriers retain water column up to 30 m high.

Pillow canalization barriers

The barriers are mainly used in sewage pipes and rain canalization. The construction enables placing this barrier into the canalization through a collier. Kevlar reinforcement enables the construction of the pillow barriers of high diameters – from 1000 mm up to 2200 mm.

Sealing bags for conical pipeline

1. Resistance to chemicals and aging

These bags are made of high quality materials – pure chloroprene rubber reinforced with Kevlar fabric. This is the reason for good resistance to chemicals and high resistance to aging.

2. Easy to repair

When damage occurs during manipulation or inside pipe it can be easily repaired. One repair on 100mm of bag dimension is permitted. This means e.g. bag for pipe DN 1400mm can be repaired 14 times.

3. Low weight

Low weight of these bags makes manipulation easier. Another advantage is that in empty stage can be put together into small size. In this stage can be put into pipe of inside diameter 600 mm.

4. Seals all profiles

These bags can seal circular, oval, trapezoidal, mouth shaped, rectangular etc. profiles.

Sealing bag – mini KUVM10

Range of sealed diameters: 100 - 150 mm
 Operating overpressure: 0,15 MPa
 Test pressure: 0,2 MPa
 Sealed back pressure: 0,05 MPa
 Cylinder diameter: 90 mm
 Cylinder length: 120 mm
 Weight: 0,5 kg

Sealing bags for cracks and sealing plugs

The bags are used for quick sealing of cracks in tanks, cisterns, drums and pipelines. The sealing bags for cracks are fastened to the surface by means of fastening straps. If the crack / hole is large or it is necessary to seal aggressive liquid leak the sealing board is put under the bag. The sealing plugs seal small cracks or holes very quickly.

Accessories:

LVH0071G	Fastening strap 5 m
LVH0071H	Fastening strap 10 m
LVH0071K	Sealing board 230 x 230 mm
LVH0071L	Sealing board 300 x 500 mm
LVH0071F	Hose with nipples – 10 m
LVH0071C	Safety and control valve 0,15 MPa V 1,5
LVH0071N	Extender for sealing wedge 500 mm

Lifting bags KUVZP

The lifting bags are manufactured from high-quality rubber and kevlar fibre. They enable to remove heavy weights during natural disasters, rescue persons during car and rail accidents, assembly of heavy machinery and replacement of tyres. They help to split and push away stones. They are used at the airports, by fire brigades and army. Basic version consists of 5 types with the lifting power 3 – 30 tons.

Kits for pipe repair BP52, BP85

- Contents – sticky putty, bandage, gloves
- Excellent permanent pipe repair
- Easy preparation for use
- Repair is finished in 30 minutes
- When cured contains pressure up to 20 bars
- Resistant up to 480 °C
- Works excellently on steel pipes, cooper, PVC, aluminium and glass fibre

BRAND NEW

Sealing means

**Pressure rubber pipe wraps – leak stoppers TGB002 and TGB003**

Heat reinforced and oil resistant rubber strip terminated with dry-zips.

Features and advantages:

- Instant emergency leak stopper designed for all pipework systems. It simply wraps over the leak giving an instant repair in emergency situation
- Simple repairs of holes and chinks in pipelines
- Suitable for any type of pipe, can be used even under pressure, performs immediately
- Reusable

Product code	Product name	Dimensions	Weight	Packing
BP52	Quick pipe wrap	5 x 150 cm	0,10 kg	1 pc
BP85	Quick pipe wrap	7,5 x 275 cm	0,20 kg	1 pc
TGB002	Pressure rubber pipe wrap	4 x 120 cm (+/- 10 %)	0,10 kg	1 pc
TGB003	Pressure rubber pipe wrap	5 x 130 cm (+/- 10 %)	0,15 kg	1 pc

Wooden sealing plug set DTK040

- Wooden sealing set with 40 plugs from pinewood designed for quick leak sealing in case of emergency situation

Plug

All plugs has the same length 300 mm and height 70 mm. They are off width (A).

5 pcs A = 200 mm

5 pcs A = 150 mm

5 pcs A = 100 mm

5 pcs A = 50 mm

Totally: 20 pcs

Cone

All cones have the same height 300 mm. They are off diameter. (B, A)

5 pcs B = 90 mm, A = 25 mm

5 pcs B = 60 mm, A = 10 mm

10 pcs B = 30 mm, A = 10 mm

Totally: 20 pcs

Wooden hammer PAL001

- For hammering of wooden plugs
- Steel reinforcing hoop
- Varnished wood
- Weight: 1 kg

Mallet

- Does not rebound after dropping – no reaction
- Head made from resistant plastic
- Laminated handle
- Ergonomic

Leak collecting foil ZZF001

- For collecting and draining of rain water and operating liquids, air-conditioning etc.
- Firm and chemically resistant foil
- Easy mounting
- Possibility of hanging and standing
- 5 m long hose
- Size: 100 x 100 cm

Packing content: foil, 8 pcs steel rods, 4 pcs corners, 4 pcs PP hanging ropes 4 m, hose 5 m, pack

Water resistant putty stick

Sealing granules SG05

Granulated mixture in plastic kit. Add water and mix the granules and water together to create a sealing paste.

Features and advantages:

- Immediate sealing of holes or chinks in metal, ceramics and some plastic tanks and armatures with ecologically hazardous liquids
- Sealing of pipes, drains, oil and water tanks
- It is possible to strew the granules and create barriers for spill localization
- Designed for temporary repairs within 48 hours

GOOD PRICE

Sealing paste PU05

Pasty mixture in plastic kit.

- High adherence to any surfaces even untreated (dirty, ferrous, mechanically damaged surfaces, oily surfaces, sharp edged surfaces)
- Possible to apply on leaking surface
- Paste is non-toxic, unobjectionable from the point of health and inflammable
- Designed only for temporary repairs within approximately 48 hours – temporarily stops leak

Water resistant putty stick REO ATTACK

REO ATTACK is plastic-elastic putty stick with high resistance to aging. It adheres much better than common silicate putties to most materials used in the industry and building industry (galvanized steel sheet, PVC, steel, asphalt materials, bricks, mortar, glass etc.). The putty adheres even to wet non-porous surfaces and harden even in water. The putty stick has high water resistance, resistance to detergents and common chemicals.

The surface of applied putty dries out already after 30 seconds (can be painted) and during next 3 weeks is still plastic.

After complete dry-out it is still elastic. It can be used as a sealing of small flexible joints.

Specifications:

Colour	transparent
Type	plastic-elastic
Density	0,97 – 1,09 g/cm ³
Consistency	paste
Temperature resistance	from -20°C to +75°C
Precipitation during vulcanization	+/- 15%
Hardening time	within 3 weeks
Processing time	from +5°C to +30°C

Application:

- Repairs of roofing, water pipelines, eaves moulding
- Sealing of PVC pipes
- Repairs of cracks in wooden products
- Repair of old and producing of new water resistant joints
- Compression pistol included

Product code	Product name	Packing	Weight
VRA310	Water resistant putty stick REO ATTACK	310 ml	0,30 kg
TPT310	Pressure pistol for VRA310		0,42 kg
SG05	Dry granules		0,50 kg
PU05	Sealing paste		0,50 kg

- Barriers
- Portable traffic signs
- Industrial tapes
- Marking tapes
- Anti-slip tapes
- Photoluminescent edges
- Photoluminescent signs
- Photoluminescent tapes
- Markers

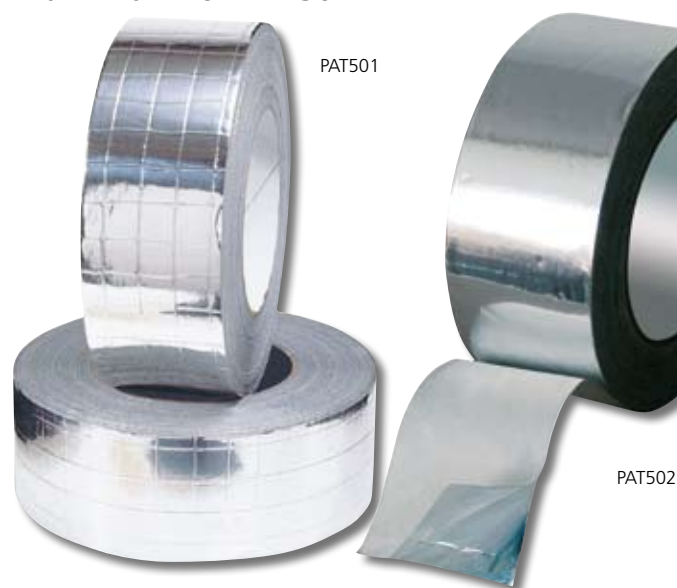

High-quality tapes
for wide range
of application

Products for prevention and removal of the environmental accidents,
for safe and clean workplace

Heavy duty tapes

Reinforced aluminium foil PAT501 Aluminium foil PAT502

**Application:****PAT501**

- Sealing joints on metal ducting
- Vapour barrier
- Joining foil faced insulation panels and pipe sections

PAT502

- Sealing double glazing units
- Heat reflection and screening on electronic equipment
- Joining foil faced, glass fibre or rockwool
- Sealing metal or plastic ducting, cladding or foil faced panels
- Sealing cold store insulation and casing refrigerated containers

Technical specifications:

- Flame retardant
- Good high temperature resistance
- Easy unwind
- Backed with a strong polythene coated release paper, which prevents sticking
- Water resistant
- Service temperature: from -20 °C to +110 °C
- Application temperature: from 0 °C to +40 °C

PAT501

- Thickness: 0,12 mm
- Breaking load: 60 N/cm
- Elongation: 5%
- Adhesion to steel: 4,6 N/cm
- Scrim reinforced 120 micron aluminium foil and kraft paper laminate coated on the kraft side with acrylic adhesive

PAT502

- Thickness: 0,07 mm
- Breaking load: 12 N/cm
- Elongation: 5%
- Adhesion to steel: 3,6 N/cm
- 30 micron aluminium foil tape
- Aggressive adhesive
- Smooth finish

PVC extra heavy duty pipe wrap tape PAT20

**Application:**

- Pipe wrap
- Corrosion and abrasion protection for under or above ground pipe work
- Prolongs pipe work life span and helps reduce frequent maintenance

Technical specifications:

- Heavy duty PVC film coated with a clear anti-corrosive adhesive
- High adhesion to metal surfaces
- Flame retardant, self-extinguishing (will not start or spread fire)
- High pigment content gives excellent UV resistance and no colour fade during stretch
- Cross link adhesive increases resistance against oil, solvent, temperature and moisture
- Corrosion and abrasion protection for under or above ground pipe work
- Conformable to awkward shapes
- Thickness: 0,44 mm
- Breaking load: 90 N/cm
- Elongation: 200%
- Adhesion to steel: 3,0 N/cm
- Adhesion to self: 2,6 N/cm
- Service temperature: from -5 °C to +80 °C
- Application temperature: from +5 °C to +40 °C

Product code	Product name	Colour	Dimensions	Packing
PAT501	Reinforced aluminium foil	silver	50 mm x 45 m	1 pc
PAT502	Aluminium foil	silver	50 mm x 45 m	1 pc
PAT20	PVC extra heavy duty pipe wrap tape	black	75 mm x 33 m	1 pc

Textile tapes

General purpose polycoated cloth tape PAT175

Application:

- Industry, household, garden and hobby
- Bag closure on removal of contaminated waste
- Sealing of metal and plastic ducting
- Tank tape (for long lasting use, no corrosion on metal)
- Heavy duty protection of metals
- Masking on metal or concrete surfaces
- Bundling in the electrical industry
- Permanent polythene joining
- Carpet edging and joining tape
- Carton sealing

Technical specifications:

- Easy tear and easy unwind
 - Non corrosive adhesive
 - Knitted fabric gives conformabilities and sealing properties
 - Adheres to concrete, metal, wood, textile, glass and rubber
 - Thickness: 0,23 mm
 - Breaking load: 32 N/cm
 - Elongation: 14%
 - Adhesion to steel: 5,5 N/cm
 - Adhesion to self: 3,5 N/cm
 - Service temperature: from -50 °C to +80 °C
 - Application temperature: from +10 °C to +45 °C
 - Storage temperature: from +10 °C to +25 °C
- Please, specify colour when ordering.

Water proof cloth tape PAT160 Sealing cloth tape PAT163

Application:

PAT160

- Construction – joining wall boards
- Splicing and joining in manufacturing process when a water-proof tape is required
- Book and spine binding

PAT163

- Joining polyethylene sheeting
- Protection of inflatable polyethylene constructions
- Metal or plastic duct sealing, also suitable for air duct sealing
- Heavy duty insulation

Technical specifications:

- Polythene coated fabric with good abrasion resistance
- Non corrosive adhesive
- Thickness: PAT160 0,33 mm, PAT165 0,30 mm
- Breaking load: PAT160 85 N/cm, PAT162 80 N/cm
- Elongation: 8%
- Adhesions to steel: PAT160 4,0 N/cm, PAT163 3,0 N/cm
- Adhesions to self: PAT160 2,2 N/cm, PAT163 3,0 N/cm
- Service temperature PAT160: from -50 °C to +80 °C
- Service temperature PAT163: from -50 °C to +110 °C
- Application temperature PAT160: from +10 °C to +45 °C
- Application temperature PAT163: from +5 °C to +45 °C

Tape cutter NZO001

- Nip off blade – 7 parts
- Ergonomic rubbered handle
- Metal guide rail
- Two replacement blades
- Firm and durable detent metal blade mechanism
- Slot for nip off of blunt blades

Product code	Product name	Colour	Dimensions	Packing
PAT175	General purpose polycoated cloth tape	blue, yellow, red, silver, white, black	50 mm x 50 m	1 pc
PAT160R	Water proof cloth tape	red	50 mm x 50 m	1 pc
PAT160B	Water proof cloth tape	black	50 mm x 50 m	1 pc
PAT163	Sealing cloth tape	silver	50 mm x 50 m	1 pc
NZO001	Tape cutter			1 pc

Insulation tapes

PVC electrical insulation tape set PAT7

Application:

- Wrapping of automotive and electrical cables
- Light duty pipe wrapping
- Colour coding
- Prevention of electrolytic corrosion
- Electrical insulation of cables
- Sealing of barrels and containers with lid
- Rope end sealing

Technical specifications:

- Flame retardant • Conformable to awkward shapes
- Non-corrosive adhesive • Easy tear and easy unwind
- Water resistant • UV resistant • Good abrasion resistance
- Thickness: 0,13 mm • Breaking load: 26 N/cm • Elongation: 180% • Adhesion to steel: 2,4 N/cm • Adhesion to self: 2,1 N/cm • Service temperature: from -5 °C to +70 °C • Application temperature: from 0 °C to +40 °C • Dimensions: 15 mm x 10 m, 10 pcs per packing • Colours: different colours for colour coding

Orange PVC building tape PAT6000

Application:

- Protection of door and window frames during plastering, painting, rendering and transporting to site
- Joining protection sheets
- Temporary bundling of timber, metal, UPVC and other building materials. Sealing of bags and pallet wrapping to protect from elements

Technical specifications:

- Very easy unwind • Can be unwound from the roll without stretching the tape • Flexible • Conformable to awkward shapes • Water resistant • High performance in adverse weather conditions • UV resistant • Good adhesion to a variety of surfaces including glass, metal, polyethylene and wood
- Clean peel • Can be used indoors and outdoors
- Thickness: 0,11 mm • Breaking load: 20 N/cm • Elongation: 120% • Adhesion to steel: 1,6 N/cm • Adhesion to self: 0,6 N/cm • Service temperature: from -5 °C to +60 °C • Application temperature: from 0 °C to +40 °C • Dimensions: 50 mm x 33 m • Colour: orange

Masking adhesive tape PAT6102a – white PAT6102b – orange

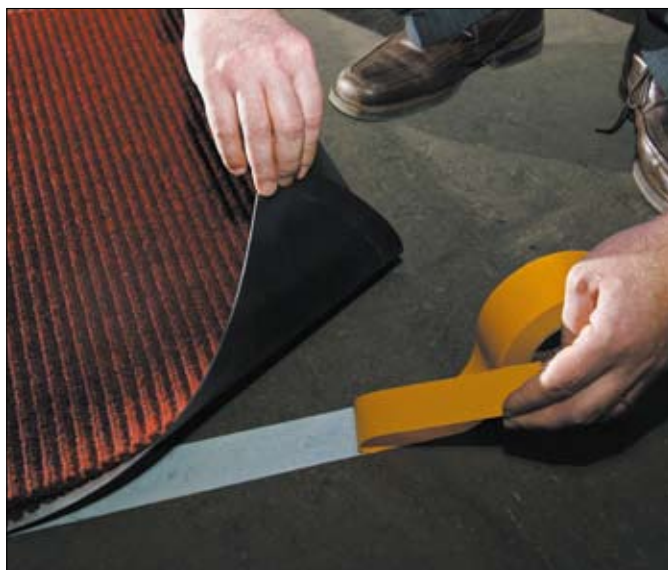

Application:

- Mainly outdoor masking tape, where humid and wet environment is and paper masking tape cannot be used
- Application in the building industry to cover door and window frames during building, decorating as well as shipbuilders

Technical specifications:

- PE tape • Easy tear – can be cut without knife • Can be removed cleanly for up to 8 weeks • UV resistant, can be used outside in the damp • Cold resistant, can be applied at very low temperatures (-40 °C) • Excellent tack, will adhere to a variety of surfaces including glass, metal, polythene • Non-corrosive adhesive • Thickness: 0,11 mm • Breaking load: 15 N/cm • Elongation: 200% • Adhesion to steel: 1,3 N/cm • Service temperature: from -40 °C to +60 °C • Application temperature: from 0 °C to +40 °C • Dimensions: 50 mm x 33 m • Colour: white, orange

Product code	Product name	Dimensions	Packing
PAT7	PVC electrical insulation tape set	15 mm x 10 m	10 pcs
PAT6000	Orange PVC building tape	50 mm x 33 m	1 pc
PAT6102a	Masking adhesive tape PAT6102a – white	50 mm x 33 m	1 pc
PAT6102b	Masking adhesive tape PAT6102a – orange	50 mm x 33 m	1 pc

Double-sided tape – non-woven PAT5696

Application:

- Permanent joining of flexible materials
- Fixing of lightweight subjects

Technical specifications:

- Good shearing strength
- Adhesions to steel: 15,5 N/25 mm
- Acryl non corrosive adhesive
- Thickness: 0,115 mm
- Dimensions: 50 mm x 25 m
- White colour

Polyethylene coated high grade cloth tape – army PAT53799

Application:

- Packaging • Masking of glossy surfaces
- Bundling • Closing, covering and fixing

Technical specifications:

- Polyethylene coated high grade cloth tape. Thickness: 0,31 mm
- Water repellent, abrasion resistant
- Very good adhesion, even on rough surfaces
- Adhesion to steel: 11,5 N/25 mm
- Natural rubber non corrosive adhesive
- Easy application without use of cutting tool
- Dimensions: 50 mm x 50 m
- Colour: olive green

High grade cloth tape PAT56341

Application:

- Packaging
- Wrapping – pipe protection
- Bundling
- Joining of textile and foil

Technical specifications:

- Rayon tape
- Workable
- Abrasion resistant
- Very good adhesion to various surfaces
- Adhesion to steel: 8,3 N/25 mm
- Acryl non corrosive adhesive
- Application temperature: 10 – 25 °C
- Thickness: 0,30 mm
- Dimensions: 19 mm x 2,75 m
- Colours: green, yellow, red, white, blue, grey, black

Please, specify colour when ordering.

Product code	Product name	Colour	Dimensions	Packing
PAT5696	Double-sided tape – non-woven	White	50 mm x 25 m	1 pc
PAT53799	Polyethylene coated high grade cloth tape – army tape	Olive green	50 mm x 50 m	1 pc
PAT56341	High grade cloth tape	green, yellow, red, white, blue, grey, black	19 mm x 2,75 m	1 pc

Double-sided tape – removable PAT55731

Application:

- Fitting of floor coverings
- Joining of lightweight subjects

Technical specifications:

- Fibre reinforced tape
- Adhesions to steel: 17,5 N/25 mm
- Rubber non corrosive adhesive
- Thickness: 0,39 mm
- Dimensions: 50 mm x 10 m
- White colour

Double sided cotton cloth tape PAT302

- Very high adhesion level • easy tear

Application:

- Permanent fitting of carpets and other floor coverings
- Ideal for securing metal to wood or metal to metal

Technical specifications:

- Thickness: 0,25 mm
- Breaking load: 22 N/cm
- Elongation: 4%
- Adhesion to steel: 20,0 N/cm
- Service temperature: from -10 °C to +50 °C
- Max. service temperature: +65 °C for a short time

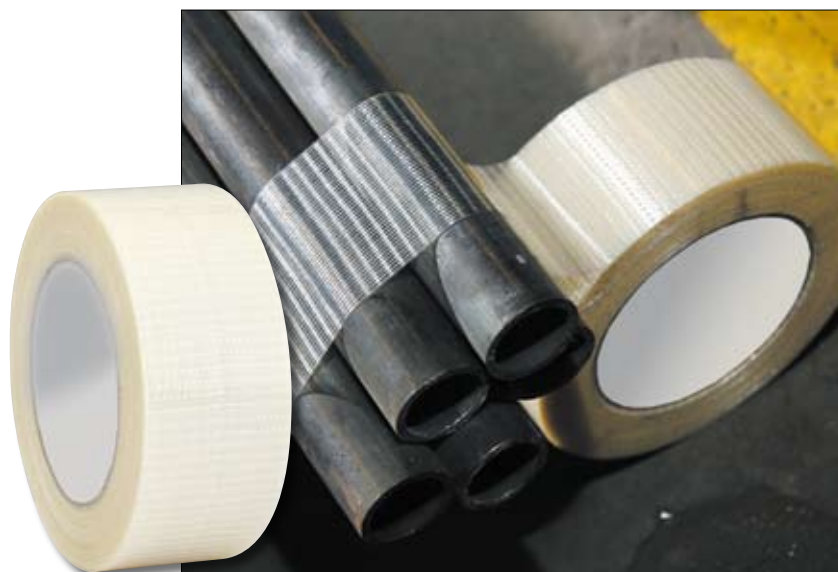

Two-side reinforced tape PAT4579

Application:

- Carton closing
- Bundling

Technical specifications:

- PP tape
- Glass reinforcing fibres
- Breaking load: 230 N/10 mm
- Adhesion to steel: 8 N/10 mm
- Elongation: 10% to tearing
- Non corrosive adhesive
- Thickness: 0,145 mm
- Dimensions: 50 mm x 50 m
- Transparent colour

Product code	Product name	Colour	Dimensions	Packing
PAT55731	Double-sided tape – removable	white	50 mm x 10 m	1 pc
PAT302	Double sided cotton cloth tape	transparent	50 mm x 50 m	1 pc
PAT4579	Two-side reinforced tape	transparent	50 mm x 50 m	1 pc

Marking tapes

Marking tapes PAT8, PAT8H, PAT10, PAT10H

Heavy duty splicing tape; Marking hazardous areas; General construction work; Cable colour coding; Demarcation of gangways within factories and warehouses; Demarcation of sports courts

**Width 5 cm
and 10 cm**

**Thickness:
0,14 mm**

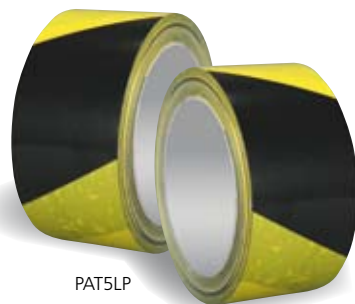

- Heavy duty plasticized PVC film coated with a white aggressive pressure sensitive adhesive
 - Very high adhesion – will stick to most surfaces
 - Should work on dusty and uneven surfaces
 - Low stretch PVC – no shrinkback of tape after application
 - Cross link adhesive, which increases resistance against oil, solvent, plasticizer, temperature and moisture
 - Water resistant; UV resistant; Non-corrosive adhesive
 - Suitable for machine and hand application
 - Service temperature: from 0 °C to +60 °C
 - Application temperature: from +5 °C to +40 °C
 - Colour PAT8, PAT10: white, yellow, blue, green, red, black
 - Colour PAT8H, PAT10H: black-yellow, red-white, green-white
- Tapes, which are stored below the minimal recommended temperature level, have to be warmed up to the application temperature before use.

Please, specify required colour when ordering.

Set of marking tapes PAT5LP (left / right)

- Marking of gateways and passages
- Not suitable for horizontal surfaces
- **Thickness: 0,035 mm – designed for low duty**
- Dimensions: 50 mm x 33 m
- Colour: black-yellow

Trolley for marking tapes application REO341

- Trolley for horizontal application of marking tapes
- Possibility to create curves
- Easy manipulation
- Exact tape application

GOOD PRICE

Marking tape – thick PAT5050, PAT10050

- Washable PVC tape
- Smooth surface
- Easy to clean
- Bevelled edges
- Easily withstand mechanical load
- Colours: yellow, red, white, black
- Dimensions: 50 mm x 50 m, **100 mm x 50 m**
- Thickness: 1,3 mm

Tough self-adhesive aisle marking tape to mark your aisles, walkways, warehouse lines, shipping areas and safety hazards throughout your facility. The advantage of the tape is that it is easy to install and maintain. Furthermore it is also removable without leaving residues for new configurations and lay-outs and is tough and durable. The tape can be used on eg. concrete, stone, tile, vinyl and metal floors. The smoother and cleaner floor – the better it adheres.

**Width 5 cm
and 10 cm**

REO341	Cart for marking tape application – 50 mm tape	53 x 37 x 78 cm	1 pc	D

Barrier tapes and chains

Printed barrier tapes on your request

- PE tape without adhesive
- Suitable for industry and for dangerous areas making
- Working temperature: -15 až 70 °C
- Tape is non-toxic and non-irritating for skin
- Material is health unobjectionable
- Minimal purchase quantity: 20 rolls
- One colored print, double colored print, triple colored print
- Roll – Width 75 mm or 150 mm, length 330 m

Barrier tape PAV8HAS

- Thickness: 0,07 mm
- Width: 75 mm
- Length: 330 m
- Polyethylene white printed tape

Marking chains PRET001

- One piece: 8 x 40 mm, diameter 5 mm
- 12 pieces – red, 12 pieces – white
- Length: 25 m
- Weight: 1,7 kg
- Material – plastic

Tape unwinder REO343

- Durable metal frame
- Integrated brake
- Suitable for tape 20 – 50 mm
- Cutting edge for tape detachment

Barrier tape PAV8CB

- Barrier tape ensures quick area boundary
- Dimensions: 7 cm x 500 m

Stand for barrier tape SPAV001

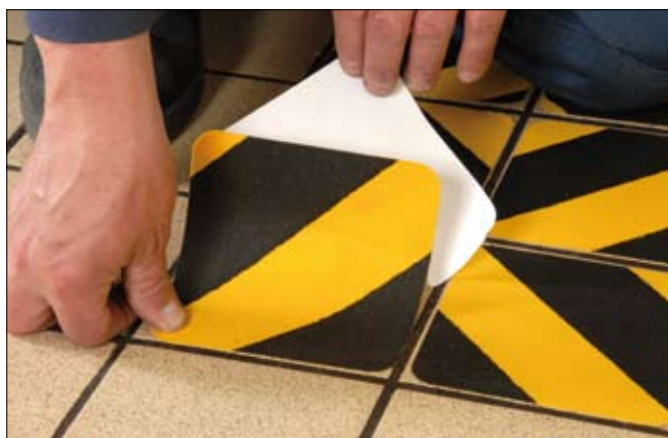

- Stable metal construction
- Demountable version – rod and base are connected by thread

D – delivery time on agreement

Product code	Product name	Dimensions	Packing	D
PAV8cb	Barrier tape red-white	70 mm x 500 m	1 pc	
SPAV001	Stand for barrier tape	Ø 20 cm – 80 cm	1 pc	
PAV8HAS	Barrier tape HASIČI	75 mm x 330 m	1 pc	D
PRET001	Marking chains	Ø 5 mm x 25 m	1 pc	
REO343	Tape unwinder		1 pc	

Antislip tapes

Antislip self-adhesive tiles

Tile is self-adhesive and minimizes slipping in slippery workplaces, on stairways, ramps etc. Antislip tiles has sharp grained surface which doesn't slip even while polluted with different kinds of lubricants. Indoor and outdoor use.

- Suitable for entrances or exits, for stairways, metal surfaces, ramps etc.
- Easy installation
- Resistant to chemicals and commonly accessible cleaners
- When used outdoor we recommend to use sealing glue for edges
- Working temperature from -20 °C to + 60 °C
- Packing 10 pcs

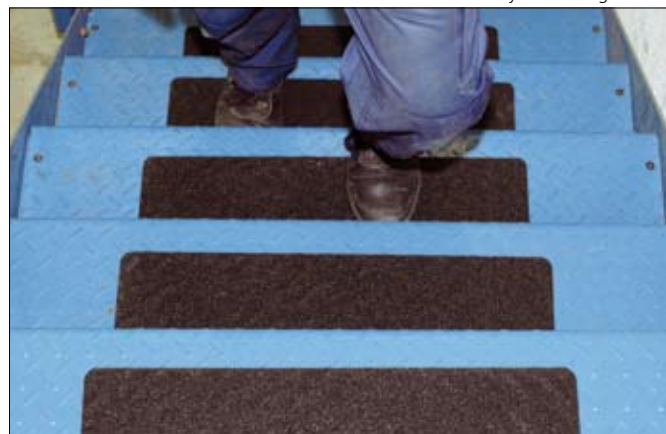

Antislip self-adhesive tiles standard – fine abrasive grain recommended for indoor use

Product code	Dimensions	Color	Packing
PP140200	140 mm x 140 mm	red	10 pcs
PP140100	140 mm x 140 mm	yellow	10 pcs
PP140600	140 mm x 140 mm	grey	10 pcs

Antislip tapes

Antislip tape

Made of aluminium-oxide-silicon-carbide abrasive loose adjoined to firm and resistant basis. It is water and oil resistant and is easy to apply. It is suitable for outdoor and indoor application.

Technical specifications:

- Thickness: 1,0 mm
- Breaking load: 40 N/cm
- Elongation: 100%
- Adhesion to steel: 4,0 N/cm
- Application temperature: from 0 °C to +60 °C
- Service temperature: from -18 °C to +80 °C

Suitable for: stairs, around machines, wet or slippery surfaces, scaffolding, ramps, ladders, footboards

PPC018

PPCZ018

PPZ018

Softened warning protective edges

- Higher safety at your workplace
- Reduction of injury risk
- Reduction of damage risk
- Wide range of profiles
- Easy installation
- Washable
- Polyurethane foam
- Self-adhesive profiles 1 m long
- Photoluminescent edges also available
- Temperature resistance: from -40 °C to +100 °C
- Colours: black, black-yellow, white-red, black-photoluminescent

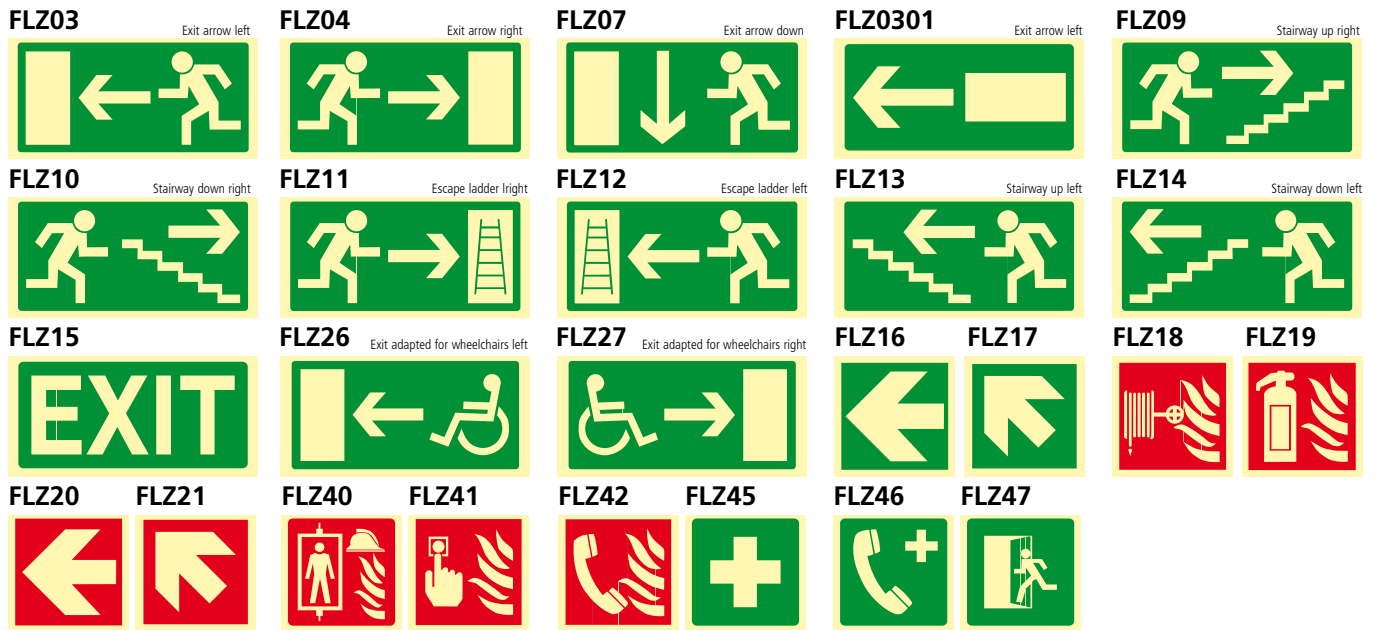

Profiles:

Product code	Product name	Profile	Colour	Dimensions	D
FOH001	Warning protective edge	1	black, black-yellow, white-red	Ø 40 x 1000 mm	D

Code	Description	Luminance (code)	Dimensions (cm)
FPD96H	white	B	100,0 x 3,0
FPD97H	white	B	100,0 x 6,0

Photoluminescent signs and tapes

Photoluminescent self-adhesive guide tape – aluminium

Code	Description	Luminance (code)	Dimensions (cm)
FPF12H	white	B	100,0 x 4,5
FPF32H	white	A	100,0 x 4,5
FPF34H	white	A	100,0 x 2,5

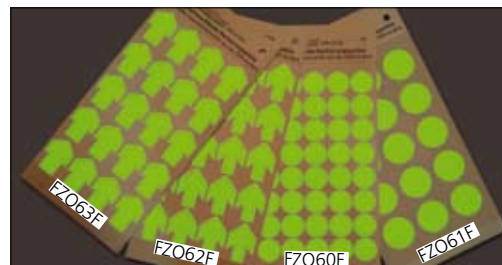

Photoluminescent self-adhesive sign – foot print – aluminium

Code	Description	Luminance (code)	Dimensions (cm)
FZOCHP	right	A	21,0 x 8,5
FZOCHL	left	A	21,0 x 8,5

Photoluminescent sign – guide signs on sheet – foil

Code	Description	Luminance (code)	Dimensions (cm)
FZO60F	round – 40 pcs	B	diameter 1,6
FZO61F	round – 15 pcs	B	diameter 2,5
FZO62F	thin arrow – 20 pcs	B	1,8 x 2,7
FZO63F	wider arrow – 20 pcs	B	1,8 x 2,7

Photoluminescent floor guide arrow – aluminium

Code	Description	Luminance (code)	Dimensions (cm)
FPOS70	round with guide arrow	A	diameter 9,5
FPOS71	round with guide arrow	A	diameter 12,5

Aluminium ledge for photoluminescent tapes wall instantiation

Code	Description	Dimensions (cm)
FPC81H	aluminium	5,1 x 300,0
FPC83H	aluminium	6,0 x 300,0
(FPC81H + FPC83H = one ledge)		

Photoluminescent aluminium pad under fire extinguisher

Code	Description	Luminance (code)	Dimensions (cm)
FPH25H	white	C	39,5 x 59,0
FPH26H	white	C	50,0 x 80,0
FPH27H	white	C	58,5 x 115,0

Luminance (code)	Luminance after 10 minutes (mcd/m²)
A	300
B	150
C	50

DIN67510 requires minimal luminance after 10 minutes 20 mcd/m².

Temporary spray marker

Temporary marker paint

- Specifically created for short term marking on walls, floors, asphalt, concrete, wood, grass and snow
- Dissolve a few weeks after application
- Easily removed by mechanical action (brushing or washing with jets of water), by weathering, or the transit of motor vehicles or pedestrians
- 500 ml
- Available in standard RAL colours and fluorescent colours

Standard colours

	RAL 1023 ZNC3295
	RAL 3020 ZNC3300
	RAL 5017 ZNC3305
	RAL 6029 ZNC3350
	RAL 9005 ZNC3290
	RAL 9010 ZNC3310

Fluorescent colours

	red ZNCF3315
	orange ZNCF3320
	yellow ZNCF3325
	green ZNCF3330
	fuchsine ZNCF3335
	blue ZNCF3340

Marker paint

- Spray paint for marking masonry, pavements, asphalt, cement and wood
- The product is highly resistant to wear and weathering
- Available in standard RAL colours and fluorescent colours
- The product can be used in all positions because it has a special 360° valve
- 500 ml

Standard colours

	RAL 1023 ZN2330
	RAL 3020 ZN2370
	RAL 5017 ZN2365
	RAL 6029 ZN2375
	RAL 9005 ZN2380
	RAL 9010 ZN2360

Fluorescent colours

	red ZNF2440
	orange ZNF2445
	yellow ZNF2385
	green ZNF2395
	fuchsine ZNF2390
	blue ZNF2435

Line marker paint

- Ideal for creating parking lot divisions, indicating danger zones, making areas visible such as zones for installing, excavating or performing maintenance procedures
- Very resistant to weather and chemical agents
- Available in standard RAL colours
- Can be used on many surfaces such as concrete, asphalt, glass, wood, synthetic materials
- 1500 ml version - suitable for hand applicator REO1190, application in horizontal or vertical position
- 750 ml version suitable for application trolley REO0520, application in vertical position
- Hi-precision strips between 6 and 12 cm wide can be achieved, depending on the setting
- 500 ml, 750 ml

Standard colours 500 ml

	RAL 1023 ZND0530
	RAL 3020 ZND0770
	RAL 5017 ZND0780
	RAL 6029 ZND0775
	RAL 9005 ZND0785
	RAL 9010 ZND0765

Tracing paint for building

- Special acrylic paint leaving a high large dry residue and high viscosity with opaque finish
- Will not penetrate even into the most absorbent surfaces such as masonry or similar materials
- Just a small amount of product leaves a clear mark
- Adheres well to any surface, drying almost instantly
- Efficiently used to trace and mark walls, floors, asphalt, concrete, etc.
- Highly resistant to weather agents and to wear

Application pistol REO3170

- Plastic
- For 400 ml bottles

Hand applicator REO1190

- Metal
- Bottle stay
- For 500 ml bottles

Paint and chewing gum remover ZNA001

- Gel consistence also for vertical surfaces
- Removes also chewing gum
- Efficient even on porous surfaces
- For removing can be used sorbent REOSTAR II

Line marker dispenser REO0520

- Metal
- Bottle holder
- Side guide

High gloss zinc ZNZ001

- Synthetic resin-based cold galvanizer with remarkable resistances thanks to micronised metal zinc and aluminium base used to give the right shade of colour
- Can also be used as a final finish or painted over
- Makes all metal surfaces treated resistant to atmospheric agents
- Dries rapidly, permitting the surface treated to be worked after just 5-10 minutes

Product code	Product name	Volume

ZNA001	Paint remover	5 l

Warning barrier

Warning barrier ZV001

- 2 m long barrier with clip-on hinge
- Height 1,2 m
- Weight 14,5 kg
- Swivel base legs
- Reflective white foil for good visibility in dark conditions
- Stable in windy condition
- UV resistant

ZV001

Retractable belt barrier with stand

- Black stand
- Retractable belt
- Colours: blue, red, black
- Weight: 9,6 kg
- Dimensions: 30 x 30 x 121 cm

Portable traffic signs ZNP002

- Pressed signs made from galvanized steel sheet
 - No entry, Traffic bottleneck, STOP, Road works
- Tripod – foldable construction made from galvanized profiles
- Stable in windy conditions
- Easy portable signs

Wet floor sign ZNP011

- Plastic cone with pictogram
- Remarkable colour
- Easy portable

BRAND NEW

Warning stand with changeable tabs ZNP012

- Stable plastic construction
- Folding
- Color: yellow
- Possible to mount tab A4 and 19,7 x 19,7 cm
- Handle for easy transportation

Safe storage according
to the regulations

- Steel spill containment pallets
- Plastic spill containment pallets
- Drum pumps
- Key boxes
- Strip curtains
- Mobile eco-stocks
- Washing tables and liquids

Products for prevention and removal of the environmental accidents,
for safe and clean workplace

Metal spill containment pallets with grate

Spill containment pallets with grate

- Manufactured from steel with resistant paint
- Portable with high-lift truck
- Strong enough to allow stacking the drums on the spill pallet
- Removable grate

Steel/poly spill containment pallet for 2 drums REO331

- Enhanced chemical resistance

Steel/poly spill containment pallet for 4 drums REO330

- Enhanced chemical resistance

At our metal workshop we can manufacture the spill containment pallets in special dimensions according to your requirements.

Metal spill pallets for two drums REO311N

- Strong and stable construction
- Galvanized grates
- Varnished finish
- Suitable for metal and plastic barrels

GOOD PRICE

Metal spill pallets for four drums REO310N

- Strong and stable construction, galvanized grates
- Varnished finish
- Suitable for metal and plastic barrels

GOOD PRICE

REO AMOS

Products for prevention and removal of the environmental accidents, for safe and clean workplace

Metal spill containment pallets with grate

Mobile steel spill containment pallet REO311K

- 2 swivel casters and 2 fixed wheels enable easy handling
- Removable handle

Mobile steel/poly spill containment pallet REO331K

- Spill pallet fits to go through the standard door width
- Removable plastic spill tank
- High chemical resistance of the tank

Mobile roll holder REO302

- Removable rod – handle
- 4 swivel casters, 2 wheels equipped with a brake
- Dimensions: 750 x 750 mm

Mobile spill truck with grate REO347

- Suitable for 1 drum
- Belt secures the drum against sliding
- Truck in antistatic finish

Product code	Product name	Dimensions	Max. load capacity	Weight	Capacity	Packing
REO311K	Mobile steel spill containment pallet	127 x 67 x 47 cm	450 kg	70,0 kg	200 l	1 pc

REO347A	Antistatic truck with grate for 1 drum	69,5 x 69 x 40 cm	250 kg	55,0 kg	110 l	1 pc

Metal spill containment pallets with grate

Spill containment pallet with grate REO318

- Capacity 400 l
- Practical for 4 drum placed side by side

Access ramp for spill containment pallets REO410

For easy access of mobile trucks with drums on the spill containment pallet

Product colour is subject to a change

- Adjustable height for the spill containment pallets REO310, 310N, 311, 311N, 330, 331
- Simple assemblage of individual components
- Lightweight, solid construction, non-corrosive
- Load capacity 350 kg

Anti-roll drum bar REO265

Anti-roll drum bar REO265 mounted on grate of the spill containment pallet

Covered spill containment pallet station with grate REO870

- Safe outdoor storage of flammable and non-flammable substances

Covered spill containment pallet station with grate REO871

- Safe outdoor storage of flammable and non-flammable substances
- Tilting lid

Product code	Product name	Dimensions	Max. load capacity	Weight	Capacity	Packing
REO318	Spill containment pallet with grate	250 x 80 x 30 cm	900 kg	142,0 kg	400 l	1 pc
REO410	Access ramp for spill containment pallets	230 x 70 x 45 cm	350 kg	55,5 kg		1 pc

REO871	Covered spill containment pallet station with grate	142 x 87 x 160 cm	450 kg	180,0 kg	220 l	1 pc
REO265	Anti-roll drum bar	40 x 10 x 6 cm		2,0 kg		1 pc

Metal spill containment pallets with grate

Low profile spill containment pallets with grate

- For stocks with frequent drum handling
- Easy drum handling thanks to the access ramp
- Unit assembly system – arbitrary large area can be built
- Galvanized metal grates
- Spill containment pallet allows high load of 3 000 kg/m²

We are able to manufacture the spill containment pallets according to your requirements.

For more information please write to trade@reoamos.cz

Particular spill pallets can be joined with the help of the attachment bars REO323

REO320 steel low profile spill containment pallet with grate – with the access ramp REO322, capacity 228 l

Steel spill containment pallet for 2 drums REO311

Decomposed spill containment pallet REO311

Steel spill containment pallet for 4 drums REO310

Product code	Product name	Dimensions	Max. load capacity	Weight	Capacity	Packing
REO320	Metal low profile spill containment pallet	200 x 100 x 12 cm	2000 kg	130,0 kg	228 l	1 pc
REO322	Access ramp, metal	125 x 101 x 12 cm	3000 kg	50,0 kg		1 pc
REO323	Attachment bar, metal	96 cm		1,0 kg		1 pc
REO311	Steel spill containment pallet for 2 drums	127 x 67 x 40 cm	550 kg	68,0 kg	200 l	1 pc
REO310	Steel spill containment pallet for 4 drums	128 x 128 x 28 cm	1000 kg	105,0 kg	250 l	1 pc

Metal spill containment pallets with grate

REO314

Metal IBC sump REO314

- Suitable for storage of 1000 l IBC container
- Various grate levels enable simple dispensing into smaller container
- Rugged construction, varnished
- Not suitable for collecting of liquids which can attack metal
- Galvanized grates

Metal IBC sump REO319
for 2 IBC containers

- Suitable for storage of 1000 l IBC container
- Rugged construction
- Galvanized grates

D – delivery time on agreement

Product code	Product name	Dimensions	Max. load capacity	Weight	Capacity	Packing	D
REO314	Metal IBC sump	120 x 150 x 93 cm	1 400 kg	190,0 kg	1 078 l	1 pc	D
REO319	Metal IBC sump for 2 IBC containers	253 x 127 x 35 cm	2 400 kg	290,0 kg	1 060 l	1 pc	D

Metal spill tanks

Metal spill tank REO230V

Varnished:

- Solid steel construction
- Easy portable

Spill tanks for use under vehicles

We can also manufacture metal spill tanks for the use under vehicles or other potential spill sources. Dimensions and colour according to your request or without surface finish.

Atypical metal spill tanks manufactured according to the customer's requirements.

Based on your requirement we can manufacture special metal spill tank.

Product code	Product name	Dimensions	Max. load capacity	Weight	Capacity	Packing	D
REO230V	Metal spill tank	120 x 116 x 16 cm	500 kg	52,0 kg	220 l	1 pc	D
REO230VN	Metal spill tank	120 x 116 x 16 cm	500 kg	34,6 kg	220 l	1 pc	D

D – delivery time on agreement

Low profile plastic spill pallets with grate

Plastic spill trays

- High chemical resistance
- Plastic grates
- Stable shape
- Easy cleaning

Plastic spill tray VZP008

Capacity 8 l
70 x 600 x 400 mm

Plastic spill tray VZP020

Capacity 20 l
135 x 540 x 450 mm

Plastic spill tray VZP018

Capacity 18 l
155 x 418 x 418 mm

Plastic spill tray VZP030

Capacity 30 l
155 x 420 x 618 mm

Low profile plastic spill containment pallets with grate for two or four drums

- Polyethylene low profile spill pallets for 2 or 4 barrels
- Removable grate

High
chemical
resistance

REO352 with the access ramp
REO353, capacity 81 l

REO354 plastic low profile spill containment pallet with grate – with the access ramp
REO353, capacity 200 l

D – delivery time on agreement

Product code	Product name	Dimensions	Max. load capacity	Weight	Capacity	Packing	D
VZP008	Plastic spill tray	70 x 600 x 400 mm		1,8 kg	8 l		D
VZP020	Plastic spill tray	135 x 540 x 450 mm		2,6 kg	20 l		D
VZP018	Plastic spill tray	155 x 418 x 418 mm		2,8 kg	18 l		D
VZP030	Plastic spill tray	155 x 420 x 618 mm		3,8 kg	30 l		D
REO352	Plastic low profile spill containment pallet for 2 drums	1245 x 625 x 115 mm	400 kg	13,5 kg	81 l	1 pc	D
REO354	Plastic low profile spill containment pallet for 4 drums	1245 x 1245 x 115 mm	1000 kg	24,5 kg	200 l	1 pc	D
REO353	Access ramp, plastic	770 x 590 x 115 mm	250 kg	7,0 kg		1 pc	D

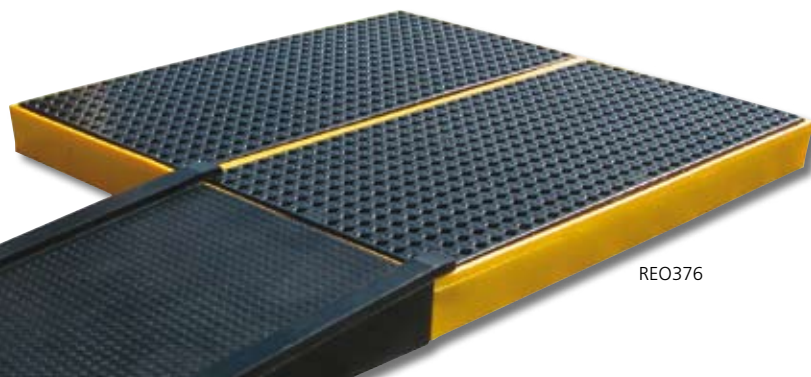

Workfloor

Workfloor REO376, REO377

- PE workfloors for 2 or 4 drums
- Can be used for static spill containment and as liquid dispensing area
- Units can be joined together to provide larger workfloors
- Strong
- Removable PE grate
- Slip resistant texture on grate
- High chemical resistance

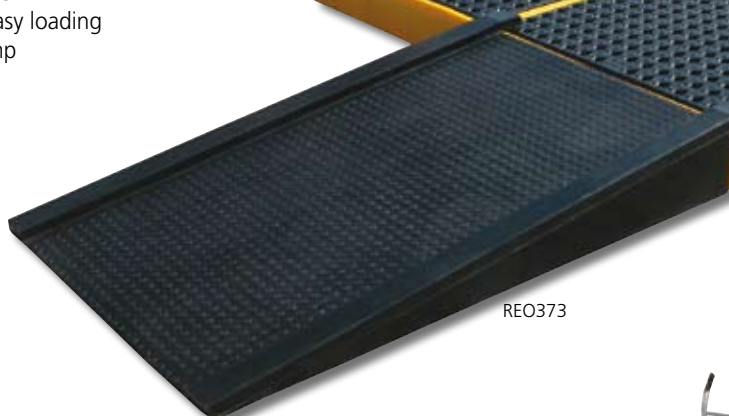

REO377

REO376

Access ramp REO373

- Heavy duty PE access ramp locks onto workfloor with integrated locating pins
- User friendly gradient for easy loading
- Slip resistant texture on ramp

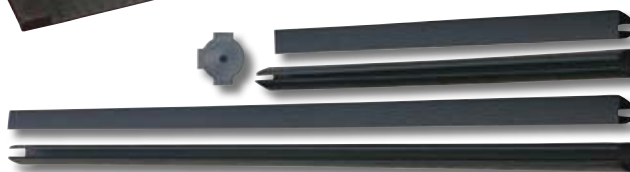

REO373

Joining strips – set REO375

- Set composition – short and long strip, cross

Product code	Product name	Dimensions	Max. load capacity	Weight	Capacity	Packing	D
REO377	Workfloor for 2 drums	L 160 x W 80 x H 15 cm	1350 kg	24,0 kg	120 l	1 pc	D
REO376	Workfloor for 4 drums	L 160 x W 160 x H 15 cm	2700 kg	45,0 kg	240 l	1 pc	D
REO373	Access ramp	L 129 x W 81 x H 18 cm	300 kg	15,0 kg		1 pc	D
REO375	Joining strips					1 pc	D

D – delivery time on agreement

Plastic spill pallets with grate

Spill pallet for two drums REO370

- Removable grate
- For static spill containment
- Remove drums before fork lifting
- 100% polyethylene
- High chemical resistance

REO370

Spill pallet for four drums REO374

- Removable grate
- For static spill containment
- 100% polyethylene
- Remove drums before fork lifting
- High chemical resistance
- High loading capacity

REO374

Strong and
lightweight
plastic grate

Spill pallet for use with EUR pallet REO358

- Spill pallet without grate
- Spill pallet designed for use with pallet 1200 x 800 mm
- Chemically resistant plastic
- Stable construction

GOOD PRICE

Cover for spill pallets for 2 and 4 drums

- Spill pallet protection from climatic influences in outdoor areas
- Easy assembly by one person with minimal tools
- Lockable
- Ability to be bolted to the ground
- Stable damage resistant construction
- 100% polyethylene
- High chemical resistance
- Access via flexible sliding shutters
- Document holder on both sides
- Price without spill pallets

REO370K

BRAND NEW

REO370 + REO370K

D – delivery time on agreement

Product code	Product name	Dimensions	Max. load capacity	Weight	Capacity	Packing	D
REO370	Spill pallet for two drums	130 x 75 x 40 cm	1350 kg	20,0 kg	250 l	1 pc	D
REO374	Spill pallet for four drums	138 x 129 x 28 cm	2700 kg	30,0 kg	250 l	1 pc	D
REO358	Spill pallet for use with EUR pallet	131 x 91 x 38 cm	400 kg	19,0 kg	240 l	1 pc	D

REO374K	Cover for spill pallets for 4 drums	156,5 x 162 x 211 cm		129,0 kg		1 pc	D

REO AMOS

Products for prevention and removal of the environmental accidents, for safe and clean workplace

Plastic spill pallets with deck

Plastic IBC sump REO355

- Solid construction
- Suitable for the storage of 1000 l container with highly aggressive liquids
- All-plastic pallet with deck, easy washable
- Low weight, easy handling
- Suitable for the use in the food industry
- It is suitable to use the plastic spill containment pallet REO352 for the spill control when tapping

REO355

REO352

Supporting cross REO355KP

- For use with REO355
- Welded polypropylene boards
- Set in the spill pallet axle
- Increases load capacity of the spill pallet to 2 tons
- High chemical resistance

D – delivery time on agreement

Product code	Product name	Dimensions	Max. load capacity	Weight	Capacity	Packing	D
REO355	Plastic IBC sump	90 x 129 x 129 cm	1600 kg	83,0 kg	1 200 l	1 pc	D
REO352	Plastic low profile spill containment pallet for 2 drums	62 x 123 x 12 cm	400 kg	13,5 kg	81 l	1 pc	D
REO355KP	Supporting cross	40 x 40 x 84 cm		10,0 kg		1 pc	D
REO350	Plastic spill containment pallet with grate for 2 drums	126 x 70 x 59 cm	450 kg	28,5 kg	290 l	1 pc	D
REO351	Plastic spill containment pallet with grate for 4 drums	124 x 124 x 52 cm	900 kg	49,0 kg	400 l	1 pc	D

Plastic spill containment pallet with deck for 2 drums REO350

- Solid construction
- Easy handling
- Resists mechanical damages
- Possible to use in places with high risk of corrosion
- Stable shape
- High chemical resistance

Plastic spill containment pallet with deck for 4 drums REO351

- Solid construction
- Easy handling
- Resists mechanical damages
- Possible to use in places with high risk of corrosion
- Stable shape
- High chemical resistance

Plastic spill pallets with grate

Large plastic spill containment pallet
REO356

- Chemically resistant plastic
- Spill pallet with grate
- Handling with fork-lift truck possible
- Suitable for barrels and also for IBC container

Receptacle for IBC container
REO355SM

- Accessory for REO355
- Chemically resistant tough plastic
- Suitable for a spill control when tapping from IBC container

Spill sump for 2 IBC containers REO357

- Spill sump with grate
- Compatible with most forklifts and pallet trucks
- Chemically resistant plastic
- Also suitable for drums

D – delivery time on agreement

Product code	Product name	Dimensions	Max. load capacity	Capacity	Packing	D
REO356	Large plastic spill containment pallet	1740 x 1450 x 600 mm	1400 kg	1 000 l	1 pc	D
REO355SM	Receptacle for IBC container	630 x 575 x 475 mm	50 kg	50 l	1 pc	D
REO357	Spill sump for 2 IBC containers	2500 x 1290 x 490 mm	2000 kg	1 050 l	1 pc	D

Plastic spill pallets

Spill pallet with deck for 2 IBC containers REO372

- PE – 100% recyclable
- Easy to maintain and clean
- Handling with forklift or pallet trolley
- Solid construction

Stand for descriptions SNP001

- Stable and firm varnished construction
- Hinged fixing edges
- Rounded corners
- Size A3
- Dimensions: 110 x 45 cm
- Weight: 4,20 kg

BRAND NEW

Sump for IBC container REO3710

- Made from polyethylene – 100% recycled
- Can be used with or without grate
- Grate comes with central support
- Firm construction, ergonomic shape
- Empty sump can be transported by forklift or pallet trolley

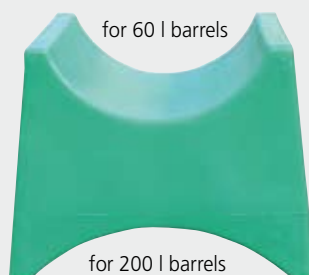

Product code	Product name	Dimensions	Max. load capacity	Weight	Capacity	Packing	D
REO372	Spill pallet with grate for 2 IBC containers	2450 x 1450 x 575 mm	2400 kg	120,0 kg	1100 l	1 pc	D
REO3710	Sump for IBC container without grate	2000 x 1490 x 765 mm	1600 kg	75,0 kg	1100 l	1 pc	D
REO3710R	Sump for IBC container with grate	2000 x 1490 x 765 mm	1600 kg	105,0 kg	1100 l	1 pc	D
SNP001	Stand for descriptions	1100 x 450 mm		4,2 kg		1 pc	D

D – delivery time on agreement

Drum rack base

Plastic base for barrels REO359

- Support base for barrels when tapping
- Chemically resistant plastic
- Designed for 200 l and 60 l barrels
- Stable construction
- Washable
- 390 x 500 x 390 mm

Spill pallet REO3510

- Capacity 35 l

Sump with grate for IBC container REO255

- Determinate for containers and drums with oils or chemical substances in plants, agricultural companies, stocks, depots, workshops, harbors etc.
- Suitable for storing almost all hazardous substances, corroding medium resistant
- Helps to avoid environmental damages in case of spills
- Detachable grate helps in comfortable emptying and cleaning
- Suitable for long term stocking, possible to use as spill control during manipulation with content of container
- Dimensions (l x w x h): 1620 x 1165 x 810 mm
- Bearing: 1200kg
- Weight: 85 kg

BRAND NEW

Drum trolley REO379

- Made from PE – 100% recyclable
- Sump capacity 250 l
- Easy to handle due to well balanced design
- Barrel secured with a ratchet strap
- Ideal as a mobile dispensing unit and sump
- Easy to clean
- 2-foot hole positions for comfortable pull down and handling
- High chemical resistance

Drum rack base REO378 and drum rack REO375

- Made from PE
- High chemical resistance
- Ideal for easy dispensing and storage
- Drum rack – max. stack of 2 (4 drums total)
- Compatible with most forklifts

D – delivery time on agreement

Product code	Product name	Dimensions	Max. load capacity	Weight	Capacity	Packing	D
REO359	Plastic base for barrels	39 x 50 x 39 cm	120 kg	8 kg		1 pc	D
REO3510	Spill pallet	71 x 67 x 11,5 cm	400 kg	11 kg	35 l	1 pc	D
REO255	Sump with grate for IBC container	162 x 116,5 x 81 cm	1200 kg	85 kg		1 pc	D
REO375	Drum rack	137,5 x 94 x 39 cm	1350 kg	15 kg		1 pc	D

REO379	Drum trolley	174 x 81,5 x 65 cm	300 kg	42 kg	250 l	1 pc	D

Plastic pallet

Plastic pallet PLT001

- Plastic pallet with perforated deck
- Raised edge
- 3 skids
- Dimensions: 1200 x 800 x 160 mm
- Load capacity static: 7500 kg
- Load capacity dynamic: 1250 kg
- Weight: 15,5 kg
- Colour: multicolour
- Temperature resistance: 0 °C to +20 °C

Plastic pallet PLT002

- Plastic pallet with perforated deck
- 9 feet
- Dimensions: 1200 x 800 x 155 mm
- Load capacity static: 2500 kg
- Load capacity dynamic: 1000 kg
- Weight: 6,6 kg
- Colour: multicolour
- Temperature resistance: 0 °C to +20 °C

Plastic pallet PLT003

- Plastic pallet with perforated deck
- 3 skids
- Dimensions: 1200 x 800 x 145 mm
- Load capacity static: 3500 kg
- Load capacity dynamic: 750 kg
- Weight: 11 kg
- Colour: multicolour
- Temperature resistance: 0°C to +40°C

Plastic pallet PLT004

- Plastic pallet with closed deck
- Raised edge
- 3 skids
- Dimensions: 1200 x 800 x 150 mm
- Load capacity static: 4500 kg
- Load capacity dynamic: 1250 kg
- Weight: 23 kg
- Colour: black
- Temperature resistance: -20°C to +40°C

Plastic europallet PLT005

- Hygienically non harming pallet with long lifetime a high firmness, suitable for food factories.
- Can be used for storing in racks, easy washable.
- Material: recycled mixture of plastic
- Dimensions: 1200 x 800 x 150mm
- Weight: 26 kg
- Color: green-grey
- Static bearing: 10 000 kg
- Dynamic bearing: 1000 kg
- Bearing in rack: 600 kg

D – delivery time on agreement

Plastic spill trays

- Plastic spill trays resist heavy mechanical stress
- Low weight, easy handling
- Resistant to acids and lyes
- Can be used in the environment with extreme corrosion risk
- Multipurpose application

REO330V

REO331V

REO100V

Low profile spill tray REO365

- Plastic spill trays resist heavy mechanical stress
- Low weight, easy handling
- Resistant to acids and lyes
- Tray construction prevents from overturning even when one side loaded
- Suitable for laboratories and chemical operations

Spill tank for trucks REO911

- Portable construction and easy assembly
- Sealing tarpaulin resists oil substances
- High capacity: 12 000 l
- Dimensions: 3,6 x 10 m, height 0,35 m
- Construction with no need to use connecting material
- Backing absorptive membrane NTRF
- We adjust the dimensions and capacity according to your request
- High stability
- Easy handling
- Spill tank is functional even on rough surface

Product code	Product name	Dimensions	Weight	Capacity	Packing
REO100V	Plastic spill tray	1220 x 575 x 170 mm	4,0 kg	100 l	1 pc
REO330V	Plastic spill tray	1170 x 1170 x 160 mm	9,5 kg	200 l	1 pc
REO331V	Plastic spill tray	1210 x 600 x 300 mm	5,0 kg	217 l	1 pc
REO365	Low profile spill tray	500 x 600 x 50 mm	0,8 kg	10 l	1 pc
REO911	Spill tank for trucks	on requirement			according to size

Plastic spill trays

Spill tray REO360 without absorptive materials

- Made from elastic polyethylen
- For safe handling
- Capacity 16 l
- Resists even high mechanical stress

Spill tray without absorptive materials REO363 from ABS

- Capacity: 16l
- Material ABS is shape stable with mirror smooth surface

Spill tray REO364

- Tough material
- Very good chemical resistance
- Safe handling
- Capacity 7 l

Indoor spill tray REO361

- Spill tray is filled with absorptive pillow
- Pillow is made of absorptive material – non-woven textile FIBROIL (REO Fb) (4 pcs per packing)
- Prevents from spillage in the case of inappropriate or careless handling
- Capacity 16 l

REO361

Outdoor spill tray REO362

- Spill tray is filled with hydrophobic absorptive pillow
- Holes on the bottom of the spill tray allow rain water flow out
- Leak-proof mat signalling the full saturation of the absorptive pillow is placed under the spill tray
- Absorbing capacity of the spill tray with absorptive pillow is 30 l of oil
- Tank content is not washed out by rain

REO362

Product code	Product name	Capacity	Dimensions	Weight	Packing
REO360	Spill tray without absorptive materials	16 l	770 x 440 x 100 mm	1,0 kg	1 pc
REO363	Spill tray without absorptive materials from ABS	16 l	770 x 440 x 100 mm	1,0 kg	1 pc
REO361	Indoor spill tray	16 l	770 x 440 x 110 mm	3,0 kg	1 pc
REO362	Outdoor spill tray	16 l	770 x 500 x 110 mm	3,0 kg	1 pc
REO364	Spill tray	7 l	600 x 430 x 50 mm	0,5 kg	1 pc
HSD4654	Absorptive pillow FIBROIL (REO Fb)		360 x 600 x 70 mm	6,0 kg	4 pcs/1 pack

Waste oil canisters

Mobile vacuum cleaner and oil emptier MV001

- Suitable for waste oil manipulation
- Reservoir with capacity 90l
- Machine is equipped with level indicator and case for basic tools
- Adjustable collecting container with 13 l capacity is equipped with spigot
- Bottom of collecting container is equipped with special holder for filter drip-drop
- After creating of underpressure you can suck out 40 l of oil from car (temperature of oil 70-80 °C, speed 2l/min.)
- Waste oil is being expelled by compressed air

Waste oil canisters

Waste oil canisters manufactured from polyethylene with UV stabilizer are suitable for the use as a preventive control against liquid spills. Canisters are not suitable for flammable substance and other hazardous materials.

Waste oil canister ZK293

- For safe capture and transportation of liquids
- Canister captures permanent machine spills and it is also suitable for the machine oil change

Waste oil pan ZK007

capacity 7 l

Waste oil pan ZK018

capacity 18 l

Closed waste oil pan ZK287

capacity 15 l

- Lightweight, low profile and practical
- Ideal for cars
- Product colour is subject to a change

Product code	Product name	Dimensions	Weight	Capacity	Packing
MV001	Mobile vacuum cleaner and oil emptier		38,0 kg		1 pc
ZK293	Waste oil canister	66 x 68 x 26,0 cm	9,5 kg	55 l	1 pc
ZK007	Waste oil pan	Ø 38 x 10,5 cm	0,7 kg	7 l	1 pc
ZK018	Waste oil pan	Ø 46 x 15,0 cm	1,0 kg	18 l	1 pc
ZK287	Closed waste oil pan	Ø 53 x 15,5 cm	2,5 kg	15 l	1 pc

Metal canisters

- Manufactured from varnished steel sheet in olive green colour
- Suitable for oil, naphtha, petrol
- Approved by TÜV/UN. UN certification 3A1/Y1,2/100/F/

Metal drain pipe for canisters

- For canisters 5 – 20 l

Sheet metal bucket

- Detachable lid
- Lever closing piece
- Metal grab handle
- Volumes: 5 l, 10 l, 12 l, 20 l, 30 l

BRAND NEW

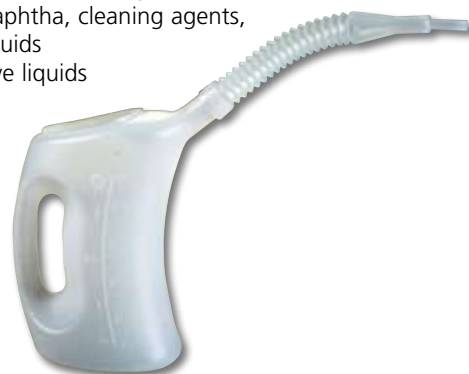

Plastic pot with scale PO001

- Transparent plastic – PE
- Capacity 5 l
- Scale – litres
- Duct cap
- Screwing cap on nozzle
- High chemical resistance

Plastic pot with scale PO002

- Transparent plastic – HDPE
- Capacity 3 l
- Removable nozzle 320 mm long
- Suitable for oil, naphtha, cleaning agents, water-dilutable liquids and non-aggressive liquids

Plastic graduate PO003

- Material: PP
- Capacity 5 l
- Graduated liquid scale
- Suitable for oil, naphtha, cleaning agents, water-dilutable liquids and non-aggressive liquids

- 2" thread
- Height 350 mm, Ø 300 mm
- Replaceable sieve

**Drum funnel with lid NS361**

- Material: polyethylene
- Combined thread 2" (metal and plastic drum)
- Tipping lid
- Height 210 mm, Ø 250 mm

**Drum funnel with handle PTR002**

- Material: polyethylene
- Flexible plastic tube
- Metal sieve
- Tube length 320 mm, Ø 160 mm

**Metal funnel KT230, KT180**

- Material – tin plate
- Metal sieve for collection of heavy impurities
- Handle
- Funnel suitable also for ¾" drum holes

**Drum funnel with handle PTR001**

- Material: polyethylene
- Angular tube
- Metal sieve
- Tube length 200 mm, Ø 160 mm

**Drum funnel with handle PTR003**

- Material: polyethylene
- Flexible metal tube
- Metal sieve
- Tube length 300 mm, Ø 160 mm

Product code	Product name	Dimensions	Weight	Packing
NS360	Drum funnel	Ø 300 x 350 mm	1,76 kg	1 pc
KT180	Metal funnel	Ø 180 mm	0,23 kg	1 pc
KT230	Metal funnel	Ø 230 mm	0,34 kg	1 pc
NS361	Drum funnel with lid	Ø 250 mm	0,58 kg	1 pc
PTR001	Drum funnel with handle	Ø 160 mm	0,14 kg	1 pc
PTR002	Drum funnel with handle	Ø 160 mm	0,14 kg	1 pc
PTR003	Drum funnel with handle	Ø 160 mm	0,28 kg	1 pc

Drum funnel NS358

- Drum funnel relieves pouring of liquids or draining of oily items (e.g. oil filters) into the drum
- Interior funnel design prevents from splashing
- Weight 4,6 kg

Product colour is subject to a change

Plastic bottle funnel PTL001

- High chemical resistance
- Funnel shape enables drip off of the bottles
- Without sieve
- Capacity 1 l

Safety dispensing cover SBK001

- For 200 l metal drums
- Ribbed surface
- Hole for pump
- Chemically resistant plastic

Safety dispensing stand SBP001

- For 200 l metal drums
- Stand for tanks
- Hole for pump
- Chemically resistant plastic

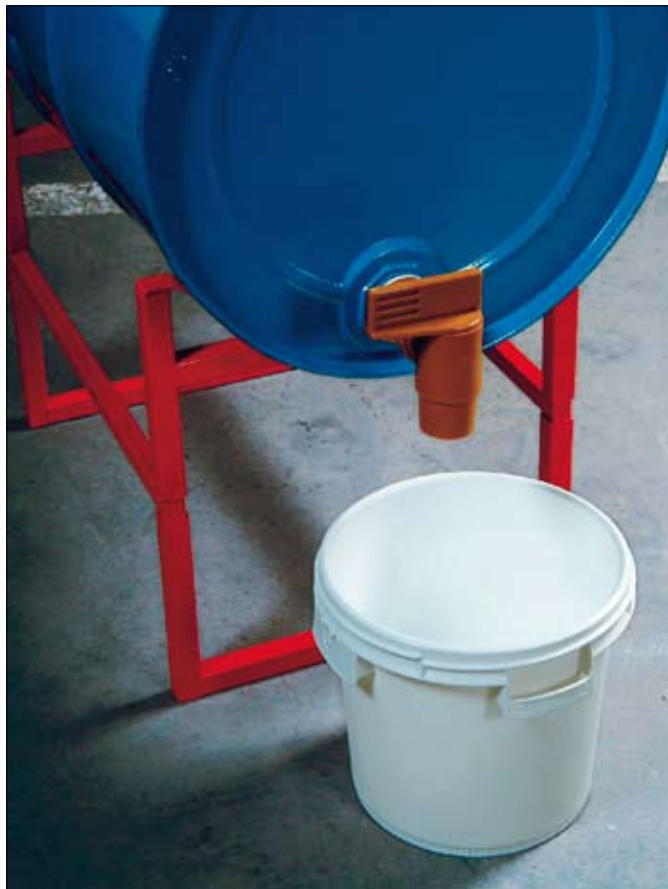

Product code	Product name	Dimensions	Weight	Packing	D
NS358	Drum funnel	Ø 64 x 16,0 cm	4,60 kg	1 pc	D
PTL001	Plastic bottle funnel	Length 12 cm	0,13 kg	1 pc	D
SBK001	Safety dispensing cover	Ø 61 cm x 4 cm	0,88 kg	1 pc	D
SBP001	Safety dispensing stand	90 x 60 x 40 cm	4,56 kg	1 pc	D

D – delivery time on agreement

Drum taps

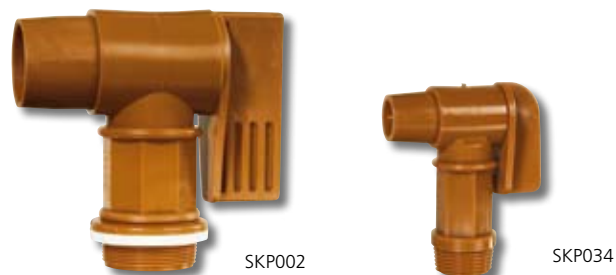

Plastic drum taps SKP034, SKP002

Metal drum taps SKK320, SKK321

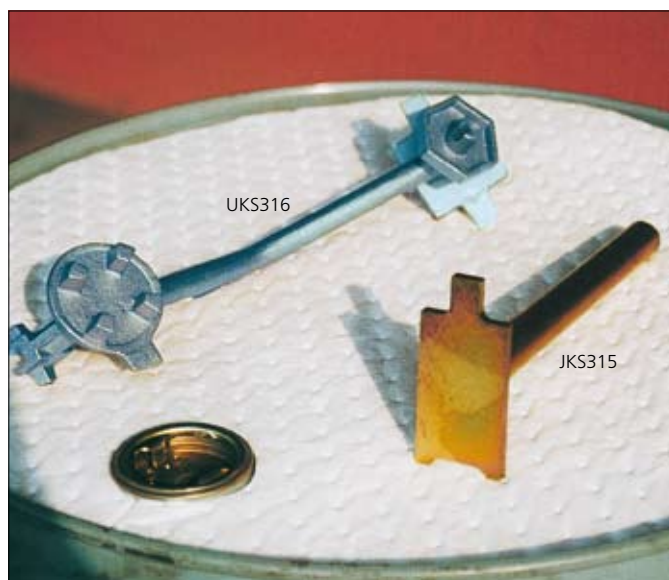

Self-closing taps with flame barrier. For safe dispensing of the oil-based liquids. Compatible for the use with drums with 3/4" thread. SKK321 is designed for the use with aggressive liquids.

Polyethylene taps for less demanding application

Universal drum wrench UKS316, simple drum wrench JKS315

Universal drum wrenches suitable for the opening of 2" and 3/4" bungs.

Product code	Product name	Dimensions	Weight	Packing
SKK320	Metal drum tap	Ø 3/4" x 12 cm	0,20 kg	1 pc
SKK321	Metal drum tap (adjustable)	Ø 3/4" x 15 cm	0,60 kg	1 pc
SKP034	Plastic drum tap FLO-RITE	Ø 3/4" x 8,5 cm	0,02 kg	1 pc
SKP002	Plastic drum tap FLO-KING	Ø 2" x 16,5 cm	0,25 kg	1 pc
UKS316	Universal drum wrench	Ø 3/4" + Ø 2"	1,00 kg	1 pc
JKS315	Simple drum wrench	Ø 3/4" + Ø 2"	0,30 kg	1 pc

Drum gauges

DRUM GAUGES

- For vertical and horizontal drums
- Indicate the liquid level in litres and volume percentage
- Suitable for light oils and non-aggressive chemicals

Drum gauge (vertical) SVS328

Drum gauge (horizontal) SHKS205

ACCESSORIES FOR CANISTERS AND DRUMS

Plastic drum taps

Plastic bungs

Product code	Product name	Dimensions	Weight	Packing
SVS328	Drum gauge (vertical)	Ø 2" x 90 cm	0,60 kg	1 pc
SVS246	Drum gauge (vertical)	Ø 3/4" x 90 cm	0,50 kg	1 pc
SHKS205	Drum gauge (horizontal) + drum tap	Ø 3/4" x 50 cm	1,00 kg	1 pc
SHS206	Drum gauge (horizontal)	Ø 3/4" x 50 cm	0,90 kg	1 pc
PKSP002	Tap for plastic canisters	Ø 60 x 60 x 90 mm	0,05 kg	1 pc
PKSP045	Tap for plastic canisters	Ø 45 mm	0,01 kg	1 pc
SKB026	PE drum tap for plastic barrels	Ø 26 mm	0,04 kg	1 pc
ZPK45	Plastic canister bung	Ø 45 mm	0,01 kg	1 pc
ZPKO45	Plastic deaeration canister bung	Ø 45 mm	0,01 kg	1 pc
ZPB057	Plastic barrel bung	Ø 57 mm	0,06 kg	1 pc
ZPR057	Plastic barrel bung with adapter	Ø 57 mm	0,06 kg	1 pc
ZPK60	Plastic canister bung	Ø 60 mm	0,02 kg	1 pc
ZPKO60	Plastic deaeration canister bung	Ø 60 mm	0,02 kg	1 pc
ZPS002	Plastic drum bung (2")	Ø 70 mm	0,06 kg	1 pc
ZPS034	Plastic drum bung (3/4")	Ø 37 mm	0,02 kg	1 pc

Drum pumps

Hand operated drum pump SRC004

- Made of polypropylene with sealing VITON and fine steel tow bar
- Telescopic sucking tube of length 490-950 mm
- Suitable for acids and lye pumping (low viscosity liquids pumping)
- Output of pumping 0,3l / lift
- Connection to ¾" hose

BRAND NEW

	Seal resistance	Pump body
Chemical	Viton seal	Popypropylene
Ammonia 10%	Severe effect	Excellent
Diesel fuel	Excellent	Excellent
Formaldehyde 40%	Excellent	Excellent
Glycerin	Excellent	Excellent
Hydraulic oil (Petro)	Excellent	Severe effect
Motor oil	N/A	Excellent
Nitric acid 50%	Excellent	Good
Oils: corn	Good	Excellent
Phosphoric acid > 40%	Excellent	Excellent
Sodium hydroxide 50%	Severe effect	Excellent
Sulphuric acid 10-75%	Excellent	Excellent

Thread adapters SRC001

- Plastic
- Adapter: thread – external DN50
- Plastic barrel – internal 2" TRI SURE

Hand operated drum pump SRC008

- Made of PTFE with sealing PTFE
- Sucking tubes of length 3 x 350 mm
- Resistant to highly aggressive liquids
- Output of pumping 0,3l / lift

BRAND NEW

Plastic pneumatic pump for aggressive liquids SRC285

- Polypropylene construction
- Creates overpressure in a container
- High chemical resistance – acids, lyes
- EPDM seal
- Suitable for transfer from plastic canisters – seal will adjust itself to fit to a container neck

D – delivery time on agreement

Product code	Product name	Dimensions	Weight	Packing	D
SRC001	Thread adapters	Ø 7 x 5,5 cm	0,2 kg	1 pc	D
SRC004	Hand operated drum pump		1,2 kg	1 pc	D
SRC008	Hand operated drum pump		2,5 kg	1 pc	D
SRC285	Plastic pneumatic pump for aggressive liquids		0,7 kg	1 pc	D

Drum pumps

Plastic siphon drum pump SRC202

- All-plastic drum pump
- Easy operation
- Pump suction pipe 800 mm, flexible discharge hose 1,3 m
- Performance: 10 l/min.
- Pumping on a siphon basis
- Compatible with water and water solutions, coolants and antifreezers
- For 2" drum plug hole

Hand operated rotation vane pump SRC105

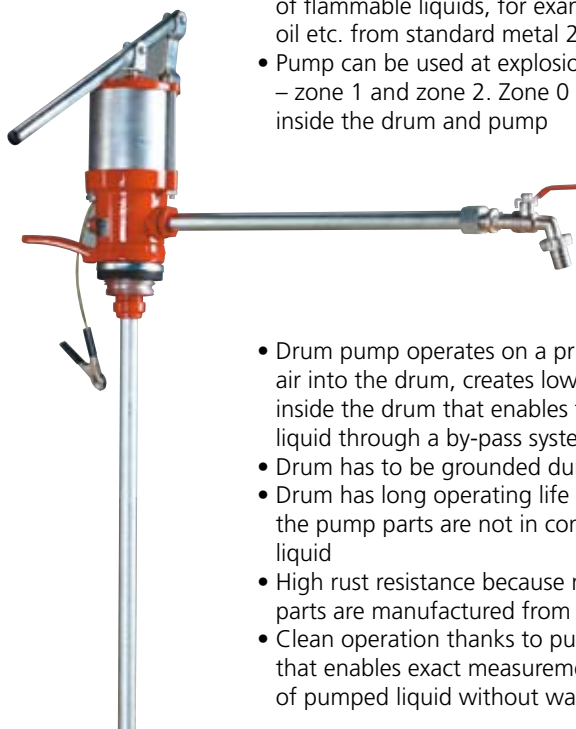

- Aluminium alloy rotation pump
- High performance and reliability
- Compatible with oils and antifreezers
- Performance: 70 l/min.

Pumps are not suitable for continuous operation. Not compatible with flammable liquids of I. class of flammability.

Hand operated drum pump for flammable liquids SRC4063

- Drum pump is designed for transferring of flammable liquids, for example naphtha, oil etc. from standard metal 200 l drums
- Pump can be used at explosion hazard areas – zone 1 and zone 2. Zone 0 is presumed only inside the drum and pump

- Drum pump operates on a principle of blasting air into the drum, creates low overpressure inside the drum that enables flow of pumped liquid through a by-pass system of the pump
- Drum has to be grounded during pumping
- Drum has long operating life because most of the pump parts are not in contact with pumped liquid
- High rust resistance because most of the pump parts are manufactured from aluminium alloy
- Clean operation thanks to pump construction that enables exact measurement of the amount of pumped liquid without wastage

Manual drum pump SRC461

- Steel + aluminium alloy
- Telescopic tube
- For the use with liquids up to SAE 40
- Stroke approximately 0,47 l

Product code	Product name	Dimensions	Weight	Packing
SRC202	Plastic siphon drum pump	Ø 2"	0,5 kg	1 pc
SRC4063	Hand operated drum pump for flammable liquids	Ø 2"	4,0 kg	1 pc
SRC105	Hand operated rotation vane pump	Ø 2"	3,5 kg	1 pc
SRC461	Manual drum pump – up to SAE 40	Ø 2"	2,5 kg	1 pc

Drum pumps

Drum motor pump for pumping of flammable liquids – SMC460

SMC460-A Motor – Ex

230 V, 50 Hz, 460 W,
Explosion-proof design II 2G EEx de II C T6,
Protected against splashing, IP 55,
Including cable 5 m

SMC460-B Pump adapter

Stainless steel, packless pump, rotor from ETFE,
External diameter 43 mm,
depth of immersion 1000 mm

SMC460-C Ground cable

Length = 2 m, with contact anchor

**SMC460-D Chemical hose**

Electrically conductive with steel
reinforcing spiral,
External diameter 37 mm,
max. operating pressure 16 bar,
Operating temperature: –40 °C
to + 80 °C,
Weight 0,90 kg / 1 m, inner layer UHMWPE

SMC460-E Hose screw joint

Brass, complete with safety pin, DN 25 – G 1 ¼,
for connection of the pump adapter

SMC460-F Hose screw joint

Brass, complete with safety pin, DN 25 – G 1 ¼,
for connection of dispensing pistol

SMC460-G Dispensing pistol

With securing clevis, nickel plated, max. 80 l/min.,
pmax = 4 bar, viscosity max. 900 mPa.s, 80 °C, PTFE
seal, weight 1,05 kg

SMC460-H Drum screw union

Zinc-coated, 41 mm, for safe connection of the pump
to a bunghole for connection to internal thread G2,
weight 0,51 kg

SMC460-I Foot stainless steel sieve Ø 43 mm

For a protection of a drum pump against particle impu-
rities, mounting by simple setting on pump adapter, S
(1.4571), 0,17 kg

Drum motor pump
for pumping of aggressive
liquids SMC417

- Drum pump with commutator motor 380 W, 230 V, 50 Hz, IP 44
- Packless pump
- Pump material is polypropylene, shaft – hasteloy C, guide bearings in the inner pipe PTFE/ carbon, O-ring between inner and external pipe FPM (viton)
- Discharge connection to G 1 1/4" external
- External diameter of exhaust-tube 41 mm
- Depth of immersion 1000 mm
- External diameter 43 mm
- Plastic cover
- 5 metres of cable

D – delivery time on agreement

Product code	Product name	Weight	Packing	D
SMC460-A	Motor – Ex	5,0 kg	1 pc	D
SMC460-B	Pump adapter	3,0 kg	1 pc	D
SMC460-C	Ground cable	0,2 kg	1 pc	D
SMC460-D	Chemical hose – 3 m	3,0 kg	1 pc	D

SMC417	Drum motor pump for dumping of aggressive liquids	4,0 kg	1 pc	D

Drum pumps

Pump for pumping of oils and viscous liquids SMC462

SMC462-A Commutator motor

230 V, 50 Hz, 800 W, IP 24, 5 m long cable with plug

SMC462-B Pump adapter without stator

sealing by sliding mechanical seal, material stainless steel ČSN 17 347 with stainless steel torsion shaft, max. capacity 30l/min., max. delivery 8 bar, depth of immersion 1000 mm, max. viscosity 30 000 mPas, external diameter of adapter 50 mm, connection G 1 1/2"

SMC462-C Stator Perbunan 50/21 black

max. temperature 90°C, suitable for greases and oils

SMC462-D Hose screwing S/AL DN 32

union nut G 1 1/2" for hose DN 32

SMC462-E Hose for mineral products 4 m

PETROTEC 10 Bar – T605 AA, DN32, material NBR black, reinforcement – electro statically conductive steel spiral

SMC462-F Hose screwing S/AL DN 32 – G 1 1/4" external
for hose DN 32**SMC462-G Discharge elbow**

from stainless steel 1.4571 with union nut G 1 1/4" internal, DN 25, weight 0,4 kg

SMC462-H Barrel screwing

50 mm galvanized, for safe connection of the pump to bunghole for connection of internal thread G 2", for pump diameter 50 mm

Flow-meter PP including accessories
– normal environment SMC463

The flow meter is not designed for measuring of combustibles of I. class of hazard.

- Flow-meter PP, material polypropylene, for measuring of quantity of the liquid substances in the range from 10 – 100 l / minute, connection G 1 1/4" including display and analysing device, p max = 4 bar, t max 60°C, max. dynamic viscosity 2500 mPas, body material PP, measuring chamber PPS, O-ring FPM, measuring accuracy +-1%, IP 54, weight 1,1 kg
- Connecting adapter straight for flow-meter PP, G 1 1/4" – G 2

Additional accessories:**SMC463-A Amplifier 230 V**

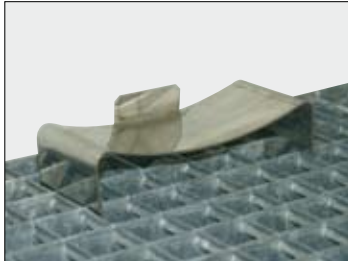

50 Hz, IP 54 for assembly to flow-meter body, one input, two outputs including mains cable 5 m with normal plug

SMC463-B Cable between pump motor and flow-meter amplifier 0,5 m

D – delivery time on agreement

Product code	Product name	Weight	Packing	D

Drum rack

Stopper for optimal emptying of 60 l drum

Drum rack CES7642

- Suitable for 6 x 60 l drums
- Foldable
- 2 steel grates
- Glass fiber reinforced spill tray with capacity 150 l
- Galvanized
- You can buy grate

CES7642 completed with steel grate CES6817

Drum rack CES7734

- Suitable for 9 x 60 l drums
- Foldable
- 3 steel grates
- Glass fiber reinforced spill tray with capacity 150 l
- Rack can be extended with more parts
- Galvanized

CES7734 completed with steel grate CES6817

Ansamble of racks CES7734 and CES7885

Ansamble of racks CES7855 and rack CES7856

Container holder

Product code	Product name	Dimensions	Weight	Packing	D
CES7642	Drum rack including 150 l glass fiber reinforced spill tray	132 x 80 x 130 cm	60,0 kg	1 pc	D

CES7855	Drum rack including 150 l glass fiber reinforced spill tray – extending	132 x 80 x 200 cm	72,0 kg	1 pc	D
CES6817	Steel grate	130 x 62 x 3 cm	18,0 kg	1 pc	D
CES7800	Support under the drums		0,7 kg	1 pc	D
CES8254	Stoppers for optimal emptying of drums		0,9 kg	1 pc	D
CES5917	Container holder	23 x 11 cm	2,0 kg	1 pc	D

Drum rack

Foldable rack CES8091

- For storing of little containers up to 30 l
- Heat galvanized
- 5 shelves each with bearing 200 kg
- 2 plastic spill trays
- Assemble possible

Foldable rack CES7820

- For storing of little containers up to 20 l
- Heat galvanized
- 20 l tray – bottom shelf
- Bearing of each shelf 200 kg
- Assemble possible

Assemble of racks CES8091 and CES8092

Assemble of racks CES7820 and CES7856

Plastic trays

- Capacity 30 l and 40 l
- Galvanized steel grate

Plastic tray CEV7871

Rack for containers up to 20 l CES7820

D – delivery time on agreement					
Product code	Product name	Dimensions	Weight	Packing	D
CES8091	Rack for containers up to 30 l	106 x 63 x 200 cm	44 kg	1 pc	D
CES8092	Rack for containers up to 30 l extending	101 x 63 x 200 cm	34 kg	1 pc	D
CES8093	Spare shelf for CES8091 and CES8092	100 x 60 x 4 cm	4 kg	1 pc	D

Drum rack

Foldable drum rack CES7663

- Rack for two 60 l drums or one 200 l drum
- Including 220 l glass fiber reinforced spill tray
- Galvanized

Foldable drum rack CES7674

- Rack for three 60 l drums
- Including 220 l glass fiber reinforced spill tray

Foldable drum rack CES7675

- Rack for six 60 l drums
- Including 220 l glass fiber reinforced spill tray

Foldable drum rack CES7664

- Rack for four 60 l drums or two 200 l drums or two 60 l and one 200 l drum
- Including 220 l glass fiber reinforced spill tray
- Galvanized

Foldable drum rack CES7671

- Rack for four 200 l drums
- Including 220 l glass fiber reinforced spill tray

Foldable drum rack CES7665

- Rack for two 60 l drums or one 200 l drum and steel grate for containers
- Including 220 l glass fiber reinforced spill tray
- Galvanized

Foldable drum rack CES7672

- Rack for two 200 l drums or three 60 l drums
- Including 220 l glass fiber reinforced spill tray

Glass fiber reinforced trays

- Capacity 150 l and 220 l

Drum stands

Drum rack for 2 drums

- Drum rack REO315 combined with the drum rack with grate REO316 and spill tray REO330V
- Constructional structure enables mutual combination
- Stackable max. up to 2 high
- Handling with fork-lift truck or crane
- Designed for the use at buildings or shelters

Drum rack REO315

Drum rack with grate REO316

Spill tray REO100V
is not included

Drum storage rack REO237 for 2 drums

Drum storage rack for 2 drums for storage even in more layers (max. 2). No need to build the oil leakage sump when placed on the spill containment pallet.

Dispensing drum rack REO291

- Easy assembly
- Dispensing of liquids possible
- Light collapsible construction without joints

Product code	Product name	Dimensions	Weight	Packing
REO315	Drum rack	1405 x 610 x 1000 mm	28,5 kg	1 pc
REO316	Drum rack with grate	1405 x 610 x 930 mm	52,5 kg	1 pc
REO330V	Plastic spill tray	1170 x 1170 x 160 mm	8,0 kg	1 pc
REO237	Drum storage rack for 2 drums	1150 x 320 x 620 mm	13,5 kg	1 pc
REO291	Dispensing drum rack	550 x 500 x 700 mm	6,0 kg	1 pc

Handling trolleys

Deck truck REO306

- Variable side plates
- Pair of fixed wheels and a pair of swivel casters made of solid rubber

Trolley CEV8292

- Galvanized under cart with two rotating and two firm wheels
- Suitable for transport of tools, containers with liquids, machine parts and components
- Upper part of trolley has denticulated rubber pad
- Bearing 2 x 100 kg

Truck for plastic barrels REO307

- For easy handling with 120 l and 220 l plastic barrels

Drum sock truck REO305

- Removable drawbar
- Equipped with universal absorptive sock
- Drum truck – spill tank for easy transportation over the flat surfaces, wheels with brakes enable to fix the truck and prevent moving and swivelling

D – delivery time on agreement

Product code	Product name	Dimensions	Weight	Packing	D
REO305	Drum sock truck	76 x 76 cm	22,0 kg	1 pc	D
REO306A	Deck truck – without side plates	80 x 107 cm	54,0 kg	1 pc	D
REO306B	Deck truck – with front and back plate	80 x 107 cm	61,0 kg	1 pc	D
REO306C	Deck truck – front, back and one side plate	80 x 107 cm	66,5 kg	1 pc	D
REO306D	Deck truck – four side plates	80 x 120 cm	72,0 kg	1 pc	D
REO307	Truck for plastic barrels	137 x 66 x 50 cm	19,0 kg	1 pc	D
CEV8292	Trolley	118 x 63 x 104 cm	40,0 kg	1 pc	D

Handling trolleys

Handling drum trolley REO303

- Handling drum trolleys are designed for lutting, transport, dispensing and other manual manipulation with 200 l drums.

Drum truck REO304

- Suitable for lutting and transport of drums

Simple drum trolley REO345

- Simple drum trolley for easy handling with 200 l drums. Equipped with a safety drum catch.

Self-loading drum trolley REO346

Product code	Product name	Dimensions	Weight	Packing
REO303	Handling drum trolley	143 x 64 x 42 cm	25,0 kg	1 pc
REO304	Drum truck	53 x 59 x 180 cm	24,0 kg	1 pc
REO344	Drum trolley	140 x 67 x 26 cm	14,5 kg	1 pc
REO345	Drum trolley – bantam wheels	140 x 67 x 26 cm	15,5 kg	1 pc
REO346	Self-loading drum trolley	158 x 65 x 37 cm	16,5 kg	1 pc

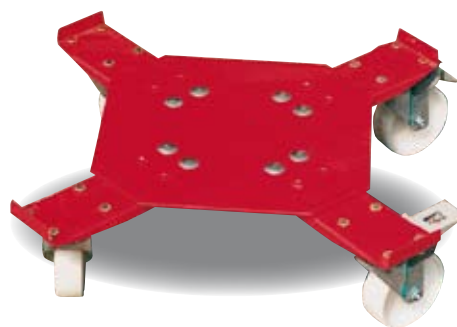

Pliers, lever, opener

Drum opener REO558

- Suitable for opening of a metal drum
- Drum opener length 530 mm

**Hook for moving**

- Bearing 40 kg
- Steel varnished construction

**Drum truck REO301****Vertical drum lifter REO260**

Designed to lift 200 l metal drums when binding and drum handling is time consuming, difficult or risky. Not suitable for the use with damaged drums when it is not possible to clamp the drums securely.

- Drum lifter is certified by State Testing Laboratory
- Load capacity: 320 kg

**Handling drum lever REO568**

- For easy hand manipulation with drums
- For easy installation of full drum

Product code	Product name	Dimensions	Weight	Packing
REO558	Drum opener	60 x 17 x 11 cm	3,3 kg	1 pc
REO559	Replacement blades for REO558		0,6 kg	2 pc
REO260	Vertical drum lifter	Ø 572 mm	5,6 kg	1 pc
REO569	Hook for moving	70 cm	0,7 kg	1 pc
REO301	Drum truck	60 x 60 x 14 cm	10,0 kg	1 pc
REO568	Handling drum lever	97 x 18 x 16 cm	3,0 kg	1 pc

Ladders

Safety knife

Safety knife NZO002

- Manipulator of blade placed on both sides
- Suitable for right or left handed people
- Blade equipped with spring – when loss of contact of blade and cutted material happens blade is automatically pushed in – no risk of injury
- Ergonomic shape of handle from aluminium
- GS and TÜV attested

Safety knife NZO004

- Safety knife for use on card-board
- Blade is pushed in automatically into handle
- Light and easy to grab
- Suitable for right or left handed people
- 4 times usable blade
- GS attested
- Change of color reserved

Safety knife NZO003

- The safest knife in the world – safety mechanism is active even when you leave your finger on stretcher
- Suitable for right or left handed people – stretcher is double-sided
- Extra long blade
- Ergonomic shape of handle
- Ideal for cutting of 3 layer cardboard
- TÜV attested

Knife for foil cutting NZO005

- Cuts thick foil, leather and cardboard
- Easy blade 0,40 mm exchange
- Ergonomic handle shape
- Safe covered blade

Waste collecting pliers REO206, REO207

Ideal help for easy and hygienic collection of waste

- Light duralumin rod with non-slip rubber jaws that are wear resistant
- Wearing jaws are designed to even pick up very small things
- Jaws can give a quarter turn
- Ergonomic handgrip
- Light construction
- Easy manipulation
- Suitable for easy collecting of waste, dirty things, papers, cigarette ends etc.
- Can be used indoors and outdoors
- Length: 45 cm, 82 cm
- Jaw distance: 12 cm

Oxyacetylene burner trolley REO300

- Bantam wheels
- Lockable box for tools
- Holders for welding wire
- Winding hooks for burner hose

Trolley for compressed air cylinders REO308

- Full rubber pneumatic tyres on the plastic wheel disks

Hook for moving

- Bearing 40 kg
- Steel varnished construction

Shelters for gas bottles

- Folding construction
- Framework – steel profiles, casing: aluzinc trapezoidal steel sheet, netting
- Stable holder for gas bottles
- Lockable doors
- Slanting roof

Key cabinets

- Designed for wall installation
- Body and door manufactured from high-quality sheet
- Chrome-plated round lock with 2 keys
- Key shelves are movable by 10 mm and are numbered
- The boxes provided with key registers
- Provided in light grey powder paint RAL 7035

KNS4092 Key cabinet – 50 (550 x 80 x 380 mm)

KNS4093 Key cabinet – 64 (300 x 80 x 450 mm)

KNS4094 Key cabinet – 100 (380 x 80 x 550 mm)

Key cabinets

- Manufactured from tensile steel sheet
- Equipped with movable shelves with hooks and round lock with 2 keys
- Can be hung on a wall
- Provided in light grey powder paint RAL 7035

KNS4088 Key cabinet – 15 (185 x 85 x 250 mm)

KNS4089 Key cabinet – 25 (245 x 85 x 300 mm)

KNS4090 Key cabinet – 35 (245 x 85 x 300 mm)

KNS4091 Key cabinet – 45 (245 x 85 x 300 mm)

Safety cabinet for storage of acids and alkalis BSK001

- For storage of aggressive and hazardous substances
- Drawers: Strong construction with removable plastic sumps at capacity 15 l, 430 x 475 x 80 mm
- Left or right doors
- GS certification
- Exterior dimensions (WxDxH): 600 x 600 x 1970 mm
- Two separated compartments with drawers for safe storage and removing of hazardous materials
- Not suitable for storage of flammable materials
- Cabinet outside made of sheet-steel, epoxy-laminated
- Inside made from melamin for high chemical resistance
- Hazardous substances do not escape to the air thanks to joint construction
- Corrosion resistant, non-metallic air ducting
- Ventilation of both compartments with only one extraction air inlet on top

Illustrative photo

Safety cabinet for storage of flammable liquids BSH001

- Wing door
- 3 shelves and bottom collecting sump
- Plastic-covered steel sheet
- Automatic central locking device in the case of fire, the cabinet will be hermetically closed
- 90 minute fire protection in accordance with European standards EN 14470-1 (Type 90)
- Locking mechanism with cylinder lock – the cabinets can be integrated into existing master-key system
- Suction connection on top
- Cabinet exterior dimensions (WxDxH): approx. 1200 x 615 x 1968 mm
- Cabinet weight: approx. 420 kg
- Labelling in accordance with EN 14470-1
- Smooth, air damped door closing
- Simple and safe door opening with minimal effort
- Door closing system outside the storage compartment

Illustrative photo

Safety cabinet for storage of flammable liquids BSH002

- Folding door cabinet (space saving)
- 3 shelves and bottom collecting sump
- Plastic-covered steel sheet
- Automatic central locking device in the case of fire, the cabinet will be hermetically closed
- 90 minute fire protection in accordance with European standards EN 14470-1 (Type 90)
- GS/CE certification
- Cabinet exterior dimensions (WxDxH): approx. 1200 x 615 x 1968 mm
- Cabinet weight: approx. 420 kg
- Approved storage of hazardous materials in workrooms
- Integrated door open arrest system as standard
- Locking mechanism with cylinder lock – the cabinets can be integrated into existing master-key system
- Suction connection on top
- Earthing link (standard)
- Labelling in accordance with EN 14470-1

Portable eco-stocks with emergency spill sump

Portable stocks with the emergency spill sump are used as the stocks for driving fuel, oils, chemicals and hazardous substances and also as temporary collecting centres for hazardous waste.

- 3 basic modifications (length 1,7; 3,3 and 5 m)
- All-metal welded construction with lockable door
- Grid floor with the emergency spill sump
- Self-supporting construction – no need to dig the foundations
- Portable by crane and high-lift truck
- All types of our portable eco-stocks are certified by Technical Testing Institute of Building - Prague

Portable eco-stock with aluzinc walls is highly and long-time resistant to climatic effects. The stock is 3 times more resistant than classic hot-dip galvanized metal sheet stocks.

Access ramp for portable eco-stocks REO321

- Designed for hand trolleys
- Solid steel construction with hot-dip galvanized grid
- Dimensions: 1250 x 1000 x 190 mm

Washing tables

Washing table REO086

- Unit is mounted directly onto the solvent 200 l drum
- Ideal for the cleaning of bulky and heavy parts
- Unit without carrying frame

Technical data:

Work space: 800 x 540 mm

Working height: 965 mm

Bearing capacity: 80 kg

Power supply/frequency: 230 V, 50 Hz

Capacity: 200 l drum

Options:

Spill tank REO097

REO086

REO097

Spill tank REO097

Technical data:

Dimensions: 806 x 762 x 386 mm

Material: S 235 varnished (steel)

Material thickness: 3 mm

Sump capacity: 200 l

Washing table REO085

- Standard washing table with large work space
- Ideal for the cleaning of bulky and heavy parts

Technical data:

Work space: 1145 x 660 mm

Working height: 900 mm

Bearing capacity: 150 kg

Power supply/frequency: 230 V, 50 Hz

Capacity: 200 l drum

Options:

Spill tank REO097

Splashing wall REO098

Washing table with lid REO092

REO099

Spill tank REO099

Technical data:

Dimensions: 1026 x 625 x 375 mm

Material: S 235 varnished (steel)

Material thickness: 3 mm

Sump capacity: 200 l

Washing table REO089

- Mobile washing table with large work space and high bearing capacity

Technical data:

Work space: 800 x 540 mm

Working height: 900 mm

Bearing capacity: 100 kg

Power supply/frequency: 230 V, 50 Hz

Capacity: 50 l drum

Options:

Spill tank REO096

Washing table with lid REO084

REO089

Spill tank REO096

Technical data:

Dimensions: 700 x 500 x 160 mm

Material: S 235 varnished (steel)

Material thickness: 3 mm

Sump capacity: 50 l

Washing tables are delivered without solvent. Drum with solvent has to be ordered separately.

D – delivery time on agreement

Product code	Product name	Packing	D
REO086	Washing table without drum and solvent	1 pc	D
REO097	Spill tank for washing table REO086	1 pc	D

Washing tables and accessories

Washing table REO090

- Robust and stable industrial design ideal for the cleaning of medium sized and medium heavy parts

Technical data:

Work space: 800 x 540 mm
Working height: 900 mm
Bearing capacity: 100 kg
Power supply/frequency: 230 V, 50 Hz
Capacity: 50 l drum

Options:

Spill tank REO096

Washing table REO091

- Ideal for use in maintenance and repair shops

Technical data:

Work space: 646 x 465 mm
Working height: 815 mm
Bearing capacity: 50 kg
Power supply/frequency: 230 V, 50 Hz
Capacity: 50 l drum

Options:

Spill tank REO096

Washing table REO080

- Mobile washing table for the cleaning of medium sized and medium heavy parts
- Self-priming pump saves energy and works absolutely failure – and maintenance-free

Technical data:

Work space: 560 x 440 mm
Working height: 920 mm
Bearing capacity: 40 kg
Power supply/frequency: 230 V, 50 Hz
Capacity: 50 l drum

Low level mobile washing unit REO088

- Ideal for the cleaning of engines and hardly reachable places
- Liquid is filled in the unit tank

Technical data:

Work space: 850 x 390 mm
Working height: 150 mm
Bearing capacity: 40 kg
Power supply/frequency: 230 V, 50 Hz
Integrated tank: 35 l

Effective and eco-friendly degreasing

Patented cleaning liquids that substitute degreasing with petrol, perchlor and similar substances. Liquids are solvents without halogen hydrocarbons. They have excellent degreasing efficiency in cold conditions. Cleaning without washing off. The liquids do not damage varnished metal surfaces; they are non-corrosive to aluminium, aluminium alloys and grey iron and do not have negative influence on the corrosive resistance of a steel surface. The advantage is closed liquid circulation and long life-durability of the liquids.

Purgasol OKP050, OKP200

Special cleaner Purgasol, refined petroleum distillate for particularly tough cleaning tasks in maintenance and repair of equipment and machinery. Ideal for use in any kind of workshop.

Cleaning power:	excellent, removes the toughest oil and grease contaminations
Evaporation (drying):	fast and even
Metal corrosion:	none, since product is free from reactive sulphur compounds
Odour:	typical
Concentration of aromatics:	low aroma
Skin compatibility:	very good, confirmed by independent testing laboratory
Air limit values:	134 mg/m ³ (TÜV-attest), below the maximum occupational exposure concentration of 1000 mg/m ³
Safety:	normal safety regulations, no special directions

EL-extra OKE050, OKE200

Synthetic cleaning fluid based on carbohydrates designed to meet the highest demands in metal degreasing, purification of metals and surface treatment. Ideal for applications where the cleaner solvent is required to evaporate and dry quickly without leaving any residues.

Cleaning power:	excellent, removes the toughest oil and grease contaminations
Evaporation (drying):	fast, uniform, no residues
Metal corrosion:	none, since product is free from reactive sulphur compounds
Odour:	nearly odourless
Concentration of aromatics:	extremely de-aromatised
Skin compatibility:	very good, confirmed by independent testing laboratory
Air limit values:	176 mg/m ³ (TÜV-attest), below the maximum occupational exposure concentration of 1000 mg/m ³
Safety:	normal safety regulations, no special directions

RF-cleaner OKR050, OKR200

Cleaning fluid based on carbohydrates for general tasks in repair and maintenance of equipment and machinery. Ideal for applications requiring the treated workpieces to be left covered with a slight oil film, for instance in production and industry. As a result of the slow evaporation (drying) of the cleaner solvent, the components are left slightly greased, thus providing for a temporary corrosion protection.

Cleaning power:	excellent, removes the toughest oil and grease contaminations
Evaporation (drying):	slow
Metal corrosion:	none, since product is free from reactive sulphur compounds
Odour:	mild in odour
Concentration of aromatics:	de-aromatised
Skin compatibility:	very good, confirmed by independent testing laboratory
Air limit values:	109 mg/m ³ (TÜV-attest), below the maximum occupational exposure concentration of 1000 mg/m ³
Safety:	normal safety regulations, no special directions

Quick OKQ050, OKQ200

Special cleaner Quick, synthetic solvent with quick evaporation, ideal for degreasing before further processing (varnishing, sticking) and surface treatment in industry. Flammable liquid of II. Class of hazard. Technical suction required when using this type of cleaner.

Cleaning power:	excellent, removes the toughest oil and grease contaminations
Evaporation (drying):	very fast, uniform, no residues
Metal corrosion:	none, since product is free from reactive sulphur compounds
Odour:	very mild in odour
Concentration of aromatics:	extremely de-aromatised
Air limit values:	200 mg/m ³ (TÜV-attest), below the maximum occupational exposure concentration of 1000 mg/m ³

Degreasing liquids

Industrial concentrated degreasing liquid REOCLEAN

REOCLEAN is concentrated degreaser and detergent suitable for degreasing and cleaning of floors, machines and machinery components. It is suitable primarily for impurities, e.g. used oils, grease, petroleum substances, soot, dirt after combustion, etc. After the application of REOCLEAN, the grease and dirt turn into the emulsion of degreaser and can be easily washed out with water. The emulsion has to be separated and disposed in an appropriate way (for example at the disposal plant or with the assistance of specialist). In accordance with the legislative and legal acts the degreasers have not to be used in non-protected areas, e.g. water streams or canalization, etc. Detailed direction for use for REOCLEAN is delivered with the product to avoid the environment pollution and breaking of valid legislation. REOCLEAN is available as a concentrate in foamy or non-foamy version. The foamy version is recommended for manual cleaning of heavy-dirty parts, non-foamy version for machine cleaning. Sprayer and pressure sprayer for easy manual cleaning also available.

- Easy biologically degradable
- Non-toxic, inflammable, non-abrasive
- Do not contain phosphor, phosphates, solvents
- Dilutable with water:

Dilution:

1:5 for application on very dirty surfaces

1:20 for degreasing

(Check suitable concentration by practical test)

Strong concentrated degreasing liquid REO803

- Strong water-dilutable degreaser based on cation-active tensides, alkalic salts and water-dilutable solvent with regulated pH 12 – 13. Due to its high concentration and limited foaming it is suitable for professional cleaning and degreasing in workshops. The liquid combines advantages of solvent and tenside system – it is suitable for very dirty surfaces or heavy greasy impurities.
- Degreaser can be used for hand and machine application. Dilution depends on type and size of pollution and on type of surface. It varies from 1:5 up to 1:20. The liquid is suitable mainly for grease and oil-based residues. The surface has to be washed off with water after degreasing and aptly preserve. Higher temperature (up to 50°C) of the liquid, higher pressure (spraying) and mechanical cleaning (brush) and time (5-10 minutes) helps to reach higher efficiency.

Packing, storage, transport: recommended packing is 5 l, 10 l and 40 l. Store the products in original packaging. Storage temperature must be above +5°C. Transport in covered means of transport.

REO892

REO893

Concentrate can infract light metal alloys and varnished surface finishes.

Product code	Product name	Capacity	Packing
REO801-10	Industrial concentrated degreaser REOCLEAN, non-foamy	10 l	1 pc
REO801-20	Industrial concentrated degreaser REOCLEAN, non-foamy	20 l	1 pc
REO801-50	Industrial concentrated degreaser REOCLEAN, non-foamy	50 l	1 pc
REO802-10	Industrial concentrated degreaser REOCLEAN, foamy	10 l	1 pc
REO802-20	Industrial concentrated degreaser REOCLEAN, foamy	20 l	1 pc
REO802-50	Industrial concentrated degreaser REOCLEAN, foamy	50 l	1 pc
REO891	Sprayer for REOCLEAN – 0,5 l (without liquid)		1 pc
REO892	Pressure sprayer for REOCLEAN – 2,0 l (without liquid)		1 pc
REO893	Pressure sprayer for REOCLEAN – 10,0 l (without liquid)		1 pc
REO803-05	Strong concentrated degreasing liquid	5 l	1 pc
REO803-10	Strong concentrated degreasing liquid	10 l	1 pc
REO803-40	Strong concentrated degreasing liquid	40 l	1 pc

Degreasing and cleaning spray REOTECH001

- Very effective detergent that evaporates very quickly
- It cleans and degreases parts of machines, individual components, tables etc.
- It removes residues of glues, oils, lubricants and dirt
- Suitable for cleaning of hardly reachable places
- 600 ml

**Rust-eater REOTECH002**

- Highly effective aerosol agent suitable to dissolve rust
- Loose screws, nuts, pivots etc.
- Does not damage lacquer, rubber and glass
- Protects from scraping of metal parts
- 400 ml

**Water-repellent spray REOTECH003**

- Suitable for electric cables treatment
- Prevents from occurrence of short circuit and sneak current in electric devices
- Protects against oxidation and corrosion
- Suitable for lubrication of fine mechanics
- Loose rusty and firmly tightened bolts
- 400 ml

**Elastic putty and glue REOLEP001**

- Single-component, elastic, polymer-based
- Excellent sealing and adhesive properties
- Suitable for sealing of chinks in walls, sealing of roof constructions, joint grouting, polystyrene sticking to various materials
- When hardened, it can be ground and varnished
- 310 ml

Product code	Product name	Capacity	Packing
REOTECH001	Degreasing and cleaning spray	600 ml	1 pc
REOTECH002	Rust-eater	400 ml	1 pc
REOTECH003	Water-repellent spray	400 ml	1 pc
REOLEP001	Elastic putty and glue	310 ml	1 pc
TPT310	Pressure pistol for putty		1 pc

Reflective tapes

Auto first-aid box LSO200

Reflective tape for solid surface

- Accentuate vehicle contours
- Easy application
- Very high reflectance
- Colours: white, red, yellow

Reflective tape for vehicle tilts – not older than 3 months

- Tape with squares – very good adhesion to flexible bases (tilt)

Isothermal cover IP001

- Avoids fast loss of body temperature
- Protects from cold, heat, humidity, wind and rain
- Polyester metalized foil
- Reflects 90% of infrared beams

Small emergency set for cars KIT600

- Set of practical gadgets in case of accident
- Including instructions how to act during accident and first aid rules

Content:

- Important phone numbers
- Instructions how to act during accident
- First aid rules
- Reflective vest
- Temporary marker – yellow
- Chemical lights – 2 pcs yellow-green + 2 pcs red
- Report for insurance company
- Notepad + pen
- Fire-extinguisher 1kg
- Packing

ADR equipment – emergency sets

KIT700 bag / KIT700K suitcase

1x big wheel chock for vehicles over 3,5t, 2x warning triangle, 1x reflective vest, 1x hand lamp for explosive environment, 1x NITRIL gloves, 1x sealing safety glasses

Safety signs no. 1, 1.4, 1.5, 1.6, 2.1

**KIT701 bag / KIT701K suitcase**

1x big wheel chock for vehicles over 3,5t, 2x warning triangle, 1x reflective vest, 1x rubberized ADR lamp, 1x NITRIL gloves, 1x sealing safety glasses

Safety sign no. 2.2

**KIT702 bag / KIT702K suitcase**

1x big wheel chock for vehicles over 3,5t, 2x warning triangle, 1x reflective vest, 1x rubberized ADR lamp, 1x NITRIL gloves, 1x safety glasses, 1x half-mask with filter

Safety sign no. 2.3

**KIT703 bag / KIT703K suitcase**

1x big wheel chock for vehicles over 3,5t, 2x warning triangle, 1x reflective vest, 1x rubberized ADR lamp, 1x NITRIL gloves, 1x safety glasses, 1x half-mask with filter, 1x liquid for eyes wash-out

Safety sign no. 6.1

**KIT704 bag / KIT704K suitcase**

1x big wheel chock for vehicles over 3,5t, 2x warning triangle, 1x reflective vest, 1x rubberized ADR lamp, 1x UNIVERSAL gloves, 1x safety glasses, 1x liquid for eyes wash-out

Safety signs no. 4.2, 5.1, 5.2, 6.2, 7A, 7B, 7C, 7D, 7E

**Content of emergency set is not suitable for you?
Have you already bought any part for its content?**

We will please you.

We can supply you with set according to your requirements with modified price.

For example if you need set for safety sign 3 but you already have wheel chock.

You can buy set KIT705 without wheel chock with modified price.

**KIT705 bag / KIT705K suitcase**

1x big wheel chock for vehicles over 3,5t, 2x warning triangle, 1x reflective vest, 1x hand lamp for explosive environment, 1x NITRIL gloves, 1x safety glasses, 1x foldable plastic shovel, 1x disposable drain cover, 1x foldable plastic bucket, 1x liquid for eyes wash-out

Safety signs no. 3, 4.

KIT706 bag / KIT706K suitcase

1x big wheel chock for vehicles over 3,5t, 2x warning triangle, 1x reflective vest, 1x rubberized ADR lamp, 1x UNIVERSAL gloves, 1x safety glasses, 1x foldable plastic shovel, 1x disposable drain cover, 1x foldable plastic bucket, 1x liquid for eyes wash-out

Safety signs no. 4.1, 8, 9

Lighting

Rechargeable lamp STREAMLIGHT ELS230

- Highly resistant plastic rechargeable hand lamp for use in explosive environment
- Lamp is supplied with rechargeable stand and adapter 230 V and 12V
- Runtime approximately 200 minutes, charging time 10 hours
- Certificate II 3G Ex n AK IIC T2
- Charging by lead accumulator

Rechargeable halogen lamp ELS232

- Halogen bulb 5,5 V/1 A, PX13,5 S or krypton 6 V/0,5 A, PX13,5S
- Lead accumulator 6 V/4 Ah
- Continuous runtime of halogen bulb 3,5 hours
- Continuous runtime of krypton bulb 8 hours
- Rough handling resistance (dust, dirt)
- Dampness-resistance, spraying water resistance
- Accumulator charging by power supply unit 230 V~
- Automobile charging 12 V

Dual rechargeable lamp ELS231

- Controlled dual quick-charging
- Multifunctional control – loss-free power regulation – formatting of batteries – flash functions (3 speeds) – morse function
- Signalization of lamp operation status (LED)
- Carrying strap
- Focussing
- Parabola diameter 109 mm
- Halogen bulb + LED diode

Technical parameters:

Halogen bulb	6 V/10 W
Battery	6 x NiMH 3000 mAh
Light distance	up to 1200 m
Charging time	3,5 hours
Runtime	115 – 500 min.
4 LED (15°)	min. 260 hours

Rechargeable halogen lamp with LED diodes ELS233

- Halogen bulb 6V/1A, PX13,5 S or krypton 6V/0,5 A, PX13, 5S and LED 12x diameter 5 mm (9-12 Cd)
- Lead accumulator 6V/4 Ah
- Continuous runtime of halogen bulb 3,5 hours
- Continuous runtime of krypton bulb 8 hours
- Continuous runtime of LED 24 hours
- Rough handling resistance (dust, dirt)
- Dampness-resistance, spraying water resistance
- Accumulator charging by power supply unit 230 V~
- Automobile charging 12 V

◀ Automobile charger 12 V ELS234

- Suitable for ELS231
- Current cutout
- Connector for automobile

Product code	Product name	Dimensions	Weight	Packing
ELS230	Rechargeable lamp	195 x 127 x 146 mm	1,5 kg	1 pc
ELS231	Dual rechargeable lamp	290 x 110 x 120 mm	745 g	1 pc
ELS232	Rechargeable halogen lamp	Ø 116 x 196 mm	1,0 kg	1 pc
ELS233	Rechargeable halogen lamp with LED diodes	Ø 116 x 196 mm	1,1 kg	1 pc
ELS234	Automobile charger 12 V		0,2 kg	1 pc

Lighting

Rechargeable inspection lamp ELS240

- 26 LED, 12 000 mCd
- Runtime 3-4 hours
- Plastic – ABS, rotary hook, magnet
- Protection against overcharge, shock, charging indicator
- Surface finish TPE (rubberized)
- Aku pack NIMH batteries 7,2 V/6 x AAA 600 mAh
- Charging adapter + automobile adapter
- Charging time 6 hours
- Dimensions 45 x 35 x 270 mm

Chemical light ELS109

- Light is switched on by bending – braking of ampoule and mixing of two chemical components
- Low temperature decreases intensity of light and extends time of lighting
- Light is disposable
- Colors: green, yellow, red, blue, white, orange
- Hook and string for hanging

Warning beacon MJK001

- 12 or 24 V
- noise suppressing filter
- fixation: MJK001 – magnet
MJK002 – 3 spacer studs M6
- dimensions: 153 x 145 mm

Warning beacon MJK012

- 12 V
- fixation: 3 spacer studs
- additional cover in blue color
- dimensions: 150 x 198,5 mm

Warning beacon MJK024

- 24 V
- fixation: 3 spacer studs
- dimensions: 150/123 x 204 mm

BRAND NEW

Beacon MJK501

- 12 or 24 V
- cover form firm PVC
- fixation: 3 spacer studs
- dimensions: diameter 143 x 163 mm

BRAND NEW

Beacon MJK504

- 12 or 24 V
- cover form firm PVC
- fixation: vacuum/magnet
- dimensions: diameter 133 x 177 mm

Lighting

Reflective safety vest VEST1

- For your safety in the street
- Compulsory equipment in many EU countries

Reflective vest for children VEST9

- Waterproof vest with hood and pocket at the back
- PU coated polyester
- Retro-reflective strips

Warning reflective belt VRP001

- Reflective hand-belt, yellow colour, with 3 blinking diodes
- Charging – 2x AA
- Dimensions 280 x 80 mm

Reflective triangle VTU009

- Reflective warning triangle with 9 LED – red colour
- Blue flexible backing material – PVC
- Operating temperature from -20 °C up to +40 °C
- Fixing – magnets and sucking discs
- Dimensions 600 x 500 mm
- Charging – 2x R14
- Runtime – approximately 120 hours

Warning reflective cone

Light warning cone with blinking warning halogen light at a diameter of 210 mm, charging accumulator in the cone body, height 500 mm, type VRK003

VRK001

VRK003

Folding warning reflective cone VRK004

- Telescopic lighting red cone with reflective strips
- Height 500 mm
- Space-saving – bag
- Usable during night – red LED is placed inside the cone which is lighting or blinking when switched on
- Dimensions when packed 50 x 280 x 280 mm
- Charging – 3x AAA

Warning reflective cone with heavy base

VRK007

- Height 750 mm
- Weight 6 kg
- Cone made from recycled product with retro-reflective plate class 2

VRK005

- Height 500 mm
- Weight 2,5 kg
- Cone made from recycled product with retro-reflective plate class 1

Universal collapsible pail GEN308, GEN309

Suitable for your vehicle, workshop or garage

**Reinforced plastic cloth with eyes ZUP023****Shovels and brooms**

- Plastic collapsible shovels, aluminium shovels, road brooms – basic equipment for your vehicle in accordance with ADR requirements

**Collapsible plastic shovel LOP003**

- Firm metal collapsible handle
- Transport packing – textile sack
- Suitable for use at low temperatures
- Suitable for collection of sorbents
- Colour is subject to change

**Handy fibre brush SIK006**

- Wooden body
- Natural fibres resistant to high temperature

**Shovel LOP024 and handy brush SIK002**

Product code	Product name	Dimensions	Weight	Packing
GEN308	Universal collapsible pail, 18 l - welded		0,1 kg	1 pc
GEN309	Universal collapsible pail, 18 l - moulded		0,1 kg	1 pc

SIK004	Road broom made of natural materials	132 x 36 cm	1,0 kg	1 pc

Extinguishers

Fire blanket HASR002

- Fire blanket designed for extinguishing of burning liquids mainly – fats, oils
- Two-side coated glass cloth
- Dimensions 120 x 180 cm
- Conforms with ČSN EN 1869
- Quick withdrawal from packing with the help of ribbons

Front loader for 6 kg extinguisher K RTP7

- Truck or wall mounted
- Rubber seal and polycarbonate window
- Left or right hinged mounting
- Buckle web strap
- Plastic toggle, lynch pin and hinge pins as standard
- Inner dimensions: 23 x 20 x 58 cm

Plastic front loader for 6 kg extinguisher K RTP66

- Plastic
- Inner dimensions: 23 x 20 x 58 cm

Fire stands

- Available as single/double stands
- Suitable for all portable extinguishers
- No corroding parts
- Ideal for public buildings, offices, hotels, exhibitions, etc.
- Non-slip design
- Recessed top to accommodate extinguisher
- Immediate access in case of emergency

HPST001

HPST002

Case for 2kg fire-extinguisher HPOB001

- Protection and fixation of fire-extinguisher
- Straps with clips for fixation

Fire-extinguisher in spray HSPS001

- Suitable for cars, offices, households
- Determinate for fire-extinguishing class A, B and F
- Possible to use on electrical devices under power up to 380V
- Biologically decomposable

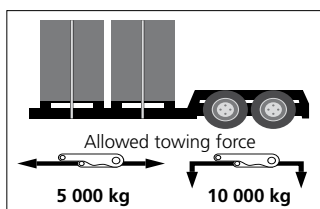

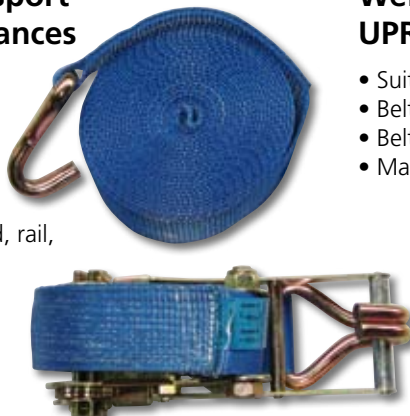

Offer of fire extinguishers you can find on pages 250 – 251.

Webbing belts

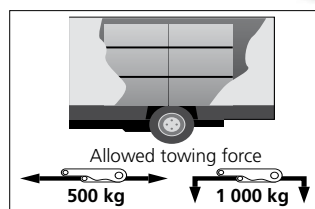

Webbing belt for transport of machines and appliances UPRN1010

- For securing of safe transport of machines, mechanical devices, equipment complexes parts etc.
- Meet the requirements for road, rail, river, sea and air transport
- Belts width 75 mm
- Standard length 10 m
- High-strength polyester

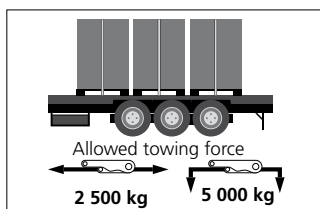

Webbing belt for low-weight cargoes UPRN0305

- Suitable for securing of low-weight cargoes
- Belts width 35 mm
- Belt length: 5 m
- Material: polyester

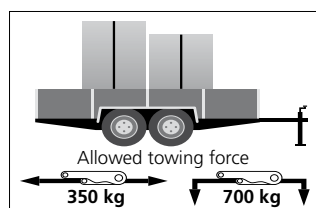

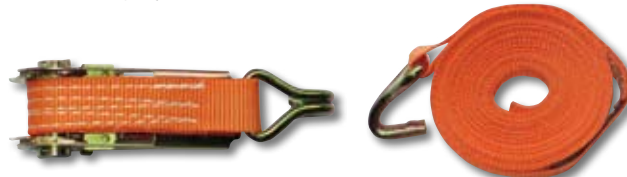

Webbing belt for transport of high-weight and large-size cargoes

- Types: UPRN0510, UPRN0508
- For high-weight and large-size cargoes
- Meet the requirements for road, rail, river, sea and air transport
- Belts width 50 mm
- Belt length: 10 m, 8 m
- Material: polyester

Webbing belt for fastening of low-weight cargo UPRN0105

- Suitable for securing of low-weight cargoes
- Belts width 25 mm
- Belt length: 5 m
- Material: polyester

Webbing belt UPR010, UPR005

- Belt length: 10 m, 5 m
- Belt length: 27mm
- Polyamide belt
- Binding force 200 daN

Product code	Product name	Dimensions (WxL)	Packing
UPRN1010	Webbing belt 10 t, set with ratchet and 2 hooks	75 mm x 10 m	1 pc

Protect yourself
and your health

- Respirators
- Protective gloves
- Work shoes
- Winter work clothing
- Fire-retardant clothing
- Protective coveralls
- Safety showers

Personal protective equipment

Products for prevention and removal of the environmental accidents,
for safe and clean workplace

First aid box

First aid box in ABS case

- High quality medical material in portable ABS case to give first aid (shock-proof material)
- First aid box is equipped with a sealing and fastening frame
- First aid boxes meet requirement of the Regulation EU 93/42/ EWG
- LSO002, LSO003 are suitable for smaller companies or organizations with normal risk level, e.g. recreationally-sporting facilities, hotels
- LSO004, LSO005 are suitable for workplaces with higher injury risk level. They are recommended for manufacturing companies, schools, workshops, food operations, car repair services

First aid box in metal case

- Suitable for administration buildings and offices

Respirators

Respirator RESP1, RESP2

Filtration semi-mask RESP3 FFP3

- Against dust particles
- Product meets the requirements of the ČSN EN 149:2001 standard

Semi-mask POLM1

- Universal size

Full-face mask with faceshield COM003

- Universal size

Box for mask SNM001

- Hanging on wall, lockable, plastic, white

FILTR1 filter (A1B1E1)
FILTR2 filter (A1B1E1K1)
FILTR3 filter (A2B2E2K2-P2)

A: protection against organic gas and vapours with the boiling point above 65 °C
 B: protection against inorganic gas and vapours
 E: protection against sulphur oxide and other sour gas and vapours
 K: protection against inorganic and organic amino derivatives
 P: protection against dust
 1: gas concentration max. up to 1 000 ppm

Protective goggles B-V33

- Universal size
- Ventilation holes

Orange safety helmet PO1466

- Helmet was tested in accordance with European norm EN 397
- Universal size

Protective sealing goggles B-V36

- Suitable for use at dusty environment, resistant to shock of particles, protective to liquid spread
- Product colour is subject to a change
- Without ventilation holes

Gloves

Gloves with creeling
PRSN001

- Sewn cotton knitwear dipped in PVC
- Against chemical risk
- Antibacterial protection
- PVC creeling for arm
- Length 65cm

Warming gloves with
creeling PRSN002, PRSN003

- Sewn cotton knitwear dipped in PVC with nitril, warming insert – cotton dry-good
- Acid and lye resistant
- Antibacterial protection
- PVC creeling for arm
- Smooth or rough palm

Non-visible gloves
REOTECH004

- Protects skin against aggressive substances and dirt
- Do not dry skin, skin can breathe
- Work with small devices is possible
- Easy washing of dirty skin
- 300 ml

Gloves STANDARD PRS001

- Protective PVC dipped gloves on cotton liner
- For manipulation at dry or damp conditions
- Applicable at industry or at home
- Can be used with paints, acids and lyes, infection materials, disinfecting materials etc.

Gloves UNIVERSAL PRU001

- Protective PVC dipped gloves on cotton liner
- Can be used with acids and lyes, infection materials, disinfecting materials etc.
- Tight grip even at wet conditions

Work gloves PRT001

- Sewn cotton canvas
- Green vinyl impregnated palm and fingers
- Stripped cotton back and cuff

Thermally resistant gloves
TOR024

- Three-layer thumb gloves, ambidextrous
- Material: ARAMID 600 g/m²
- Protection against contact heat up to 350 °C

Chemical resistance of gloves NITRIL (NBR)

Product indication	Resists to	Does not resist to
NITRIL (NBR)	• Petroleum oils, water max. 100 °C • Petrol, heating, rolling and inhibitors oils, naphtha • Good resistance against cold • Hot air up to max. 80 °C • Nitric acid up to 20 % concentration • Sulphuric acid up to 50 % concentration • Lyes up to 30 % concentration	• Hydraulic fluids • Not easily inflammable liquids on chlorine hydrocarbon or phosphate base • Aromates (e.g. benzole, toluene) • Esters, amines • Ketones (e.g. acetone) • Concentrated acids and lyes • Temperature has not to reach over +70°C up to + 80°C in sulphur saturated oils, otherwise there is the danger of curing

Fast creeling put-on

- Easy automatic hygienic creelings put-on
- High comfort
- Puts-on shoes up to size 13 (48,5)
- Maximal hygiene
- 100 pcs

Disinfection spray DERA001

- Universal, highly effective disinfection agent that reliably kills bacteria, yeast plants, microbes and mildews
- For treatment of work clothing, shoes
- Reduces sweating, eliminate disagreeable odour

Chemically resistant foot protection CON346

– We reserve the possibility to replace this product

Fire-retardant clothing

Fire-retardant brace trousers OPNK001

- Sio-Safe bib and brace trousers with fixed fire-resistant cotton lining
- Elasticated back
- Interior fabric: Modacryl / Para aramide, exterior fabric: fire-retardant (230 gr/m²) based on Modacryl cotton
- Antistatic, fire-retardant, chemically resistant
- EN 471, EN 343, class 3-3
- **Suitable for welders**

Fire-retardant fleece jacket OPNF001

- Elasticated sleeves
- Antistatic, fire-retardant

Fire-retardant underpants OPNS001

- Material composition: 60% modacryl, 40% viscose, weight: 170-180gr/m²

Fire-retardant T-shirt with long sleeve OPNT001

- Material composition: 60% modacryl, 40% viscose, weight: 170-180gr/m²

Fire-retardant vest

- Material SIOPOR FR AST
- Double sided quilted FR cotton lining
- Inside pocket
- EN 471

OPNV001

OPNV002

Fire-retardant jacket

- Material SIOPOR FR AST with fixed flame retardant cotton lining, foldaway hood in collar, mobile pocket, taped seams
- Antistatic, fire-retardant, chemically resistant
- EN 471, EN 343, class 3-3

OPNB001

OPNB002

Fire-retardant jacket OPNB003

- Material SIOPOR FR AST with fixed flame retardant cotton lining, foldaway hood in collar, mobile pocket, taped seams
- Fixed flame retardant Pyrovatex lining with inside pocket
- Antistatic, fire-retardant, chemically resistant
- EN 343, class 3-2

Fire-retardant trousers OPNK003

- Material SIOPOR FR AST with fixed flame retardant cotton lining, elasticated whist, taped seams
- Fixed Pyrovatex lining
- Antistatic, fire-retardant, chemically resistant
- EN343, class 3-2

Reflective clothing

Reflective trousers

- Material 60% polyester, 40% cotton, 230 g/m²
- High visibility clothing
- Bibpants and trousers available
- EN 471

Reflective jacket
OPRB001

- Material 60% polyester, 40% cotton, 230 g/m²
- High visibility clothing
- EN 471

Reflective T-shirt

- Material SIO-COOL with welded reflective stripes
- 100% polyester, reflective colour, reflective stripes, light, solide, supple, wicks perspiration away
- Machine washable
- EN 471

Caps with eyeshade

- Polyester cap in signal colour
- Universal size

Rain jacket OPDB001

- Material Flexothane Classic
- Foldaway hood in collar, underarm ventilation, zip and press stud closure, 2 patched pockets, high frequency welded seams
- EN 343, class 3-2

Rain trousers OPDK001

- Material Flexothane Classic
- Elasticated waist, high frequency welded seams, legs adjustable by press studs
- EN 343 3-2

Rain coverall

- Hood with touch and close fastening, zip closure under double flap with press studs, high frequency welded seams, extra deep protective wind cuffs at wrists and ankles
- Chemically resistant

Rain coat

- Material Flexothane Classic
- Foldaway hood in collar, stand-up collar, elasticated wind cuffs in sleeves, 2 pockets, high frequency welded seams
- EN 343, class 3-2

PROTECTIVE CLOTHING BASIC USAGE CHART

Microgard/Microchem garments are available for most applications. The chart below will help you select the right product however please note that responsibility for the correct choice of appropriate PPE remains the responsibility of the user.

Hazard application	Microgard/Microchem product				
	1500	2000	2500	3000	4000
Chemical manufacturing processing & handling				* 	* 
Paint stripping hazardous				* 	* 
Paint spraying (with appropriate extraction equipment (cont. iso-cyanates))				* 	
Paint spraying (non iso-cyanate)					
Chemical clean ups				* 	
Overhead pesticide/insecticide spraying			* 	* 	* 
Ground level pesticide/insecticide spraying				* 	* 
Oil based mud protection				* 	* 
Asbestos stripping					
Pharmaceutical manufacture					
Insulation laying					
Wood & metal processing					
Resin application					
Low hazard chemical protection					
Light spray of cleaning fluids					
Medical first response					
Radioactive dust					
Steam & pressure water clearing					
Tank cleaning hazardous fluids				* 	* 

Type 3 prEN 1511:1995

Liquid tight suits. Suits which can protect against strong and directional jets of liquid chemical such as spray from a burst pipe under pressure. Requires a barrier fabric (chemical tests to EN369 Permeation test) and sealed seams.

Type 4 prEN 1512:1997

Spray tight suits. Suits which can protect against saturation of liquid chemicals, where the volume of liquid builds up on the suit forming pools, resulting in rivulets. Requires a barrier fabric (chemical tests to EN 369 Permeation test) and sealed seams.

Type 5 prEN 13982 – 1 1999

Dry particle suits. Suits for protection against hazardous dust and any dry particles

Type 6 prEN 13034:1997

Reduced spray suits. Suits for protection against light spray and splashes of liquid chemicals where there is no directional spray or build up of liquid on the suit, but there may be a fine mist of droplets in the atmosphere

* Note: Ask your supplier for information on penetration time of chemicals. All information serves only as a guideline. The responsibility for the correct choice of appropriate PPE remains the responsibility of user.

PROTECTIVE COVERALL MICROGARD OK1500

Low hazard liquid spray chemical protection and asbestos protection.

Microgard is an extremely soft, lightweight and breathable coverall designed for protection against hazardous dry particles.

Protection level

- Ideally suited to Type 5 (dry particles) protection because of its particle barrier and high breathability. A breathable fabric means a no "bellow effect" is created so particles are not actively drawn in through the stitch holes, neck, zip, wrist and ankles. This is a common problem with non-breathable coveralls.
- Also suitable for many Type 6 (reduced liquid spray) applications because of its effective liquid repellency. Particularly suited for warm environments where the coveralls high breathability means it is more likely to be worn correctly.

Properties

- The use of the double layer spunbonded polypropylene improves strength, tear and puncture resistance to give a durable coverall
- The use of a twin layer of microfibre fabric, laminated between the polypropylene provides excellent particle barrier capabilities.

The fabric will filter 99,69% of particles of size 3-3,5 µm

- Approved in accordance with EN 1149.1 and it is antistatic
- The fabric is soft, light and flexible. This combined with the high breathability results in a very comfortable coverall
- Excellent liquid repellency also gives good protection against low hazardous liquid chemicals
- Microgard 1500 coveralls have a new sealable zip flat to prevent dust ingress through the zip
- Fully elasticated hood, ankles and wrist, to maximise comfort and protection

Effective protection against asbestos

Coverall Microgard 1500 Asbestos meets all the recommendations made by HSE as a part of its licence requirements. Conforms to the EN340 Category 3 Type 5 & 6.

Bellow effect

- The bellow effect is created when a coverall is made from a non-breathable material. As the wearer performs normal movements such as walking, the air inside the suit moves around. If it cannot pass through the fabric, this tends to create currents of air through the zip, ankles, cuffs and face opening. This causes any particles in the atmosphere to be drawn into the suit.

DISPOSABLE PERSONAL PROTECTIVE EQUIPMENT

Protective coverall OK235 basic type

- Material: Polypropylene; Size: L, XL, XXL
- Coverall protects against fine particles of dust and dirt

Disposable latex gloves JLR141

- Gloves are manufactured from high quality natural latex
- Suitable for short-term contact with food products (consumables)

Foot protection NBV700

- Material: tyvek, highly abrasion resistant
- Foot protection with lace for firm fastening
- For reduction of the spreading of the infectious diseases

Garment size chart

Size	Chest	Height
L	100-108 cm	176-182 cm
XL	108-116 cm	182-188 cm
XXL	116-124 cm	188-194 cm

Product code	Product name	Type	Breathability	Material	Size
OK1500	Protective coverall Microgard	6+5	breathable	two-layer PP + 2 layers of microfibre	L – XXL
RUK107	Gloves, slightly powdered			vinyl	L – XL
OK235	Protective coverall, basic type			polypropylene	L – XXL
JLR141	Disposable latex gloves			latex	S – XL
NBV700	Foot protection			tyvek	

Protective coveralls

PROTECTIVE COVERALL MICROGARD OK2000, OK2000C

Low hazard liquid spray chemical protection.

Microgard 2000 is a garment manufactured with bound seams to provide enhanced liquid protection and particle protection combined with high coefficient of the permeability of vapours and evaporations from the inside to outside. Designed for protection against limited spray of liquid chemicals (Type 6), hazardous dry particles (Type 5) and Saturation Spray Protection (Type 4).

Protection level

- Ideally suited to Type 6 (reduced spray) applications due to its excellent liquid repellency properties. It is also ideal for Type 5 (dry particle) protection applications. Now with Type 4 (Saturation Spray Protection).

Properties

- Microgard 2000 includes some of the latest fabric laminate technology and construction techniques to provide maximum strength
- Compared to competitive brands Microgard 2000 offers a significantly reduced risk of the coverall tearing in use to maximize wearer safety
- The abrasion resistance of Microgard 2000 is up to 5 times higher than those measured on competitive garments
- Microgard 2000 is supplied at a low unit cost compared to other leading brands, this combined with higher levels of durability offers users significantly reduced total workwear spend
- Bound seams to provide enhanced liquid protection
- **Approved to EN 1149.1 Antistatic**
- Non linting. Measured to ISO 9073-10 Shedding of particles >0,5 mm was measured as nil.
- **Resistance against radioactive dust**

Double bound seams

Bound seams – two raw edges of fabric are encapsulated and sewn through with a chain stitch. Binding provides enhanced liquid protection.

Photo: Fire Brigade Brno

PROTECTIVE COVERALL MICROGARD OK2500

Low hazard liquid spray chemical protection.

Microgard 2500 was the first limited life coverall in the world to use a microporous film to combine effective protection with a high level of wearer comfort.

Protection level

- Type 3 – barrier to pressurized jet spray
- Type 4 – barrier to saturation spray of liquids
- Type 5 – barrier to particulate materials and dusts
- ASTM 1671 – barrier to viruses, bacteria and blood borne pathogens
- **EN 14126 – barrier to infectious agents and biological hazards**

Properties

Microgard 2500 uses one of the highest quality microporous films available on any limited life workwear. Most microporous coveralls use films that stretch in only one direction. The Microgard 2500 film has the unique property of being stretched in both machine and cross directions during manufacture. The result is that the tensile strength and stretch is high in both directions, resulting in a more durable and hard wearing suit.

• Welded seams

- The outer layer of the fabric, consisting of a microporous sponge-like structure denies the passage of liquid molecules, yet allows the passage of vapour molecules to pass from inside to outside, so the wearer stays cool and comfortable
- Excellent liquid repellency and particle barrier for protection against low hazard liquid and dust chemicals
- Microgard 2500 coveralls are manufactured from composite material to give a strong tear and puncture resistant coverall
- High strength, flexibility and stretch for comfort and durability
- Extremely tough durable and hardwearing material in use
- Approved to anti-static standard EN 1149.1
- White in colour

Product code	Product name	Type	Breathability	Material	Size
OK2000	Protective coverall	6+5+4	Water, vapour transmission	Two-way stretched microporous film	L – XXL
OK2000C	Protective coverall	6+5	Breathable back	Two-way stretched microporous film	L – XXL
OK2500	Protective coverall	6+5+4+3	Water, vapour transmission	Two-way stretched microporous film	L – XXL
RUK031	Gloves without powder			Latex	L – XL

PROTECTIVE COVERALL MICROCHEM OK3000

Chemical protection from jet sprays and/or saturation of a wide range of chemicals. A particularly good barrier against acids.

Microchem 3000 is one of the lightest and most comfortable chemical protective garments available. Featuring soft and flexible fabric, strong welded seams and effective wide ranging chemical barrier, it remains preferred choice of industry for chemical protection.

Protection level

- Effective protection against hazardous liquid chemicals in Type 3 (pressure spray) and Type 4 (saturation spray) applications
- The use of ultrasonically welded seams and re-sealable zip flap provides impermeable seams and closures for added protection

Properties

- The fabric is a triple layer construction that combines an effective chemical barrier with softness, flexibility and a remarkable lightness. This means the wearer is well protected and achieves a level of comfort unmatched by any other coverall providing similar protection.
- Proprietary ultrasonically welded seams ensure no penetration of liquids through seams
- **The zip area is protected by a re-sealable zip flap covering well below the bottom of the zip**
- The effective chemical barrier is supported by a battery of chemical penetration tests conducted to the EN 369 permeation test
- Microchem 3000 is antistatic to EN 1149-1

PROTECTIVE COVERALL MICROCHEM OK4000

Chemical protection from jet sprays and / or saturation sprays of a wide range of acids, solvents and organic chemicals.

Microchem 4000 is a Type 3 and 4 limited life protective coverall that combines an exceptionally lightweight fabric with a high barrier to a range of hazardous chemicals. In addition, the unique design features ensure excellent protection against life threatening liquid chemicals is provided.

Protection level

- Microgard / Microchem 4000 is suitable for protection against hazardous liquid chemicals and has been tested to CE Type 3 (pressure spray) and Type 4 (saturation spray)

Properties

- The unique 5-layer fabric combines a lightweight textile feel with an exceptional barrier hazardous liquid chemicals
- Over 100 chemicals have been tested against the fabric to the EN 374-3 permeation test
- Design features such as quality ankle and wrist elastication, storm cuffing and unique double zip flap ensure a garment which is both usable and offers excellent protection

Design

- Microgard / Microchem 4000 uses the welded version of our optimum pattern, designed for maximum wearability, comfort and durability. The design includes the unique X-seam hood for a more comfortable fit around the face
- Gauntlet length storm cuffs enable a secure seal with chemical gloves at the wrists. The inner cuffs feature comfortable knitted cuffing
- The front opening features a double zip flap. The more traditional method of fastening the zip flap is to use double sided tape. However, this method is problematic because it relies on the user to ensure a positive seal between the tape and the body of the suit. On Microchem 4000 the inner zip closes the garment, whilst the outer zip ensures the zip flap is located and sealed correctly. This means a secure seal is achieved quickly and easily every time

Product code	Product name	Type	Breathability	Material	Size
OK3000	Protective coverall	4+3	Non-breathable	3-layer textile	L – XXL
OK4000	Protective coverall	4+3	Non-breathable	5-layer textile	L – XXL
RUK106	Gloves – enhanced resistance			Chlorinated natural latex, cotton lining	L – XXL

Eye-showers

Eye-showers

- Bench or wall mounting
- Straight or 45°
- Steady and strong structure made up of plastic material and a brass body epoxy-coated
- Handle provided with stopping lever
- Eye protecting rubber cup with anti-dust plug
- Aerated soft jet of water adjusted by a special internal device (according to DIN EN 246 standard)
- Stainless steel flexible hose 1,5 m long and bracket for fixing

Technical details:

Connection: G3/8 to be linked to the drinking water line

Minimum water pressure: 2 bar

Water flow: > 6 l/min. eye shower

>12 l/min. double eye-shower

Colours: red, green

Type of the eye-shower:

OS005 – Removable shower

OS065 – Removable shower with wall-mounting bracket

OS060 – Double inclined removable shower

OS042 – Double inclined removable shower with wall-mounting bracket

OS060

OS042

OS005

OS065

Eye shower OS001

- Bottle for eye-flushing
- Hose for drainage of liquid
- Polyethylene

Mobile pressurized emergency tank OS250

- Eye/body emergency shower (DIN 12 899 – UNI 9608) with soft eye protecting cup provided with anti-dust plug and very soft spout
- Supplied with flexible stainless steel hose 1,5 m long
- Stainless steel tank total capacity 18 l
- Charge with 15 l of drinking water
- Pressurized with 6 Bar air
- Supplied with pressure control gauge and pressure relief valve for accidental overcharge
- Colours: red, green

D – delivery time on agreement

Product code	Product name	Colour	Dimensions	D
OS001	Eye-shower – 500 ml		100 x 100 x 250 mm	
OS005	Eye-shower – removable	green, red	Ø 70 mm x 280 mm	D
OS042	Eye-shower – double inclined removable shower with wall-mounting bracket	green, red	2x Ø 70 mm x 350 mm	D
OS060	Eye-shower – double inclined removable shower	green, red	2x Ø 70 mm x 355 mm	D
OS065	Eye-shower – removable shower with wall-mounting bracket	green, red	Ø 70 mm x 242 mm	D
OS250	Mobile pressurized emergency tank	green, red	Ø 230 mm x 765 mm	D

Eye-showers

Body/eye-showers

- Floor mounting, wall mounting, door mounting, ceiling mounting
- Strong and steady structure made up of galvanized steel tubes, brass connections, aluminium base and pedal all epoxy-coated
- Special shower-head brass epoxy-coated, triangular flow supplied by 6 different twisting water jets
- Eye protecting rubber cups with anti-dust plug
- Hand or foot operating controls activating the eye-shower
- All controls are connected to ball-valve

Technical details:

Connection: according to the model G1 – G3/4 – G1/2 to be linked to the drinking water line

Outlet: G1

Minimum water pressure: 2 bar

Water flow: > 30 l/min. for each eye shower head
> 12 l/min. for eye-shower

Colours: red, green

Type of body-shower:

OS150 – Wall safety shower with valve

OS200 – Ceiling safety shower with valve

OS330 – Floor mounting eye wash fountain double control

OS380 – Floor mounting body/eye emergency shower double control

Wall-mounting eye-shower with bowl

- Wall mounting
- Strong and steady structure of plastic parts, brass tubes and connections, epoxy-coated, ABS bowl
- Hand operating control activated by square lever provided with identification sign
- Eye protecting rubber cups with anti-dust plugs
- Aerated soft jet of water

Technical details:

Connection: G1/2 to be linked to the drinking water line

Outlet: G1

Minimum water pressure: 2 bar

Water flow: > 12 l/min.

Type of body-shower:

OS300 – Wall mounting eye wash fountain

Product code	Product name	Colour	Dimensions	D
OS150	Wall safety shower with valve	green, red	Ø 85 mm x 450 mm	D
OS200	Ceiling safety shower with valve	green, red	Ø 85 mm x 480 mm	D
OS330	Floor mounting eye wash fountain double control	green, red	Ø 70 mm x 242 mm	D
OS380	Floor mounting body/eye emergency shower double control	green, red	Ø 230 mm x 765 mm	D
OS300	Wall mounting eye wash fountain	green, red	Ø 260 mm	D

D – delivery time on agreement

Equipment
for all Integrated
Rescue System
branches

- Containers
- Tents and accessories
- Decontamination means
- Oil skimmers
- Flood-control means
- Non-sparking tools
- Boats

On demand we can supply you with the containers with the equipment for removal of chemical and oil accidents, fire containers designed for transport of the technical devices intended for rescuing persons from collapsed buildings, falls, landfalls, serious car accidents, removal of windstorm disasters and further extremely demanding rescue actions. We are also able to equip the rescue vehicles with required accessories in accordance to your requirements.

Inflatable tents

- Flooring 10 – 50 m²
- Taped frame air tubes
- Variability of usage (accommodation, feeding, showering etc.)
- Standard delivery – tent, transport pack and bag with accessories containing anchoring pegs, hammer and repair set
- Colour of roofing – red and orange, other colour on special demand
- Number of windows according to the customer's need

Tent accessories:

- Inner liners
- Compressor
- Generating set
- Heating
- Air conditioner
- Pads, mats
- Plastic flooring
- Sanitary equipment
- Kitchen and other internal equipment
- Open and closed tanks

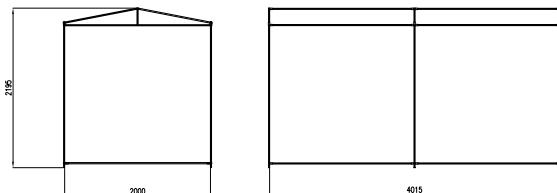

Emergency shelter REO611

- Light, firm construction from steel profiles
- Self-supporting skeleton string joined
- Durable covering from transparent PE foil
- Foil reflects 85% of solar radiation, resists to rain and climatic influences
- Two ventilating holes in gable of shelter with net against insects

BRAND NEW

Use:

- Emergency accommodation
- Material storing

Technical information:

Inner dimensions in unfolded state: 2 x 4 x 2,2 m
 Dimensions in folded state: tube Ø 0,4 m – length 2,1 m
 Weight: 46 kg
 Assembling time: 40 min / 2 people

Please, write us to trade@reoamos.cz for more information.

Accessories for emergency containers and tents

Air conditioning unit REOPS061

- Very high cooling capacity
- Refrigerant line, 3 m long, can be detached by a quick coupling system
- Practical electronic system for operation with digital display of temperature and operating mode
- Programmable 24-hour timer function
- Air outlet with swing function
- Removable air filter
- Gradually adjustable air outlet direction
- Universal operation
- Compact design requiring minimum space for setup
- Standard infrared remote control

Technical parameters

Cooling capacity:	4,8 kW
Air volume:	680 m³/h
Fan stages:	3
Energy efficiency class (cooling):	B
Operating range (room size):	cca 140 m³
Sound pressure level per stage, indoor unit:	48/50/52 dB (A)
Sound pressure level, outdoor unit:	51 dB (A)
Power supply:	230/1~/50 V/f/Hz
Total power input:	1,61 kW
Interconnecting pipework, length:	3000 mm
Dimensions indoor unit h/w/d:	695/470/335 mm
Dimensions outdoor unit h/w/d:	490/510/230 mm
Weight indoor/outdoor unit:	35/13 kg

Heating aggregate REOPS071

- Built-in oil burner with a high-pressure system for extra light heating oil or diesel
- Stainless steel combustion chamber
- Integrated oil tank
- Easy to transport
- Automatic controls with thermostat connection
- Connection of hot air tubes for optimum air distribution
- Easy service and maintenance

Technical parameters

Nominal heat load max.:	25 kW
Nominal heat power:	22,5 kW
Air volume:	1.080 m³/h
Fuel:	heating oil or diesel fuel
Fuel consumption max.:	2,4 l/h
Tank volume:	40 litres
Tank-heating:	built-in
Power supply:	230/1~/50 V/Hz
Length:	1 265 mm
Width:	470 mm
Height:	685 mm
Exhaust connection Ø:	150 mm
Weight:	68 kg

Automatic water-station REOPS081

- Water supply for tent distribution system
- Automatic unmanned operation

Technical parameters

Engine power:	230 V/50 Hz 1100 W
Head of delivery max.:	45 m, 4,5 bar
Delivery output max.:	5100 l/hod.
Suction head max.:	8 m
Transferred liquid temperature max.:	35 °C
Driving-gear:	4 stages
Delivery pipe diameter:	1"
Weight:	11 kg

Water heater REOPS001

- Low-pressure water heater – warm water supply
- Suitable for heating of water for decontamination

Technical parameters

Power supply: 230 V

Fuel: diesel

Heating power:

61000 kcal/h / 71 kW

Weight: 78 kg

**Blower REOPS011**

- Blower for inflation of tents
- Two outputs
- High performance
- Pressurize and exhaustion inputs
- Power supply: 230 V

**Sludge pump REOPS021**

- Sucking of waste water from tent distribution system
- Floater for automatic start
- Stainless steel casing, stainless steel shaft

**Technical parameters**

Power supply: 230 V

Electric input: 1100 W

Size of solid particles in liquid max.: 35 mm

Recommended amount max.: 15 500 l/hour

Internal tent lighting REOPS031

- Fluorescent tube
- Fastening to tent loops

**Technical parameters**

Tube: 2 x 55 W

Protection: IP 65

Dimensions: 693 x 190 x 127 mm

Weight: 3,65 kg

Power supply: 230 V

Table with double-sink REOPS041

- Work desk: 700 x 1200 mm
- Stainless steel double-sink
- PP tank 50 l for waste water with a possibility to place a pump

**Chemical toilet REOPS051**

- Two separated reservoirs

Technical parameters

Weight: 4,84 kg

Waste tank: 20 l

Width: 35 cm

Depth: 43 cm

Seat height: 38,5 cm

Flush away number: 50

Portable lighting system

- Telescopic tripod + lighting balloon
- Uniform lighting without dazzlement and sharp shadows
- Luminous intensity from 33 000 lumen – halogen bulb up to 380 000 lumen – discharge tube HMI
- Required generator power 230 V: from 2 kW up to 6 kW

*Please, write us to
trade@reoamos.cz
for more information.*

Accumulator lamp ELSA001

- Zone 2, II 3G EEx nL T3
- Protection: IP 65
- Accumulator: 4,8 V, 1,8 Ah
- Bulb: XENON, 4,8 V/5,3 W
- Lighting period: 100 min.
- Charger: 230 V, 12 V
- Hanging clip
- Remarkable colour

Steel telescopic tripod OTS001

- Compound height: 1,3 m
- Max. height: 3,5 m
- Halogen reflector 230 V, 500 W
- Tripod
- Wide tipping bases
- Surface finish: zinc coating

Battery powered headlight

- Lighting set powered from integrated battery
- Source of light 4x fluorescent tube, output 36 W
- Lighting power 11 600 lumens
- Batteries: 12 V, 24 Ah, charging time: 6 hours
- Dimensions: 510 x 345 x 110 mm
- Weight: 19 kg
- Height: 1,5 – 3,5 m

D – delivery time on agreement

Product code	Product name	Weight	Packing	D
ELSA001	Accumulator lamp		1 pc	D
OTS001	Steel telescopic tripod	11 kg	1 pc	D
OTS002	Battery powered headlight	19 kg	1 pc	D

Fire-fighting container for transport of IBC containers with frother

Frame of container is formed by I profiles with steel wire and integrated separating steel walls according to DIN 14505. In frontal part of container is space for accessories storage closed by aluminium gate. Construction in rear part of container protects from falling of IBC containers during loading. Floor is waterproof antislipping plywood or steel „tear“ plate. IBC containers are protected from falling by continuous webbing. All steel parts of container are clast cleaned and heat galvanized after welding.

Container has self-withdrawal system of foaming agent for IBC containers. That brings economical and qualitative benefits because into classical cisterns for foaming agents is after use often replenished new foaming agent into older one which can have different characteristics. This can cause quality decrease of whole volume.

- for storing 2 x 4 pcs of IBC containers with capacity 1000 liters
- hollows are treated with anticorrosive solution

Powder fire extinguisher

- Allows fast and efficient liquidation of fire
- For use in households, workshops, offices, holiday centers, garages, cars
- Suitable for use on solid substances, liquids and substances becoming liquid phase

HASP1F

Extinguishing ability: 5A, 21B, C
 Weight of extinguishing agent: 1 kg
 Extinguishing agent: FUREX ABC STANDART
 Pushing mean: nitrogen
 Temperature range of use: -30 °C ÷ 60 °C
 Maximal weight: 1,8 kg

HASP4F

Extinguishing ability: 21A, 113B, C
 Weight of extinguishing agent: 4 kg
 Extinguishing agent: FUREX ABC 40
 Pushing mean: nitrogen
 Temperature range of use: -20 °C ÷ 60 °C
 Maximal weight: 6,8 kg

HASP2F

Extinguishing ability: 13A, 89B, C
 Weight of extinguishing agent: 2 kg
 Extinguishing agent: FUREX ABC PLUS
 Pushing mean: nitrogen
 Temperature range of use: -30 °C ÷ 60 °C
 Maximal weight: 3,8 kg

HASP6F

Extinguishing ability: 27A, 183B, C
 Weight of extinguishing agent: 6 kg
 Extinguishing agent: FUREX ABC STANDART
 Pushing mean: nitrogen
 Temperature range of use: -30 °C ÷ 60 °C
 Maximal weight: 9,9 kg

Powder mobile fire extinguisher

- For use in refineries, hard industry or in place where oils needs to be extinguished

HASP50F

Extinguishing ability: A, B, C
 Weight of extinguishing agent: 50 kg
 Extinguishing agent: ABC FAVORIT STANDART
 Pushing mean: nitrogen
 Temperature range of use: -20 °C ÷ 60 °C
 Maximal weight: 85 kg

Water fire extinguisher

- For extinguishing of solid flammable substances bursting with flame or broiling (wood, paper, straw, coal, textile etc.)
- For use in functional buildings, storages, offices, cottages
- Anti-freeze modification

HASV9L

Extinguishing ability: 13A
 Weight of extinguishing agent: 9 l
 Extinguishing agent: water + potass
 Pushing mean: air
 Temperature range of use: -20 °C ÷ 60 °C
 Maximal weight: 17,3 kg

Product code	Product name	Weight of extinguishing agent	Weight of packing	Packing
HASP1F	Powder fire extinguisher	1 kg	1,8 kg	1 pc
HASP2F	Powder fire extinguisher	2 kg	3,8 kg	1 pc
HASP4F	Powder fire extinguisher	4 kg	6,8 kg	1 pc
HASP6F	Powder fire extinguisher	6 kg	9,9 kg	1 pc
HASP50F	Powder fire extinguisher – mobile	50 kg	85,0 kg	1 pc
HASV9L	Water fire extinguisher	9 l	17,3 kg	1 pc

Foam fire extinguisher

- For extinguishing of solid flammable substances bursting with flame or rotting (textile, straw, rubber, wood, paper) and liquid substances bursting with flame (petrol, oil, benzole, lacquer, alcohol)
- For use in hard industry, chemical industry, refineries
- Environment friendly
- High extinguishing efficiency for fire class A and B

HASPE6P

Extinguishing ability: 8A, 113B
 Weight of extinguishing agent: 6 l
 Extinguishing agent: water solution with 3% STHAMEX AFFF
 Pushing mean: nitrogen
 Temperature range of use: +5 °C ÷ 60 °C
 Maximal weight: 9,9 kg

HASPE9

Extinguishing ability: 13A, 183B
 Weight of extinguishing agent: 9 l
 Extinguishing agent: water solution with 3% STHAMEX AFFF
 Pushing mean: CO₂ in gas cartridge
 Temperature range of use: +5 °C ÷ 60 °C
 Maximal weight: 14,5 kg

Fire extinguishers CO₂

- Suitable for extinguishing in laboratories, electro devices and various control rooms
- No rests of extinguishing agent during extinguishing, ideal for extinguishing devices of fine mechanics, burst or electric engines and its additional parts as self-starters, carburetor, power switches etc.)
- In accordance with European bylaws

HASP2P

Extinguishing ability: 21B, C
 Weight of extinguishing agent: 2 kg
 Extinguishing agent: CO₂
 Testing pressure: 320 bar
 Temperature range of use: -30 °C ÷ 60 °C
 Maximal weight: 7,4 kg

HASP1x30

Classes of fire: B, C
 Weight of extinguishing agent: 30 kg
 Extinguishing agent: CO₂
 Temperature range of use: -30 °C ÷ 60 °C
 Maximal weight: 90 kg

HASP5F

Extinguishing ability: 89B, C
 Weight of extinguishing agent: 5 kg
 Extinguishing agent: CO₂
 Testing pressure: 315 bar
 Temperature range of use: -30 °C ÷ 60 °C
 Maximal weight: 13,1 kg

HASP2x30

Classes of fire: B, C
 Weight of extinguishing agent: 60 kg
 Extinguishing agent: CO₂
 Temperature range of use: -30 °C ÷ 60 °C
 Maximal weight: 163 kg

Product code	Product name	Weight of extinguishing agent	Weight of packing	Packing
HASPE6P	Fire extinguishers –foam	6 l	9,9 kg	1 pc
HASPE9	Fire extinguishers –foam	9 l	14,5 kg	1 pc

HASP2x30	Fire extinguishers CO ₂	60 kg	163,5 kg	1 pc

Decontamination shower REODS001

- Ergonomic solution suitable for decontamination of all types of protective coveralls
- Maximal operating life at minimal maintenance and repairs
- Taped air tubes – high tightness and durability
- Two doors that enable to keep a procedure “dirty entrance” – “clean exit”
- Integrated window from transparent foil and built-in sleeves as standard
- Water distribution consists of five nozzles that enable perfect covering of whole body with decontamination solution
- Hand shower for showering of hardly reachable places
- Hand brush for cleaning of heavy impurities
- Water outlet with “C” coupling and cover
- Rolling doors – width 1000 mm
- Delivered with repair kit and anchoring pegs
- External dimensions: 2000 x 2000 x 2500 mm
- Weight of packed shower: 35 kg (including anchoring set)

Accessories for decontamination shower:

- Inner liners
- Membrane pump
- Dust-control matting Oct-O-Mat
- Decontamination basin
- Continuous water heater
- Compressor – pump drive
- IBC container, water tank

Small decontamination set REOMDS001

- Set for basic decontamination of casualties and materials
- Pneumatic pump with a connection to truck air pressure distribution
- Compact size, lightweight decontamination basin with inflatable construction
- Quick installation and easy operation

Set composition:

- 1/ Decontamination basin REODS014-250
- 2/ Pneumatic pump REODS022 with control unit and set of pneumatic hoses
- 3/ Hand nozzle with controlled water jet
- 4/ Set of hoses for water supply and water drain
- 5/ 2 pcs of PE 120 l barrels with lids PLS120
- 6/ 4 pcs of mats RCO100

Optional accessories:

- 1/ Additional pneumatic pump with set of hoses for simultaneous transferring of clean and contaminated water
- 2/ Reduction valves 200 and 300 bar (LVH0071A, LVH0071A300) for pump drive from a bottle with pressure air
- 3/ Continuous diesel water heater REOPS001
- 4/ Generating set 10 kVA ECO010
- 5/ IBC 1000 l container KN1000

Detergent injection system REOPDS001

Dosing device, dose of solution is suctioned in required proportion with regard to the flow through the dosing device. The dose of injected solution is always proportional to the water volume that flows through the dosing device. The dosing does not depend on flow and pressure changes.

- Accurate proportional dosing
- Operates without electric energy supply
- Dosing is externally adjustable
- Low pressure loss
- Operation even at low flow and pressure
- Easy operation and maintenance
- Dosing scale easy legible
- Homogenous mixture at output
- Wide range of concentrations

Operating pressure

0,3 – 6 bar

Dosing

1 – 5 %

Concentration

1:100-1:20

Self-supporting water tank SN002

- Manufactured from PVC coated fabric
- Inflatable border
- Discharge cap
- Covering sheet from PE fabric, UV resistant on demand
- Temperature variation resistance
- Easy portable, lightweight maintenance

Usage of the water tank:

- Reservoir of industrial water or other liquids – during fire, removal of environmental accidents, in agriculture
- Swimming bath

Container COMBO AQUA

CONTAINER FOR MAKESHIFT AND EMERGENCY WATER SUPPLY

- Foldable plastic container
- More containers can be connected together to create sufficient water reservoir
- Stackable up to 5 high
- Minimal costs for storage and maintenance
- High flexibility and mobility
- Meets the highest hygienic standards
- Flexible liner bag is placed inside the Combo and can be filled with the liquid
- Internal volume: 1000 l
- 1155 x 1155 x 1132 mm (Ext. dimensions including lid)
- 1155 x 1155 x 467 mm (Folded container)

Flexitanks

- One layer (easy repair, PES)
- Multilayer tank for transportation and storage of liquids, material: polyethylene and polypropylene
- Not for use with hazardous substances in accordance with ADR and RID
- Colour: white
- Masking net can be delivered at your request
- Certified for contact with food (disposable use)
- Reusable (water for industrial purposes)
- Environmentally friendly product, easy recyclable
- Easy maintenance
- Capacity: 0,5 – 200 m³ for storage, 18 – 24 m³ for transportation

Mobile oil separator REO100 was used for a treatment of the oil phase from water surface inside the catch lagoons during the removal of the oil pipeline Družba breakdown in Čáslav on 9. 2. 2005.

Oil skimmer OELA III

Oil skimmer advantages:

- Versatility of application on still or moving water
- Easy transport - compact size
- Can be used successfully with both vacuum or with peristaltic pumping systems
- Simple operation, failure-free operation
- Infinitely variable adjustable flow
- Flow rate 100 – 400 l/minute
- Floating hose – 10 m long

Mobile oil separator REO100

- Mobile oil separator designed for rough ground
- Height-adjustable towing equipment (connecting rod, ball)
- Overrun brake system
- 2 x gravitation chamber, 2 x filtration chamber
- Automatic collection of oil substance from the gravitation chambers
- Accessories for oil collection is included
- Stable supporting feet
- High efficiency: outlet < 2,0 mg of oil substance – certified by accredited laboratory

Optional accessories:

Oil skimmer, pump, generating set, hoses, replacement filter media, textile NTRF, collecting barrels, grounding set, EX extensions cable

Oil skimmer REO AMOS II REO765

Oil skimmer advantages:

- Automatic immersion of the collecting hole
- Skimmer without moving and rubber parts
- Balancing weight – easy adjustment of operation with any suction hose
- Flow: 5 – 200 l/min.
- Collecting edge length: 1 000 mm
- Low price

We are able to produce the oil skimmer according to your needs

REO765	Oil skimmer REO AMOS II	L 100 x W 50 x H 35 cm	1 pc	D

Barrel filter NEL SF001

- Cleaning of water contaminated with oil substances
- High capacity of filter
- Easy replacement of filter
- Reached NEL concentration: 2 mg/l at filter outlet
- Easy operation

Sludge pump REOPS021

- Sucking of waste water from tent distribution system
- Floater for automatic start
- Stainless steel casing, stainless steel shaft

Technical parameters

Power supply: 230 V

Electric input: 1100 W

Size of solid particles in liquid max.: 35 mm

Recommended amount max.: 15 500 l/hour

Submerible sludge pump PKCT20

- Efficient branded pump
- For quick pumping for flooded places
- Works with strongly polluted water

Technical information:

Max. flow 2200l/min, Head of delivery 15 m, Grain passing – diameter 15 mm, Size of connection R 4" ("A"), MD electronics, Voltage 400 V, Output 5,3 kW, Weight: 47 kg including cable, Dimensions: 26 x 57 x 47 cm, Cable 20 m HO 7RN-F.G., Nominal current 9,3 AV – for hot water

BRAND NEW

D – delivery time on agreement

Product code	Product name	Dimensions	Weight	Packing	D

PKCT20	Submerible sludge pump	26 x 57 x 47 cm	47,00 kg	1 pc	D

Submerible sludge pump

Submerible sludge pump PKC50105

Pump is intended for pumping of polluted waste water, feaces and sludges with content of dry residue max 10% of gravimetric parts containing small piece substances like paper, sewages from streets, smaller quantity of soil, ash, sand etc.

Suitable for use in family houses, cotages, gardens etc.

Technical information:

Qmax 10 l/s
Hmax 11,5 m
U 400 V
Tmax 40 °C
weight 20 kg with 15 m of cable

BRAND NEW

Submerible sludge pump PKC03241

Pump is intended for pumping of clean and polluted water of high density e.g. feaces, sludges with content of small and fibrous parts up to diameter of 20mm. Pump can be also used for exhaustion or filling of reservoirs, pumping of water from wells, swimming pools, exhaustion of water from flooded areas, for watering etc. Pump has inbuilt overcurrent and heat protection (klixons) - no need of special protection

Technical information:

Qmax 2,8 l/s
Hmax 9 m
U 230 V
Tmax 40 °C
weight 11,5 kg with 10 m of cable

BRAND NEW

Submerible sludge pump PKC50951

Pump is intended for pumping of waste water, feaces and raw sludges with content of dry residue max 14% of gravimetric parts containing non abrasive pieces and short fibrous substances. Pump is suitable mainly for sewerage plants, pumping from surfaces and subgrade sources (rivers, lakes, swimming pools, wells etc.) Intended for universal using for reason of sufficient output, weight and usable qualities.

Technical information:

Qmax 6 l/s
Hmax 10,8 m
U 400 V
Tmax 40 °C
weight 27 kg with 10 m of cable

BRAND NEW

Submerible sludge pump PKC65130

Pump intended for pumping of water polluted by content of mud, clay, sand, small stones and similar substances with abrasive effect with content of max 30% weight of admixture. Pump can be used in size limited spaces thanks to discharge branch which doesn't exceed outer dimension of the pump. Max. diameter of the pump is 263 mm.

Technical information:

Qmax 6,6 l/s
Hmax 13,3 m
U 400 V
Tmax 40 °C
weight 32 kg with 15 m of cable

Peristaltic pump, generating set

Peristaltic pump PCC001

- Transfer of water polluted with oil substances
- Transfer of water polluted with mechanical particles
- Does not generate water emulsions of hazardous substances
- Pump for collection of the oil-based substances on water
- Pump can run free
- High chemical resistance
- Pump power with electric motor is controlled by frequency converter within a wide range
- Frequency converter provides smooth and continuous start of a pump engine
- Explosion proof pump electromotor

Engine variants: electric, petrol, hydraulic

Electric engine revolutions: 200 – 1500 revolution per minute

Power: 2000 – 20 000 litres / hour

Suction height: max. 8 m

Generating set

Power: 10 kVA

Manual start

Sockets: 3x 230 V, 1x 400 V

Circuit breakers, earth-leakage circuit-breakers, insulating status guard

Dimensions: L 900 x W 520 x H 550 mm

Weight: 115 kg

Engine: 480 cm³, 16 k 3600 rev/min., 78 dB, consumption 3,9 l/h

Tank: 18 l

Ground cable + peg ZKK001

- Length 510 mm
- 3x grounding screws with wing-nut M8
- T-shape with sharp point at bottom part
- 10 m of cable Ø 16 mm – 2 with hook terminal for nut M8

D – delivery time on agreement

Dry suit PSO001

Dry suit and quality underwear ensure perfect thermal protection even in the most severe water conditions. Dry suits are suitable for fire-fighters, rescuers, water workers and other professionals who can work close to the water environment.

- Double watertight neck, wrist and ankle seals
- Inner braces and pocket
- Seat fit cut
- Dynat watertight zipper
- Material Oxford 210 with coating
- Dupratex reinforcements on knees and sitting part
- Size: S, M, L, XL, XXL

Neoprene boots PNB005

- Reinforced tip toe, heel and boot vamp
- Heavy duty boots with zipper
- 5 mm thick neoprene with inner layer
- Size: 4 – 13

Neoprene gloves PRN001

Resistant neoprene gloves with pre-folded fingers and PU antislip dotted palm.

- PU dotted palm provides firm grip
- Size: XXS, XS, S, M, L, XL

Brest-boots

Flood-control barrier PPB015 – rapid and easy barrier building

Barrier is comprised of a series of engineered, interlocking tubes that when filled with water form a barrier.

Barrier can be configured in a wide variety of shapes and sizes. Height from 45 cm to 9 meters.

Modular and simple to use. Each 15 m long segment weight only 27 kg.

The segments are easy portable even in rough terrain.

With proper care the system can be reused. The segments resist climatic effects and UV radiation.

After the flood the equipment is simply drained, cleaned and rolled up for future use.

The barrier can be temporarily repaired with duct tape or permanently repaired with an adhesive patch.

We recommend 8 straps for connection of three 15 m long barriers.

For filling of flood control barrier it is necessary to buy fill adaptor kit.

D – delivery time on agreement

Product code	Product name	Dimensions	Weight	Packing	D
PPB015	Flood-control barrier	15 m	27 kg	1 segment	D
PPBP001	Strap for connection of flood-control barriers			1 pc	D
PPBP002	Fill adaptor			1 pc	D

Polypropylene two-chamber flood control bags

Our special two-chamber bags are incomparably more efficient than classic method of barrier building. They are used to improve flood control prevention in municipalities, towns, factories and companies and help to protect high material values.

Finished dam barrier

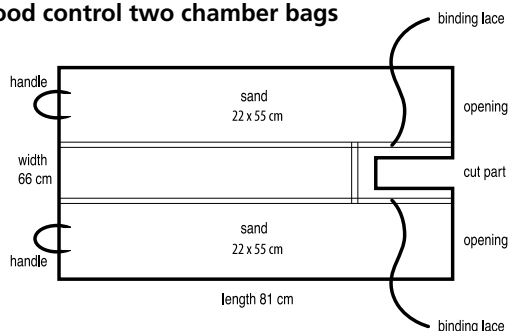

Technical specifications:

- Sewn bag – double seam between chambers
- Bag fabric – approximately 75 g/m²
- Inner dimensions – 2 tubes 220 x 550 mm
- "U" cut between the chambers
- Two binding laces
- Recommended filler – sand
- Approximately 70 bags needed to build 1 m³ of the dam
- The bags are also produced with flap – firm longitudinal bond

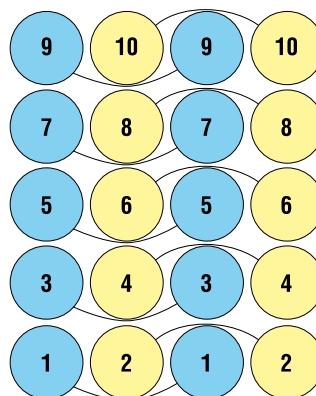

Advantages of application:

- Dam can be built by untrained staff
- Very good dam bond
- Easy handling
- Can be used repeatedly
- Ecologically friendly bag material
- Easy transport of filled bags

Flood control two chamber bags

Dam structure when building flood control barrier

Bags have two chambers which have to be filled with sand. There is a partition between the chambers. It enables crosswise and lengthwise dam construction - dam is very stable.

The material of bags is not UV stable. Bags are decomposed in 3 – 4 months.

Product code	Product name	Dimensions	Packing
PPP150	Polypropylene two-chamber flood control bag	66 x 81 cm	1 pc
PPPZ150	Polypropylene two-chamber flood control bag with flap	66 x 81 cm	1 pc
REO150	Bag filling device	60 x 40 x 160 cm	1 pc
PPPJ01	Polypropylene bag (for filling with sand)	56 x 110 cm (+/- 10%)	1 pc
PPS071	Plastic thick-walled bag	55 x 100 cm	1 pc

Mobile industrial dehumidifiers

Thanks to sturdy construction and resistance against damage the dehumidifiers are suitable for use in construction industry during construction and renovation works (plaster and painting drying), for demanding operation in industry but also for wood drying. They provide ideal help during removal of the flood damages, water pipeline accidents, dampness in cellar vaults, archives, warehouses etc. With the help of the dehumidifiers you can keep suitable relative dampness at room and prevent from undesirable effects of the dampness as mildews, wall damage or even damage of the wall construction by influence of the dampness. The air from the room is sucked into the dehumidifier through a filter. Water from the air precipitate out on cold active surface and the air after warming on warm surface is exhausted back to the room. This process is more efficient than heating and ventilation. The dehumidifiers have very easy control, they are equipped with the operation indicator, protective system of the full tank. Dampness regulator enables setting of the relative dampness that is maintained by the apparatus. The dehumidifiers REOV041, REOV061, REOV091, REOV121 have built-in heating element that can increase the efficiency at lower temperatures or can be used for heating.

REOV040

REOV090

Interior dehumidifiers REOM320

The dehumidifiers are used in all places where the moisture must be reduced in rooms and where it is necessary to prevent from consequent economic losses (e.g. mildews).

The dehumidifier is mainly used for drying and dehumidifying of:

- Reception rooms, bedrooms, cellars
- Laundry, bathrooms
- Recreation rooms, caravans

For permanent drying of:

- Warehouses, archives, laboratories
- Bathrooms, washrooms, cloakrooms

Dehumidifying performance: 24 l/day
(at 30°C and 80% relative humidity)
Air volume: 190 m³/hour
Power input: 620 W / 3,6 A
Tank with condensate: 5,5 l
Operational range: 40 – 100 %
Moisture regulation: 0 – 100%
Weight: 21 kg
Wheels: 4
Dimensions: 314 x 390 x 612 mm
Overflow control: yes

Interior dehumidifiers REOM100

Thanks to an up to date technology it is possible to develop a powerful appliance without a compressor and refrigerant. Especially in a temperature range below 20°C the REOM100 is very effective. Based on its compact design and very low weight the dehumidifier is easy to carry and ready for an immediate use. Finally the high quality standard will be underlined by a good instrumentation and modern optic. The built-in ionic-generator and air-filter produce a better airquality in your environment.

Dehumidifying performance: 8,7 l/day
(at 27°C and 80% relative humidity)
Air volume: 150 m³/hour
Power input: 340 a 560 W / 2,6 A
Tank with condensate: 3 l
Operational range: 40 – 100 %
Moisture regulation: 45 – 100 %
Weight: 6,5 kg
Dimensions: 300 x 195 x 500 mm
Overflow control: yes

Do not wait till it is too late. Equip yourself in time!

Screen CN001

- Screens a crash site against curious watchers
- Rapid deployment – it takes only approx. 1 minute to erect the screen
- Screen can be anchored to withstand windy conditions
- Folding construction
- Firm and flexible foil
- Transport bag
- 4 panels 1,80 x 1,80 m

Covering sheet

- Firm, waterproof plastic fabric
- Holes in border
- Fastening cords
- High chemical resistance
- Resistant to climatic effects
- Colour is subject to change
- Dimensions: 2 x 3 m, 3 x 4 m, 4 x 5 m, 4 x 6 m, 5 x 8 m

Disinfection mat – REO367

REO 367 is manufactured from absorptive disinfective mat with rubber overrun edges.

- Compact, unshatterable and promptly applicable
- Designed for disinfection and cleansing of wheels, soles and also for disinfection of walking animals
- Disinfection mat can be laid loose on concrete or asphalt respectively into tanks
- Product is health unobjectionable, with excellent chemical resistance
- We can supply you with the standard size mentioned below but we are able to produce also shorter or longer mats depending on your needs

Disinfection tank for shoe disinfection REO366

- Stable
- Mechanically and chemically resistant
- Wash off full height of the sole

D – delivery time on agreement

Plastic hose ramp PK001

- Protection of cables, hoses that lie across the roadway
- Install on the road without anchoring
- The system consists of main rounded ramp and insert part PKV001 (system can be used without insert part)
- Weight: 24,6 kg

Insert part for hose ramp PKV001

- Insert part for cables and hoses
- Weight: 4,8 kg

Hose ramp PKP001

- Strong, stable rubber construction
- High chemical resistance to acids
- Two channels for hoses "B"
- Allowed load 10 t / axle
- Reflective stripes make the ramp more visible
- Connectors for linking more ramps together
- Oil substances can damage ramp material
- Dimensions: 830x300x105 mm, channel 90x90mm
- Weight: 14 kg

Hose ramp REO369

- For passing over hoses and cables
- Width 700 mm
- Height 105 mm
- Tunnel dimensions: 250 x 80 mm
- Handles
- Weight 55 kg/pc
- Varnished
- Max. axle weight: 2 t
- Max. crossing speed: 1 km/hour
- Supplied with 2 pcs of rubber matting 50 x 75 cm

Hose ramp PK002

- 5 cable ducts – 3 of them are suitable for hose as used by the fire brigade (diameter 62mm)
- Suitable also for power cables
- Interlocking lid
- Load bearing: Approx 6 tons per typical tire
- Dimensions: 70 x 69,6 x 8,7 cm
- Weight: 21,4 kg

Non-sparking safety tools

The tools are non-sparking, non-magnetic and corrosion resistant. The tools are suitable for use in areas where a high risk of fire or explosion exists or in areas where steel tools cannot be used due to their magnetic properties. The tools are manufactured from special alloys of copper, beryllium, aluminium bronze and other metals.

The widest range
of spill containment booms

- Spill containment booms for high and low water flow speed
- Metal spill containment booms
- Inflatable spill containment booms
- Dam barrier

Containment booms and barriers

Products for prevention and removal of the environmental accidents,
for safe and clean workplace

Spill containment booms

Lightweight containment boom REO756 for high water flow speed with telescopic rods

- Ideal containment boom for intervention of fire rescue departments
- Substitution for inflatable booms
- For watercourses with high water flow up to 1,2 m/s
- Unique boom which fully works in length 220 m with water speed 0,8 m/s
- It can be modified according to your requirements
- High hardness of boom
- Easy joining of segments through plastic telescopic rods
- Additional accessory: anchoring components, floating rope with reel, snap hooks, chains
- Easily foldable
- Boom is automatically stabilized after placing on water thanks to the weight on telescopic rods
- Offers low resistance and can be installed without use of mechanization means

The test of patented spill containment boom REO756 took place on 6th of May 2009 in Hřensko together with fire rescue department, volunteer fire brigade and basin of Labe.

Containment boom was installed manually without use of mechanization. It was fully stable and functional in flowing 0,8 m/sec. The widest river till now was over bridged with containment boom REO756. Thanks to this Czech record was created in length of installation of containment boom – 220 m.

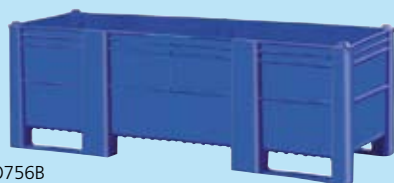

Plastic box for spill containment booms

- Box for storage of 50 m long REO756
- All-plastic design HDPE
- Safe storage of the spill containment boom

Technical parameters:

- External dimensions: 2160 x 800 x 740 mm
- Internal dimensions: 2080 x 720 x 600 mm
- Capacity: 960 l
- Load capacity: 960 kg
- Weight: 49 kg
- Stacking load capacity: 4000 kg

REO756B

D – delivery time on agreement

Product code	Product name	Dimensions	Packing	D
REO756	Lightweight containment boom for high water flow speed with telescopic rods	5,5 m	1 pc	D
REO767	Accessory set for containment boom		set	D
REO765	Oil skimmer REO AMOS II	L 100 x W 50 x H 35 cm	1 pc	D

REO763	Anchoring set for soft ground (anchoring component, chain, Chain link "rapid", snap hook)		set	D
REO756B	Plastic box for spill containment booms	216 x 80 x 74 cm	1 pc	D

Spill containment booms

Lightweight containment boom REO758 for high water flow speed

- Flexible unsinkable float, plastic rods and galvanic zinc coated weight
- Standard float length – 5 m
- High durability
- Very good storage ability and long shelf life
- Instant application
- Easy linking of particular segments by means of plastic rod
- Designed for water streams with high flow speed (up to 1,2 m/s)
- Patented construction provides very low weight and easy handling
- Resists to climatic effects for a long time
- Containment boom will be manufactured according to your requirements
- Optional accessories also available at your request: anchors, anchoring chains, links, snap-hooks, rings, clamps

Metal containment boom REO777 designed for high water flow speed

- Manufactured from galvanized steel sheet
- Unsinkable float
- Hot-dip galvanized metal connectors
- Segment length – 4 m
- Segments are equipped with handles
- Rubber seals protect from oil spills penetration between linked segments
- Special design which secures excellent containment of the hazardous liquids on water stream with high flow speed
- Metal construction withstands heavy mechanical stress
- Very quick installation without any need for additional manipulation (inflation, carrying rope stretching)
- Excellent also for the use as preventive containment barrier
- Boom can be designed according to your special requirements
- Designed for the watercourses with the water flow speed up to 1 m/s without using of the carrying rope and tension members

Whole year long protection of small water power plant gating.
Containment boom REO758 avoids settlement of floating pollutions.

D – delivery time on agreement

Product code	Product name	Dimensions	Weight	Packing	D
REO758	Lightweight containment boom for calm water	5 m	6,0 kg	1 pc	D
REO777	Metal containment boom (standard length of segment is 4 m)	4 m	25,0 kg	1 pc	D
REO762	Anchoring set for hard ground (anchoring component, chain, Chain link "rapid", snap hook)			set	D
REO763	Anchoring set for soft ground (anchoring component, chain, Chain link "rapid", snap hook)			set	D

Spill containment booms

Ladder intervention containment boom REO788S

- For use in intervention and permanent operating
- Light foldable construction
- Segments joined through pegs
- Segment length 4 m

Ladder containment boom REO788

- Designed both for emergency application and for continuous operation on rivers with higher flow speed
- Stable double-float construction
- Quick installation
- 2 floats ensure high effectiveness and stability
- Designed for the use at flow speed up to 1,3 m/s
- When carrying rope and chokers are used the boom adapt itself to the water level fluctuation
- Thanks to the catamaran system REO788 is highly stable and effective even in high water flow speed rivers
- Suitable for the application during the building and rebuilding of the bridges for prevention and capture of possible spills
- Segment length – 5 m

Accessories – optional:

- Steel rope Ø 8 mm, length 80 m, winded on reel
- Anchor rod – 2 pcs
- Wedge clamp – 1 pc
- Spindle stretcher – 1 pc
- Choker chain – quantity and length according to your need

REO762 – Anchoring set for hard ground

Anchoring component 1 m – 2 pcs, chain 2 m – 2 pcs, chain link "rapid" – 4 pcs, snap hook – 4 pcs

REO763 – Anchoring set for soft ground

Anchoring component 1,5 m – 2 pcs, chain 2 m – 2 pcs, chain link "rapid" – 4 pcs, snap hook – 4 pcs

Reel for floating rope for spill containment booms REO706

- Lightweight metal construction
- Reel is designed for 200 m long PP rope diameter 12 mm
- Powder paint surface finish

Floating rope REO707

REO788S was used during international training ROPA 2009.

D – delivery time on agreement

Spill containment booms

Lightweight containment boom for calm water REO759

Containment boom is designed for creating of the barriers on water during the liquidation of ecological accidents and also for prevention against pollution. The boom is practically unsinkable. Even partially destructed retains its properties. It has very good physichemical properties, chemical resistance and UV resistance. The boom can be used on water without maintenance for several years. The containment boom consists of a resistant sleeve filled with lightweight foam, equipped with the steel anchorage rings used for a guide rope gripping and for linking the booms together. There are the weight bars at the bottom of the boom. Used materials are friendly to the environment and resist to climatic affects for a long time. Containment boom is designed for calm water flows (max. 0,5 m/s).

Technical parameters:

Length: according to your requirements

Height: 48 cm

Segment length: 5 m

GOOD PRICE

Containment boom for higher water flow speed REO757

- Flexible unsinkable float
- Standard float length – 5 m
- High durability
- Very good storage ability
- Instant application
- Easy linking of particular segments
- Designed for water streams with higher water flow speed (up to 1 m/s)
- Weights can be used in higher flow speed but only on pre-prepared water courses where there is possible to tighten carrying rope
- Resists to climatic effects for a long time
- Boom can be designed according to your special requirements
- Available accessories: steel carrying rope – rope stretchers – links, snap-hooks, rings, clamps

GOOD PRICE

Compartment containment boom REO799

- Highly stable and firm metal construction
- Self-supporting
- You can cross a river walking on the installed boom
- Boom segment can be used as an improvised floatage – maximum load 150 kg
- Quick segment connection with the help of pins
- Magnetic sealing components between segments
- It is necessary to have lifting device to handle the segments
- Designed for the use at flow speed up to 1 m/s, for specially defined river sites can be flow speed even higher
- Segment length – 3 m and 5 m

Accessories – optional:

- Connecting pins for each segment – 2 pcs
- Motor winch
- Anchor rod – 4 pcs
- Sealing end component – 2 pcs
- Handling rod – 2 pcs

Product code	Product name	Dimensions	Weight	Packing	D
REO759	Lightweight containment boom for calm water	5 m	11,5 kg	1 pc	D
REO757	Containment boom for higher water flow speed (standard 5 m long segment)	5 m	19,5 kg	1 pc	D
REO799	Compartment containment boom	5 m	320,0 kg	1 pc	D
REO767	Accessory set for containment boom			set	D
REO762	Anchoring set for hard ground (anchoring component, chain, Chain link "rapid", snap hook)			set	D
REO763	Anchoring set for soft ground (anchoring component, chain, Chain link "rapid", snap hook)			set	D

Inflatable spill containment boom

When applied on water, the bigger top chamber is filled with the air and the bottom chamber is filled with water

Two-chamber containment boom REO MAXX

Spill containment boom REO MAXX is designed for creating of the barriers on water and land during liquidation of the ecological accidents.

The boom consists of 150 m long two-chamber sleeve (double-tube foil in roll) which is wound on a metal reel frame, 2 pieces of metal couplings equipped with fire "C" couplings and air-outlet valve.

The spill containment boom is also equipped with 8 pieces of fastening belts, 2 pieces of ball inlet valve 2" with fire "C" couplings, floating rope, PE adhesive tape and a cloth packing. Foil sleeve REO730 can be bought separately

Both chambers are filled with water when creating the spill barriers on land

Accessories for REO MAXX

Air blower REO733

- Designed to inflate the spill containment boom REO MAXX
- Two stroke petrol engine, engine power 8 m³/minute

D – delivery time on agreement

Product code	Product name	Dimensions	Weight	D
REO731	Spill containment boom REO MAXX, including sleeve and accessories	150 m	106,0 kg	D
REO730	Two-chamber sleeve for REO MAXX	1 m	0,5 kg	D
REO733	Air blower with suction hose	600 x 350 x 470 mm	9,0 kg	D
PAO730	Patch tape for sleeve repair	48 mm x 25 m	0,3 kg	D
REO762	Anchoring set for hard ground (anchoring component, chain, Chain link "rapid", snap hook)			D
REO763	Anchoring set for soft ground (anchoring component, chain, Chain link "rapid", snap hook)			D

Inflatable spill containment boom

Inflatable floating booms REO705S, REO710S

Booms are used for catching of the oil-based substances on water. It is an air cylinder-shaped tube with a diameter of 30 cm. The tube is equipped with 35 cm long skirt. The boom is manufactured in two various lengths 5 and 10 m. Individual segments can be linked together.

- Boom skirt is reinforced with polyamide webbing along the full length. It also creates the eyes for fastening the booms to the bank or anchorage
- There are the reinforced fabric connectors at both ends of the boom. They permit linking with the use of metal fast-locking lock
- Galvanized chain is used as a weight
- Textile packing for easy handling also available

Metal boom connectors REO705Z

- Connectors for booms REO705S and REO710S
- Connector has two parts (float and skirt)

Inflatable booms are suitable for calm waters: max. flow speed 0,2m/s

Inflatable booms can't be left unguarded.

Inflatable booms are not suitable for long term installation.

Rescue throwing bag ZHP001

BRAND NEW

- Inner bearing foam assures floating of bag on surface
- Reflective strips increase safety
- Inner floating rope 20 m length, diameter 10mm, tensile strength 10000N
- Webbing system on back side allows fixation with vest or hitching with carbine
- Cover adapted for drying

Inflatable rescue walkway CHN001

- Inflatable rescue walkway
- Rigid when inflated, rolls up when deflated
- Safety and stability on water, ice, mud, swamp or any other unstable terrain
- Link several units together and get longer walkway

Accessories:

- High-pressure hose with coupling for walkway inflation valve, electric pump

Usage:

- Recovery raft
- Work platform
- Mud flat recovery
- Ice rescue

Life jacket ZPV001

BRAND NEW

- Indispensable equipment for fire fighters, rescuers, police and other rescue teams
- Chest belt with quick closing safety buckle
- Front pockets + pocket for throwing bag
- Waist constringency
- Padded shoulders, front opening
- Inner material PVC Soft Foam

D – delivery time on agreement

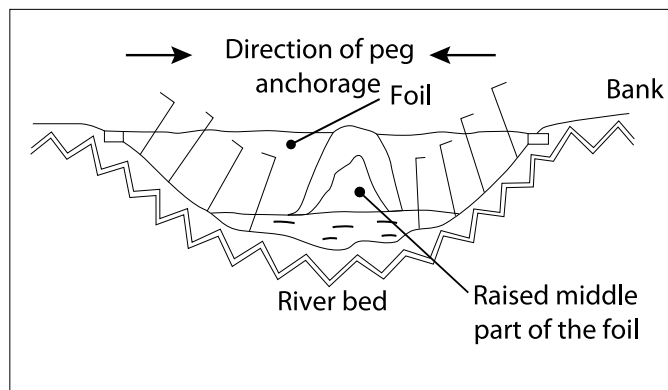

Product code	Product name	Dimensions	Weight	Packing	D
REO710S	Inflatable boom incl. weights	10 m	37,5 kg	1 pc	D
REO710V	Textile packing for boom REO710S		1,0 kg	1 pc	D
REO705S	Inflatable boom incl. weights	5 m	20,0 kg	1 pc	D
REO705V	Textile packing for boom REO705S		1,0 kg	1 pc	D
REO705Z	Metal boom connector – fast-lock – (3,4 kg)		6,0 kg	1 pair	D
CHN001	Inflatable rescue walkway – 3 segments	3 x 5 m	60,6 kg	1 pc	D
CHN002	Inflatable rescue walkway – 1 segment	1 x 5 m	20,2 kg	1 pc	D
CHN003	High-pressure hose with coupling		0,5 kg	1 pc	D
CHN004	Electric pump		2,0 kg	1 pc	D
CHN005	Transport packing for 3 segments			1 pc	D
ZHP001	Rescue throwing bag			1 pc	D
ZPV001	Life jacket			1 pc	D

Dam barrier

Dam barrier REO715

Designed for creating of the barriers on small water streams where it is necessary to create a water dam. It helps to slow down the river flow speed and eliminate the turbulence during liquidation of petroleum substances leaks.

Dam barrier enables the afflux – river bed width up to 6 m, with additional adjustments up to 10 m, afflux height is from 0,6 to 0,8 m. Dam barrier colour is subject to a change according to the supplier's decision.

Barrier is manufactured from polyethylene foil single-coated by non-woven textile. Complete delivery includes collapsible supporting tubes, fastening rods and 10 m long rope. At the top dam edge there is a stitched sleeve for putting the supporting bar through. The bottom edge is reinforced by stitching for fastening of the barrier to the bank and to the bottom of the river. In the middle part of the foil there is sewed-in sleeve, which is reinforced by metal ring round the filler throat. The metal ring is fastened to the sleeve by the webbing with ratchet.

Dam barrier accessories:

- Supporting tubes: 2 pcs – 2 m, 2 pcs – 1 m
- Fastening rods (buttons): 20 pcs
- Throttling rope for discharge sleeve: 10 m
- Webbing with ratchet: 2,2 m
- Metal circular ring: 1 pc

Flood control barrier PPH070

- Quick construction without any need for mechanization and trained staff
- High stability and resistance on untreated ground without need for anchoring
- Construction of the barrier of unlimited length
- Excellent tightness
- Very good storage ability
- Unlimited shelf-life
- Low weight
- Water self-weight tighten the barrier

Usage:

1. Dam barrier – damming and calming down of small water stream. Site preparation for collection of oil substances.

2. Flood-control barrier

- Protection against spreading of water during flooding
- Raising of river banks
- Barrier on street, gateway, doorway

During the construction works on the water stream, it is possible to use the dam barrier for the water transfer over the building site. It can also be used during the building and rebuilding of the bridges, canal locks, pillars, crossings of other line constructions across the water (gas pipeline, water pipe, canalization, oil pipeline or product pipeline). Metal sleeve ring is easily removable.

Product code	Product name	Dimensions	Weight	D
REO715	Dam barrier with 3 m long discharge sleeve	1 set 6 m	59 kg	D
RUK715	Discharge sleeve for REO715	1 lin. m	1 kg	D
PPH070	Flood control barrier	H 70 cm, W 100 cm	18 kg	D

Company REO AMOS

Company REO AMOS was established in 1991 and since then it is specialised in manufacturing and selling of the products for prevention and removal of the environmental accidents, for safe and clean working environment.

REO AMOS brings new products and catalogues out regularly. All the products have high technical quality, conform to valid legislation and they are certified by the authorized institutions.

REO AMOS has implemented the Quality Management System ISO 9001:2000.

Company REO AMOS assisted in removal of the largest ecological accidents in the Czech Republic, e.g. removal of the ecological accident in OSTRAMO or accident of pipeline DRUŽBA. As the appreciation of the quality of our products and services can be considered our membership in the Integrated Rescue System of the Czech Republic - from January 2002.

REO AMOS successfully delivers the products to the whole of Europe.

2005 – We delivered sufficient quantity of the spill containment booms and sorbents for the removal of the accident of the oil pipeline DRUŽBA in Čáslav in January 2005. The Mobile Oil Separator REO100 was also applied successfully.

1997 – Removal of the oil accident in OSTRAMO was realized only with the sorbents and spill containment booms manufactured by REO AMOS.

2010 – flood control bags helps people protect their belongings during floods.

IN OUR OFFER DO NOT MISS

FIBROIL (REO Fb) Dry-Goods – absorbent filters filling

Universal absorbent perforated mats

Universal loose sorbent REOSTAR

Hydrophobic spaghetti absorbent boom

Do you know that...

...we can give you advice

- We can suggest you the best technical solution of your issue*
- We can advise you how to manage with hazardous substances spills*
- We can work out simple and efficient preventive precautions to reduce risk of accidents*

...we can manufacture atypical products according to your special requirements in our metalworking plant and absorbents production

- high quality, expertness and rapidity*

Distributor in your country:
